Reg. No. MGS - 180 - ENG ( LAC Airgram 35 )

Item 31. Spare parts and miscellaneous supplies for equipment for one year.

1. The power units in heavy equipment varies considerably and the parts listed herein are therefore on a prescriptive basis. It is assumed each unit at normal extensive operation will require one major overhaul each year. To this has been added 10 % in those parts effected by operational wear to compensate the probable lack of experience among Italian operators in the use of modern models. This may prove to be too conservative and it is respectfully recommended some one acquainted with the ability of Italian operators be requested to judge in that respect.

Parts may not,therefore, be adequately anticipated, except lists be compiled separately for each type equipment manufactured. The Manufacturers may be relied upon to supply the spare parts required over any given period of operation provided they may know generally the conditions under which the equipment will be operated and the probable approximate extensiveness of operations. Requests for the furnishing of this service should also give attention to the unusual abuse parts effected by inexperienced operators will receive with a request for proportionate increases in those parts.

SUBJECT : SPARE WHEELS
DATE : 28 May 1945
REF : AD/6

Dear Sgt.

I can't come myself to draw the six vehicles left on my release, so I send the bearer, Eng. ARGENTIERI to do it for me.

I hope you will remember that you promised me to give me some spare wheels 10.50x20 for these six trucks (possibly five of them) as they are going to be used for long trips and if they have not spare wheels the situation would become hopeless.

Thank you very much for your help.

Yours

1. We have been telephonically informed by the Transportation Officer, A.C., Ancona that the transportation of a shipment of equipment from Ancona to Rome has been delayed due to, first, the unavailability of special cars for the shovels, and second, to interference by the P.W. 2. We will send men and trucks to Ancona to-morrow and are dis-assembling the shovels for ordinary shipment. Accessories, tools, small parts, spares, batteries will be transported to Rome in our trucks, since we find our equipment is being stripped during transit by rail.

3. Prior application was made by me in Ancona for rail bid but the matter was not completed. Please make application for the shipment of the following from Ancona to Rome:
