1001/10A/70

SUBJECT: Annotated Mosaics and Consolidated Damage Reports-Towns
Northern Italy.

TO : All Recipients of above Mosaics and Reports.

1. The programme originally laid down for the production of annotated mosaics and consolidated damage reports has now been completed, with the exception of the Consolidated Damage Reports on MILAN and BOIZANO, which will follow shortly.

2. These Mosaics are annotated with a number of items, mainly items of Engineer interest, such as Public Utility installations and communications, but also large buildings of importance either from the administrative point of view or of potential value for accommodation and storage if undamaged when the town is occupied by us. The consolidated damage reports produced by 336 Wing and the amendments issued by this headquarters do give information on a certain number of buildings and installations in addition to those specifically annotated on the mosaic. However, it is obvious that the selection of buildings or installations which will be reported on must be to a certain extent arbitrary, and therefore recipients are requested to offer criticism or suggestions as to what further items should be included in future damage report amendments in order to meet their specific requirements.

3. These requests for the inclusion of further information should be as detailed as possible and should give all available information as to location, nature etc of the objective -- e.g. Requests might be in the following forms:

- A. Reference Mosaic of TURIN-- buildings at mosaic reference 012129 and 214086 to be included in all future amendments.
- B. Reference Mosaic of TRIESTE -- Fullest details required of damage to Cranes in Basins one to four in New Harbour area. **8702**
- C. Railway warehouse facilities in Central Station marshalling area. Fullest possible details required.

1. The programme originally laid down for the production of annotated mosaics and consolidated damage reports has now been completed, with the exception of the Consolidated Damage Reports on MILAN and BOIZANO, which will follow shortly.

2. These Mosaics are annotated with a number of items, mainly items of Engineer interest, such as Public Utility installations and communications, but also large buildings of importance either from the administrative point of view or of potential value for accommodation and storage if undamaged when the town is occupied by us. The consolidated damage reports produced by 336 Wing and the amendments issued by this headquarters do give information on a certain number of buildings and installations in addition to those specifically annotated on the mosaic. However, it is obvious that the selection of buildings or installations which will be reported on must be to a certain extent arbitrary, and therefore recipients are requested to offer criticism or suggestions as to what further items should be included in future damage report amendments in order to meet their specific requirements.

3. These requests for the inclusion of further information should be as detailed as possible and should give all available information as to location, nature etc of the objective -- e.g. Requests might be in the following forms:

A. Reference Mosaic of TURIN-- buildings at mosaic reference 012129 and 214086 to be included in all future amendments.

B. Reference Mosaic of TRIESTE -- Fullest details required of damage to Cranes in Basins one to four in New ~~Harbour~~ ⁶⁷⁰² area.

C. Railway warehouse facilities in Central Station marshalling yard MILAN - fullest possible details required.

4. In order to meet individual requirements a special detailed report with a limited distribution could if necessary be issued on any specific item. Such reports would be amended by further reports when fresh cover became available.

It will be appreciated that to facilitate production of such detailed reports, all available information should be given in order to identify the buildings etc accurately.

5. Any comments or suggestion which would increase the value of these mosaics and reports would be appreciated.
