TO WHOM IT MAY CONCERN:

6 August 1946

Major Louis W. LAUGHLIN O-0521392 CE has served under my command for nine months, the last three as Deputy Director of the Industry and Utilities Branch. During this period I have had ample opportunity to observe his work.

This Officer has handled his work in an exemplary manner which reflects great credit on himself and the Army of United States. His technical knowledge and skill has contributed much to the success of the mission of the Allied Commission in the most difficult problem of Electric Supply in Italy from November 1943 to the present date.

He is a down-to-earth, practical, clear thinker who gets a job done effectively, follows through to the final desired result. He is calm and cool under pressure and can work well with others inspiring their confidence in him.

Major Laughlin is especially commended for his most excellent work in preparing the "Historical Report of the Electrical Division". His report is a concise technical history of what happened in the Electrical Field in Italy from first days in Sicily to the present time and should prove of great benefit to future Military Government schools as well as the Italian Government.

SUBJECT: Employment - Alberto Toscano - Electrical Engineer

TO : Whom it may concern

1. Eng. Toscano was employed by the Electrical Division of the Public Works and Utilities Sub-Commission, Allied Commission, about July 15, 1944 and remained until October 1945.
2. During his period of employment he was under the direction of Lt. Col. Ranton in the Operation and Transmission Department.
3. Eng. Toscano's work consisted of field trips and inspections of damaged transmission systems and checking on the progress of rehabilitation. He also collected data concerning the rehabilitation of the electric systems in Central Italy.
4. During his employment with the Sub-Commission he assembled the data and prepared an accurate and up to date map of the electric generating stations and transmission systems in all of Italy.
5. In conjunction with other Italian engineers on the civilian staff of the Sub-Commission he was concerned with technical reports on the operations of the electric systems. In addition, other maps and records were prepared including frequency areas and territory served by the various electric utility companies in Italy.
6. He also acted as interpreter and liaison engineer between Lt. Col. Ranton and the power companies.
7. He supervised the work of the other Italian engineers in the Operation and Transmission Department.
8. He was the last Italian engineer in Lt. Col. Ranton's Department who was released when that Department was closed.
9. His work was at all times satisfactory and his knowledge and ability contributed much to the successful rehabilitation program of the Sub-Commission.

ALL' ATTENZIONE DEL COL. G.F. PARKER

Abbiamo ricevuto la gradita Vs/ del 17 Febbraio ed abbiamo letto con interesse ciò che ci avete scritto in merito alla Sig.na Margherita Costa.

La situazione attuale, per quanto concerne le possibilità di entrare a far parte della ns/ Società è che, in base a un recente Decreto, noi dobbiamo assumere il 12% del totale del ns/ personale, scegliendolo tra i reduci.

Questo è un peso non indifferente per le finanze della nostra Società, dato che molti nostri impianti sono stati distrutti e finora non abbiamo licenziato alcuno dei ns/ impiegati.

Siamo, quindi, dolenti di essere costretti a dirVi che per il momento, nessuna assunzione di personale è possibile, a meno che non si tratti di reduci.

Noi desideriamo rendervi certi, comunque, che il caso della Sig.na Costa sarà tenuto nella massima evidenza del ns/ Ufficio Personale per ogni futura eventuale occorrenza.

Distinti saluti.

and have read with interest what you have written to us concerning Sig.na Margherita Costa.

The present position for what concerns the possibilities for people to join our Company is that, owing to a recent Decree, we have to take up 12 per cent of the total of our personnel, choosing them among the dismissed soldiers. This is a very heavy burden to the finances of the Company, as many plants of ours have been, destroyed and still we have not dismissed any of our employees; so we are sorry to be obliged to say that-for the moment - no taking up of people is possible, unless these are dismissed soldiers.

We wish to make you sure, however, that the case of Miss Costa will be kept in the first row by our Personnel Office for any future need.

We remain,

Sirs

Dear Dunlop

I should like to take the opportunity of expressing my appreciation for the whole-hearted and efficient co-operation the Corps has received from the Regional Public Works and Utilities Office.

The rapid progress and sound execution of permanent bridge reconstruction and of road repair and maintenance, particularly on Route 13, has largely been due to the personal energies and powers of organisation of Major KNIGHT and his assistant, Captain SAUL. Their efforts have enabled valuable work to be accomplished successfully with the minimum of military assistance.

Due to their efforts also, a sound, comprehensive road and snow clearance scheme based on the civil organisation has been evolved to keep open all priority routes through the winter months.

May I offer the thanks and congratulations of 13 Corps for the successful results accomplished.

Yours sincerely

1. Your letter of 18th September has just been delivered to me.

2. In as much as the turnback date is not known in Italy as yet and may very probably not be 30 September, it is deemed advisable that the regional engineer and his staff stay at their posts until properly relieved or until extenuating circumstances arise in some possible personal instances.

SUBJECT : Organization P.W.&U. Division Piemonte Region
TO : Col. RISTED - P.W.&U. Sub Commission Rome

1. A considerable amount of uncertainty exists as to the continuance of AMG in the north of Italy after 1st. of October. As of that date the work of the division will be practically complete since all projects possible of construction before winter will have been submitted, all materials released to Italian control, all transport released to Italian control and only slight supervision work could be accomplished.

2. Furthermore the transport available to P.W.&U. has been reduced and will be still further reduced on September 27th., thereby limiting the operations of this Region.

3. The Food, Public Health, Industry and some other Divisions have already turned over all functions to the Italian Government.

4. With these facts in mind the following plan is submitted.

- a) That Major Westwood be recalled from the Region as of 22 September.
- b) That Lt. Col. Bennet be recalled from the Region as of 24 September.
- c) That Col. Birchett and Major Robb be recalled not later than 30 September.
- d) This would leave Lt. Alsop and the Italian staff which would be reduced to those necessary for efficient operation.

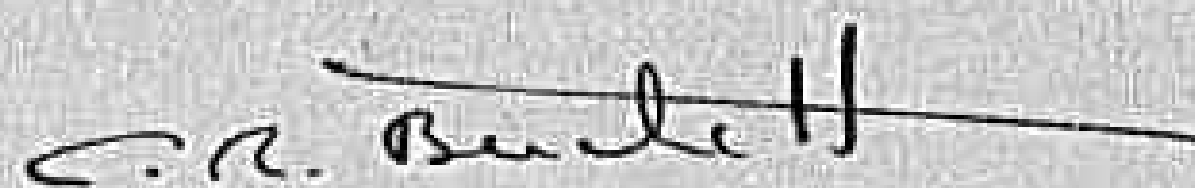

Lt. Alsop (who has been strongly recommended for promotion to Captain) is well able to supervise the work and answer to the Regional Commissioner and maintain contact with No 2 District. At present his section is the only one maintaining contact with the Works Co. located in Turin. As to technical supervision he could answer to the P.W.&U. Milan office branch of Rome HQ.

5. If the above plan is approved it could be put into effect without the Region closing and would give the office personnel concerned some idea as to future operations.

- 2 -

All three American officers are anxious to return home.
Lt. Alsop has asked to remain.

6. If the plan in whole or in part is accepted
it is requested that this office be so advised so that
a survey of Italian Personnel could be met.

1. In order to present a timely "picture" of the current status of personnel in the Economic Section, Allied Officer and enlisted personnel have been classed into three ~~numerical~~ numerical groups. These groups are:

- | Group No. | Description |
|-----------|--|
| 1. | That personnel <u>essential</u> to the headquarters organization until the termination of AC activity. |
| 2. | That personnel tentatively selected for liaison duty after the "turn back" of the regions to the Italian government. |
| 3. | <u>Surplus</u> . This group includes that personnel immediately <u>non-essential</u> as well as those who will become <u>non-essential</u> after the "turn back" of the regions. |

2. In general, no consideration has been given in this grouping to Adjusted Services Rating Scores or the personal desires of the Officer or enlisted personnel concerned. With this in mind it is realized that the group categories are subject to change and the fact that a particular Officer or enlisted man is in Group 1 he may be placed in Group 2 or 3 on short notice. This is particularly true when the theatre Commander is called upon to move from the theatre personnel in an ASR score group.
