Mr. Sebastiano Sala son of Francesco Paolo is employed by the Italian Minister of Public Works under our direction as truck driver.

Mr. Sebastiano Sala was a prisoner of war in Germany, a partisan in Italy and homeless, his house at Scauri having been destroyed.

He is a married man with one child and a father unable to work.

We recommend that his flat (1 bedroom and a kitchen) should not be derequisitioned.

This will serve to introduce Zamo Tarcisio, who has been employed by Genio Civile as a driver, at the disposal of this Office, for more than three months.

Zamo Tarcisio has had thorough experience in operating prime movers, 2 $\frac{1}{2}$ ton, 6 x 6, British 3-ton, 15 Cwt., and jeeps.

Reduction in operations of this Office forced his discharge without prejudice and it is recommended that he be given a high priority in any opportunity for employment. He is the head of a family who are entirely dependent upon him for support.

TO : Whom It May Concern

1. Major Morsella has been employed by this Highway Equipment Section, Public Works and Utilities Sub-Commission, from July 1945 to the present time as a Field Assistant. His duties have included coordinating the operation of highway equipment construction with military operations, instructing Italian personnel in the operation of such equipment, and working in cooperation with the Ministry of Public Works and Genio Civile organizations in rehabilitation construction. His work has been of an important nature and has been conducted in a highly satisfactory manner. Major Morsella is of good character and steady habits and has been extremely valuable to this Equipment Section. He is recommended to anyone who may have need for his services.

SUBJECT: Introduction of Capt. Conte Emanuele Milani

TO : Mr. Joseph W. Hughes
Administrative Officer, FEA

1. This will introduce Capt. Conte Emanuele Milani, of whom I spoke to you by telephone today. Capt. Milani is at present employed by this Public Works & Utilities S/C, Section, and is a valuable employee. He will continue to serve in that position as long as it is possible for a means to pay him exists from the Public Works & Utilities S/C. Since this status is, however, of a temporary nature and may be discontinued at any moment, it is very much recommended that Capt. Milani be employed as a Foreign Economic Administration (State Department) employee and be permitted to continue to serve with this Section. However, in consideration of the ability and background of Capt. Milani, should he be of more value in another position with Foreign Economic Administration than this, for his best interests and the best interests of the Department, this office would relinquish his services.

2. Capt. Milani was employed as Administrative Officer in Aquila, Region 5, for Col. C. Lattimer, from Aug. 1944 until May 1945, at which time he joined this Highway Equipment Section. He has held the position of Field Assistant with headquarters in Florence from May until now. Col. Lattimer has returned to the U.S. and has contacted Mr. E. Hunt in an effort to obtain employment with F.E.A. for the Captain, and in a letter from Col. Lattimer to the Captain it was indicated that Mr. Hunt had written to Mr. Merritt, Special FEA Representative.

3. Capt. Milani is certainly worthy of any consideration you may be in a position to give him.

Her services have been entirely satisfactory and she is an excellent typist. Although she does not speak English, she copies and types English very rapidly with scarcely any errors.

2. Due to essential changes in our program and the fact that a number of positions in our factory have been abolished, there is no longer work for her to do. She has proven herself capable of handling general office work as well as a very good typist.

SUBJECT: Trucks

TO : Capt. Milani, Field Assistant
Highway Equipment Division, P.W. & U. S/C

1. I have on hand correspondence from Ing. Ferretti, Chief Engineer, Highway Division, Ministry of Public Works, in which he agrees to the loaning of trucks to Ing. Greco, a contractor who is working on the reconstruction of Casalecchio Bridge near Bologna. He requests that these trucks be released to the U.S.V.S. at Bologna since, when the above-mentioned work is completed, they will be returned to U.S.V.S. in Bologna for such road work as they have in that area.

2. Ing. Ferretti has also issued instructions for the release of two concrete mixers to the contractor engaged on the same work as indicated above and the Ponte Lungo bridge on Highway 9. The same instructions apply as to their transfer to the Chief Engineer, U.S.V.S., Bologna, as is shown above for the trucks.

3. Ing. Giunta has been advised by the office of Ing. Ferretti of this action. You will please assist in the transfer of these pieces of equipment in any manner in which he may call upon you for.

R O M E

Sir,

With reference to your request of a translator of technical books and pamphlets I inform you that I could do such a work at the following conditions:

- a) Cost - 120 lire for each typed page (one side), size and space as shown in the enclosed specimen.
- b) Payment- work should be paid when fifty pages are completed (both translated and typed) and delivered, or less in case of a shorter pamphlet.
- c) date of delivery of a complete translation to be established according to the size and number of pages of the book or pamphlet.
- d) Paper - for writing and typing, to be supplied by you as necessary - carbon paper too in case of your requiring a duplicate typing.

621

./.

./.

e) In case of forced interruption the work done so far should be paid according to the above mentioned condition a).

f) I would prefer to deal with automobile subjects.

Yours

War goes on, whatever the weather. Every commander of sea, air and ground forces has to make the fullest allowance for the effect of weather on the battles to fight. The soldier, the sailor, the airman, buck the weather head on as few do in a peacetime world save those who guarantee the scheduled delivery of the mails. The fighting goes on, whatever the weather. But storm and cold and extremes of heat can seriously hinder many kinds of military operations - so seriously that great operations may fail on their account or may not be undertaken

I refer the following incident happened this afternoon at about 17.30 hours in the Movement Office of this Garage.

The Sig. TAGLIAFERRI, Officer of Genio Civile while he was paying the wages to driver ANDREINI Alessandro, he noticed that the driver ANGELINI, held a meeting with all the personnel employed in the garage, in a room contiguous to, this Office, and warned him to speak less loud or to go to another place.

At such warning ANDREINI said to TAGLIAFERRI he was an imbecile, TAGLIAFERRI ordered ANDREINI to go out because he was a "rude imbecile".

ANDREINI started to fight hitting TAGLIAFERRI twice with his fists.

Witnesses of this fact were Ing. CROCETTA, Sig. RONZULLI, Sig. CRISPOLTI Antonio, and Sig. CRISPOLTI Luigi.

Please inform me which steps I have to take.

SUBJECT: Trucks from Civitavecchia

AD/4/13

- 1 - We have inspected the Trucks from Civitavecchia, and found them, in general, out of order. A number require new batteries, keys for switches, and general servicing. In some cases special overhauling is necessary to put trucks in service again.
- 2 - This work will be completed as quickly as possible, but it is necessary to obtain supply of spare parts and tools fit for these trucks, which matter is being taken up with proper authorities. New batteries are expected to be supplied within a week through AC. Commerce Sub Commission.
- 3 - Work may be slightly delayed since the trucks are a new type on which we have not worked before, and for which special tools and parts will be required.

F.O. GREGG
Highway Equipment Officer
AC. EN. M. M. Sub/Com.

Conclusion.

- 1 - Abbiamo verificato gli autocarri ritirati a Civitavecchia e li abbiamo in genere trovati in disordine. Alcuni richiedono batterie nuove, chiavi per l'interruttore del quadro, revisione degli impianti vari. Alcuni richiedono una riparazione generale prima di essere impiegati.
- 2 - Un tal lavoro richiede per essere ultimato qualche tempo e sarà fatto al più presto possibile ma è necessario avere i pezzi di ricambio e gli attrezzi adatti a tali autocarri, cosa che si sta trattando con le competenti Autorità. Si spera che la AC. Commercio Sub Commissione ci possa fornire in 6-7 settimane batterie nuove.
- 3 - Il lavoro sarà forse un po' ritardato poiché gli autocarri sono di un tipo nuovo sul quale non abbiamo mai lavorato prima e per cui attrezzi e parti di ricambio speciali sono necessari.

Mr. Griffith,

Some time ago I asked you for the possibility to have Liberatore Pasqualino transferred here in Rome in quality of Industrial Expert, you said yes, therefore I ask you again the favour to do some thing for him.. He is a good and reliable Technician and Industrial Expert. He has been a teacher for three years in the Technical Scholl (Aquila), and actually is employed by the Provveditorato alle Opere Pubbliche (Aquila) He has been for three a student in the University.

The transfer of Liberatore is very important for him and for myself.

I will be very grateful if you can help me in this matter.

If you can have him called by the Italian Ministry of PUBLIC WORKS FROM WHICH LIBERATORE IS DEPENDING.
