Attn: S/Capt. R. L. Griffiths

1. In reference to your tn.A.2/9/6, of 26 October 1945, subject as above, a careful examination of our records shows that the numbers listed in your paragraph 2, above letter, in no way coincide with identifying numbers of the 3 cranes which are under discussion.

2. Since, as indicated in your paragraph 7, complete confirmation of property responsibility has not yet been established and in view of the differences in identifying numbers, as indicated above in paragraph 1, it is felt by this Office that some further confirmation should be forthcoming from higher authority.

3. This office is immediately forwarding a communication to the Engineer Depot at Bari for full information on the transaction referred to in your paragraph 2 and will immediately advise you of the results of this inquiry. It is desired to cooperate with you in any manner possible in settling this matter, but before any further movement of this heavy equipment is attempted all details of ownership should be completely confirmed.
