We learned that the Allies are desirous to get rid different kinds of materials located in several dumps in Italy.

We learned too, that these materials would be transferred both directly to the Italian Government and to any important Italian Industries.

In view of the importance of our Industry A.P.I. - Anonima Petroli Italiana, which controls a large groups of important industries of its own property, as :

S.A.C.A.E. - (Civil Building Soc.Lim) which undertook several important reconstruction works and is presently working for the Società Romana di Eletticità building a new electric work for this Society at Tivoli (Rome).

S.I.A. - (Italian Transportation Service) which helps with its trucks to supply food and other materials of first necessity for the country and carries with its truck-tankers petrol products for the C.I.P. (Italian Petrol Committee) under direction of A F H Q Petroleum Section.

O.R.S.A. - Engine-building Soc. Ltd, which carries whichever mechanical works.

M E T R A - (Mediterranea Transportation Soc.) To this Society, like to the S.I.A., belong a large number of trucks, which are working in carrying materials for Civil and Military Authorities.

O.M.A.R. - Engine building work-shops at Riccione, which has an important manufactory at Riccione, specialized in auxiliary plants for the marine.

C A N O M - Dockyard at Fiumicino. Interesting in building and repairing of all types of seacrafts.

We should be much obliged if this respectfully Commission would be so kindly to forwarding to our Direction a copy of the list of materials the Allies are willing to leave, without applying to the Ministero dell'Industria e Commercio.

Item 1. Boots, mountain, ski.

3. Could these be made available to Public Utility Companies, whose employees have to maintain electric transmission lines etc, over very mountainous country, usually in inclement weather?

4. In helping the Utility Companies in this manner, it will greatly assist civil and military alike, since any breakdowns to the public services are felt by both.
