355

Declassified E.O. 12356 Section 3.3/NND No. 785019

(COPY)

From Societa Meridionale di Elettricita
Naples

Ref:-471/994
Date, 7 June 45.

To:- A.C. Headquarters
Electrical Division.

Reference your letter 300/PWU dated May 19th.
We cannot obtain our timber requirements in the Reggio Calabria Area because no silan pine grows in that province and this is the only wood available fit to replace the firwood for our needs.

We ask you to kindly try to obtain the timber for us from the controlled Areas through Military channels.

Our requirements- they are really most pressingnow-are still as detailed in our memorandum dated February 17th. 1945 viz.

Squared timbers cm 10 x 10 x 400	m3 5
Planks, thickness cm 2.5	m3 75
Planks, thickness cm 4	m3 50
Squared poles 11 x 15 cm x 6 + 8 mt	m3 70
Total requirements of silan pine timber	m3 200

Carriage by railway from the Cosenza or Crotone Rlw Station to Trattamaggiore-Crumo (Naples) Rlw St.

We also call your attention to the fact that we had planned to use for our building work the lumber from 11 large wooden barracks we own in Cecita-Longobucco (Cosenza) but these were requisitioned in March 1945 by an American Unit, a detachment of 2698th Technical Supervision Regt APO US Army.

We pointed out to Maj T. B. Foster C.E. U.S. Army. who is in Command of the Detachment, that we badly needed the lumber from the barracks. He kindly wrote to the Engineer Office - Benbase South APO 782(See attached copy of letter) asking that office to supply the lumber we needed, but the request was not granted until today.

Should you not be in a position to obtain the timber for us through Military channels we ask you to kindly take steps to have those barracks derequisitioned.

Any further delay in the allotment of the required timber would seriously interfere with the work of reconstruction which is under way.

Trusting this important work will receive your prompt attention.

We thank you and remain

respectfully yours.

(COPY)

DETACHMENT, 2698th TECHNICAL SUPERVISION REGIMENT (OVERHEAD)
3d ENGINEER SERVICE BATTALION (ITALIAN)
APO 782 U.S. Army

15 March 1945

Subject; Property belonging to Societa Meridionale di Elettricita.

To;- ENGINEER OFFICER, Penbase, APO 782 U.S. Army (ATT Lt Col Cooley)

1. Reference previous letter this Headquarters, subject as above dated 12 March 1945. According to Eng Davatalli , the objections of the Societa to the requisitioning their camp site at Cantiere Cocita Calabria for this organisation, were based on the fact that the Societa planed to use the lumber from the barracks to build forms for concrete in the construction of a project in the vicinity of Naples.
This project is to be built by direction of Major Ryan Engineer Service, Penbase South. Eng Davatelli has informed us that there would be no Objection whatsoever to occupying this camp if the Company could be provided with lumber from another source. The Societa also has no objection to the requisitioning by this organisation of a small quantity of pipe mentioned in the first letter. They have no contemplated use for the pipe.

2. Request, if possible, that arrangements be made to release the required amount of timberto the Societa from Engineer Depots. The present camp, with barracks is an ideal one for the battalion, and as pointed out previously its use will allow the organisation to start operations with the 800 Engineer Forest Company at a much earlier date, and will also be a great saving of materials.

James B. Foster
Major C.E.
Battalion Supervisor.

Copy to Engineer Penbase South
Electrical Section.

Portiamo a vostra conoscenza che lo Stabilimento di Salerno dell'Italcementi non ci ha potuto consegnare entro il 31.7.45 le Tonn. 200 di Cemento assegnatoci col vostro Release order del 13.7.1945.

La mancata consegna è stata causata, da una parte, dalla temporanea deficiente alimentazione elettrica ehe ha ridotto notevolmente la potenzialità di carico dello Stabilimento e, dall'altra parte, dalla precedenza data ai prelievi di cemento destinati ai Reparti Alleati.

La Società Italcementi ha chiesto al Local Returns Board la proroga per le consegne scadute il 31 luglio.

Da parte nostra preghiamo codesto Ufficio di intervenire perchè sia concessa la chiesta proroga.

Preghiamo altresì perchè ci siano rinnovate le concessioni dei vagoni ferroviari necessari per il trasporto del cemento assegnatoci.

Con ringraziamenti.

Translation LS/MV

We inform you that the Italcementi Factory in Salerno was not able to deliver to us, within July 31st, the 200 Tons of cement allotted to us with your Relean order n. 3215 dated 13/7/45.

Delivery could not take place because of the temporary lack of sufficient electric power supply, which caused a remarkable reduction in the output of the factory and also because of the priority given to deliveries meant for Allied Units.

Ttalcementi Coy. alredy applied to the Local Retourns Board in order that a delay may be granted to it for the amounts which had to be delivered within July 31 st.

We ask your Office to kindly take steps in order that said de-

Memorandum for Major Price

S.M.E. cement

Sme has been allotted 600 tons of cement for JULY and AUGUST
The distribution of same as planned with eng. Capuano some days ago ought to be partially changed as follows, because our plans had to be altered to some extent owing to the lack of suitable lumber:

From Segni factory: 500 q.ls meant to go to Naples, forward to Frattamaggiore instead
500 " " " " Minturno " " Frattamaggiore

From Civitavecchia factory: 500 " " Minturno " " " Frattamaggiore
500 " " Campobasso " " Pescara(wwhere badly needed)

Unes Coy. will contact Major Price on our behalf in order to know his answwr and take the steps needed in accordance therewith with the representatives of the factories in Rome.

Luigi Santelli

with best thanks and kindest regards

Napoli, (105)
Via P. E. Imbriani, 42

Ministero dei Lavori Pubblici
Ispettorato Generale per l'Elettricità, Acqua e Gas
R O M A

Our Company and our subsidiaries covering all Southern Italy had to restore the public lighting service on a very small scale owing to the damages to our plants and above all owing to the shortage in bulbs, as our stocks were exausted both by war occourrences and Allied requisitions.

Our stocks are at present so small that a stopping in the service may be expected very soon.

We understand that big stocks of bulbs are frozen in Northern Italy by order of the A.C., and that the latter for lifting the block requires the approval by the "C.L.N.A.I.".

We state hereafter the minimum needs for not discontinueing the public lighting service in the coming months and we ask you to take proper steps in order to get the block's lifting:

Bulbs to be installed in sequence on one circuit

N. 700	- 800	lumen	- 7,5 Amp.
" 500	- 1000	lumen	- 7,5 Amp.

Legname

Ci riferiamo alla Vostra lettera 300 PWU del 19 maggio u.s.

Non è possibile per noi ottenere nella zona di Reggio Calabria le assegnazioni di legname di cui abbiamo bisogno per i nostri lavori di costruzioni edili in quanto in quella provincia non vi è il pino silano, il quale soltanto, in mancanza di abete, può essere soddisfacentemente impiegato per i nostri scopi.

Vi preghiamo pertanto di volervi interessare perchè ci venga assegnato il legname nelle zone della Sila controllate dagli Alleati.

La nostra richiesta, che ha ormai carattere di assoluta urgenza, è tuttora per il quantitativo precisatovi con nostra nota del 17/2/45; cioè per 200 metri cubi di pino silano così ripartiti:

- legname squadrato cm. 10 x 10 x 400	mc. 5
- tavoloni spessore cm. 2,5	" 75
- " " " 4	" 50
- pali squadrati 11 + 15 cm. x 6 + 8 mt.	" 70
	mc.200

Detto legname dovrebbe essere caricato su ferrovia a Cosenza o Crotone e spedito alla stazione di Frattamaggiore-Grumo (Napoli).

Vi facciamo anche presente che noi avevamo deciso di utilizzare per i nostri lavori il legname che avremmo ricavato dalla demolizione di 11 grosse baracche di nostra proprietà esistenti in un cantiere in località Cecita - Longobucco (Cosenza). Senonchè queste sono state requisite da un Distaccamento del 2698th Teonical Supervision Regiment, americano, fin dal marzo 45.

Facemmo presente al Comandante dell'Unità J.B. Foster, Major C.E. che il legno ci occorreva ed egli interessò l'Engineer Office della Penbase South APO 782 perchè, in cambio delle baracche, ci venisse fornito il legname richiesto (V.copia di lettera alligata). 323

Senonchè la richiesta non ha avuto alcun seguito.

Vi preghiamo quindi, ove non fosse possibile ottenere diversamente il legname che ci occorre, di volervi interessare per la sollecita

./.

derequisizione delle baracche.

E' comunque urgente, per le esigenze dei nostri lavori di ricostruzione che il legname ci venga assegnato senza ulteriore ritardo.

Translation

Reference your letter 300 PWU dated May 19th.

We cannot obtain our timber requirements in the Reggio Calabria Area because no silan pine grows in that province and this is the only wood available, fit to replace the firwood for our needs.

We ask you to kindly try to obtain the timber for us from the controlled Areas, through Military channels.

Our requirements - they are really most pressing now - are still as detailed in our previous memorandum dated february 17th, 1945 viz:

- Squared timbers cm. 10 x 10 x 400	m^3 5
- Planks, Thickness cm. 2,5	m^3 75
- Planks, Thickness cm. 4	m^3 50
- Squared poles 11 + 15 cm. x6 + 8 mt.	m^3 70
Total requirement of silan pine timber	m^3 200

Carriage by railway from the Cosenza or Crotone Rlw. Station to Frattamaggiore-Grumo (Naples) Rlw. St.

We also call your attention to the fact that we had planned to use for our building work the lumber from 11 large wooden barracks we own in Cecita-Longobucco (Cosenza). But these were requisitioned in March 1945 by an American Unit, a Detachment of 2698th Technical Supervision Rgt. APO U.S. Army.

We pointed out to Maj. T.B. Foster C.E. U.S. Army, who is in Command of the Detachment, that we badly needed the lumber from the barracks. He kindly wrote to the Engineer Office - Penbase South APO 782 (see attached copy of letter) asking that Office to supply the lumber we needed. But the request was not granted until to day.

Should you not be in a position to obtain the timber for us through Military channels we ask you then to kindly take steps in order to have those barracks derequisitioned.

Any further delay in the allotment of the required timber would seriously interfere with the work of reconstruction which is underway.

Trusting this important matter will receive your prompt attention.

We thank you and remain

respectfully yours

Società Meridionale di Elettricità

Mod. 8 (5000) Tipi A. Trani - 1-43

COPIA cg -

DETACHMENT, 2698th TECHNICAL SUPERVISION REGIMENT (OVERHEAD)
3d ENGINEER GENERAL SERVICE BATTALION (ITALIAN)
APO 782 U.S. ARMY

15 March 1945

Subiect : Property Belongin To Società Meridionale di Elettricità
To/ Engineer Officer, Penbase, APO 782, U.S.Army (ATTN: Lt.Colonel Cooley)

1. Reference previous letter this Headquarters, subject as above, dated 12 March 1945. According to Engineer Lavatelli, the objections of the Società to the requisitioning their camp site at Cantiere Cecita, Calabria for this organization, were based on the fact that the Società planned to use the lumber from the barracks to build forms for concrete in the construction of a project in the vicinity of Naples.
This project is to be built by direction of Major RYAN, Engineer Service, Penbase South. Engineer Lavatelli has informed us that there would be no objections whatsoever to occupyng this camp if the company could be provided with lumber from another source. The Società also has no objections to the requisitioning by this organization of a small quantity of pipe mentioned in the first letter. They have no contemplated use for this pipe.

2. Request, if possible, that arrangements be made to release the required amount of lumber to the Società from Engineer Depots. The present camp, with baraks is an ideal one for the battalion, and as pointed out previously its use will allow the organization to start operations with the 800 Engineer Forest Company at a much earlier date, and will also be a great saving of materiars.

JAMED B. FOSTER
Major C.E.
Battalion Supervisor

NAPLES COMMUNE
APO.394

5 June, 1945.

R/1947.

SUBJECT : Trucks of Società Meridionale Elettricità.

TO : HQ. A. C.
(Attention Transportation Sub-Commission).

1. A critical situation has arisen with regard to the trucks used for the maintenance of power stations and in particular transmission lines, of the SME at Sila.

2. Naples area requires about 75.000 KW. for essential ~~sources~~ services: Flour mills, pumping plants, electric light, etc.; of this about half is produced locally by the thermal station or by nearby hydroelectric stations, but the remainder can only come from Sila as the Pescara plant is out of action. An increased supply from the Naples thermal station will be available shortly but on the other hand the general demand is also increasing, so it is essential for the good of the Allied Forces and the community to keep the Sila supply going and to keep the long transmission lines from the south functioning efficiently.

3. For essential maintenance the Sila plant has allotted to it only 4 trucks, two 3 tons. and two 30 Cwt. These are used for the power stations and for line maintenance which is exacting and essential and spread over a wide area. The S.M.E. Company hire these trucks for 200 Lire a day and also supply drivers and petrol which they pay for separately in addition to the hire charge. The Company does day to day maintenance on the trucks but cannot do heavy maintenance because they have neither spare parts nor tyres.

4. Overhauls and tyre ~~removals~~ renewals are now required and in consequence the 4 trucks, which came from the Catanzaro Truck Coy, are all being withdrawn, neither spare parts nor tyres being obtainable in Catanzaro nor Crotone. The trucks are not being replaced and so we have

Declassified E.O. 12356 Section 3.3/NND No. 785019

the prospect of this important concern affecting so much of the life of the whole community, having its essential electrical maintenance seriously prejudiced because of the lack of 4 vehicles .

5. I have only dealt with Naples on the above note but the Sila plant has an output of 160,000 Kw. and apart from Naples, electric machinery, flour mills, light, etc are affected all over South West Italy. It may be noted that before the war this Company regarded a failure of electrical supply lasting over one minute as a major break requiring a Director's enquiry.

6. I do not consider that such vital interests, can be allowed to suffer on account of the lack of 4 trucks and have countermanded the withdrawal of 3 out of the 4 trucks, temporarily.

Major overhauls cannot,however, be indefinitely postponed, may the following therefore, please, be made available urgently for the SME Sila plant.

Two trucks	3 Tons
Two trucks	30 Cwt.
Eight tyres	7.50 x 20
Ten tyres	6.00 x 16
Ten tyres	4,00 x 16

The trucks to have sufficient spare parts and be either sold or hired out to the S.M.E. The Company are prepared to buy provided they can be supplied with spares.

Telegrammi: TUSCIANO - NAPOLI

Tempo fa dovemmo abbassare alcune campate della nostra linea a 60 KV Tusciano - Pomigliano - Fratta nei pressi dell'aeroporto del Vesuvio, ad Ottaiano, a richiesta del Comando dell'Aeroporto per esigenze del traffico dei velivoli.

Durante una recente visita sul posto abbiamo constatato che il campo non è più adibito ad aeroporto bensì a deposito; il comandante di esso ci dichiarò che egli non aveva nulla in contrario a che la linea venisse riportata all'altezza normale, in conformità delle leggi italiane.

Vi preghiamo di volervi interessare presso il competente Comando perchè ci venga data l'autorizzazione ad eseguire detti lavori di ripristino.

TRANSLATION

Some time ago we had to lower some spans of our 60 KV line Tusciano Pomigliano - Fratta near the Vesuvius Airfield in Ottaviano (Naples) on request of the officer in command of the airfield and for the needs of the traffic of planes.

During a recent visit to the place we have noticed that the field is no more used for an airport; a depot is there at present and the officer in command of the same told us he had no objection whatever to our restoring the line to its previous height, in compliance with the Italian laws ruling this matter.

We ask you to kindly see that authority may be given to us to span the line at its previous height as provided for by the law.

With best thanks we remain

yours truly

ROME

All'attenzione del Maj Price -

Per la depurazione dell'acqua di alimentazione della nostra Centrale termica "M.Capuano" in Napoli, noi abbiamo bisogno di un quantitativo di soda Solvay (Carbonato sodico) di circa 1 Ton. al mese.

Ci risulta che la fabbrica di Rosignano (Livorno) dispone di notevoli quantitativi di detto prodotto.

Vi preghiamo pertanto di volerci fare ottenere una assegnazione di 3 Ton.- Attualmente disponiamo di una riserva che ci consentirà di funzionare per altri due mesi circa.

Vi ringraziamo vivamente per il vostro cortese interessamento.

Translation : LS/MV

Our monthly requirement of Solvay Soda - used to purify the water feeding our thermal generating Station "M.Capuano" - is of about one Ton.

We know that the soda factory in Rosignano (Leghorn) has large stocks available.

We only have enough soda to face some 2 months requirement; we ask you therefore to kindly see that 3 more tons may be allotted to us.

We thank you in advance and remain
truly yours

Subject : Scrap Copper

To : Allied Forces Local Resources
HAAC

1. We are informed that a release order No. 2077 was issued by you to DADOS Central Purchase Dept. on the Lucana Electricity Co which Company is a subsidiary of Societa Meridionale di Elettricita for 2.160 Kgs of Scrap Copper.

2. DADOS was only able to collect 1.586 Kgs since the remainder had been used by the Company for redrawing into copper conductors.

3. It is suggested, that unless there is a very urgent demand for copper scrap, the electricity Companies should not be relieved of their stocks, the fact that such stocks exist do not mean a surplus but in almost every case, the Companies are waiting an opportunity to have the scrap copper smelted and manufactured into transmission conductors.

4. Wire drawing factories are inundated with orders at present and all orders are being executed according to priority.

For the Chief Commissioner.

Subject: Street Lighting-Lamps

Re. our telegram of May 4, addressed to your office, attention Maj. L. W. Laughlin, reading as follows:

"URGENTLY REQUESTED BY ALL COMMUNITIES TO RESTORE STREET LIGHTING
"SERVICE BEG YOU EXPEDITE OBTAINING GENERAL AUTHORITY TO BE GIVEN
"THRU PROVINCIAL COMMITTEES STOP ALSO IT WOULD BE NECESSARY TO
"OBTAIN GENERAL RELEASE FOR LAMPS EXISTING IN OUR STORES PREVIOUSLY
"BLOCKED BY DISTRICT STOP WAITING INSTRUCTIONS THANK YOU

S.G.P.E. BARI ENNIO ORTENSI C.E."

We wish to inform you-that-recently our company has been requested by practically all Sindaci (Mayors) of the towns in the served area and by-the Prefettos of the various Provinces, to restore at least a partial street lighting service in each commune - This request has been pointed out as very urgent, mainly for public safety reasons -

The first answer given by our company has been that no action could have been taken by the company before an authority would have been obtained

a) by the competent-Provincial Committees for granting corresponding allocations of power and kwhrs to each commune -

b) by A.C. - H.Q. - Rome fer releasing the residual quantity of lamps still existing in our stores, and which since late in 1943 had-been blocked by military authorities, at that time in Bari -

Also our company has asked the Sindaci to apply directly

Declassified E.O. 12356 Section 3.3/NND No. 785019

Re. our telegram of May 4, addressed to your office, attention Maj. L. W. Laughlin, reading as follows:

"URGENTLY REQUESTED BY ALL COMMUNITIES TO RESTORE STREET LIGHTING
"SERVICE BEG YOU EXPEDITE OBTAINING GENERAL AUTHORITY TO BE GIVEN
"THRU PROVINCIAL COMMITTEES STOP ALSO IT WOULD BE NECESSARY TO
"OBTAIN GENERAL RELEASE FOR LAMPS EXISTING IN OUR STORES PREVIOUSLY
"BLOCKED BY DISTRICT STOP WAITING INSTRUCTIONS THANK YOU

S.G.P.E. BARI ENNIO ORTENSI C.E."

We wish to inform you-that-recently our company has been requested by practically all Sindaci (Mayors) of the towns in the served area and by-the Prefettos of the various Provinces, to resto re-at least a partial street lighting service in each commune - This request has been pointed out as very urgent, mainly for public safety reasons -

The first answer given by our company has been that no action could have been taken by the company before an authority would have been obtained

a) by the competent Provincial Committees for granting corresponding allocations of power and kwhrs to each commune -

b) by A.C. - H.Q. - Rome for releasing the residual quantity of lamps still existing in our stores, and which since late in 1943 had-been blocked by military authorities, at that time in Bari -

Also our company has asked the Sindaci to apply directly to the Provincial Committees for Discipline of E.E. Consumption and the Prefetti to apply to A.C. - H.Q. - your Sub Commission - Rome for the releasing of the lamps -

313

Some of the Prefetti have pointed out however that the-matter was rather urgent, particularly for the provinces of Bari and Foggia - As a matter of fact the Prefetto for Bari Province has asked the local Provincial Committee to release even-in a provisional nay an allocation of power of reduced amount to insure a partial street lighting service and also has asked us to issue the necessary

./.

Declassified E.O. 12356 Section 3.3/NND No. 785019

lamps, Writing us a provisional authority based on the urgent necessity of the lamps for public safety reasons -

-The temporary agreement reached between the local interested authorities in Bari and our company has been based on the following limitations:

a) the number of lamps installed to be not greater than one third of that of pre-war time -

b) the amount of power drawn not to-exceed one fifth (exceptionally one fourth) of that of pre-war time -

-We are therefore proceeding in this direction for the Province of Bari -

- The situation however has not been cleared for the other provinces, particularly Foggia, and this explains why we thought of asking you to kindly assist us in clearing this matter in a general way -

- - For your information the total amount of peak load for street lighting in all provinces of Puglia was of ab. 2000 KW in pre-war times, which means that the actual load to be added would be of ab. 400 KW.-

- As to the quantity of lamps, the number installed in pre-war time was around 50.000 - The number to be now installed for all the region would be of about 17.000 -

- The quantity left in our stores would be just sufficient for one first installation and one only replacement, with the above reduced number - By considerably reducing the number of lighting hours, it would be possible to keep the service for about six months -

Applications have been already filed by our company with the Chambers of commerce (Ufficio Provinciale Ind. & Commercio) of each Province for new supplies of lamps -

-The lamps existing in our stores had been blocked late in 1943 by 2 District, Chief Engineer Office, S.O. Stores -

- The A.C. Regional Engineer - Bari Zone had later recommended the District to stop any further requisition on these lamps due to

Declassified E.O. 12356 Section 3.3/NND No. 785019

SUBJECT: Electrical Brushes Needed in Plants of Società Meridionale di Elettricità.

TO : Industry and Commerce Sub-Commission.

1. It is requested that a requisition be placed for the following electrical brushes needed on the generators and associated equipment of the Società Meridionale Elettricità. These brushes are urgently required in order that the electric power system supplying essential military and civilian needs in Southern Italy may continue to operate. Because of the urgency of this request, it is asked that the brushes be shipped by air to Naples.

2. A list of the brushes follows:

Type	Number Needed	Size in millimeters
HM 6(Morganite)	100	55 x 25 x 18
HM 6(Morganite)	50	40 x 30 x 30
CMI (Morganite)	50	25 x 30 x 20
EGI$_2$(Morganite)	75	30 x 30 x 20
HM 5(Morganite)	25	30 x 30 x 20
HM 5(Morganite)	50	50 x 40 x 32
CMI6(Morganite)	75	25 x 30 x 20

Via Paolo Imbriani
Naples

1. We are in receipt of your letter 56000/436 dated 14 May 45 and in reply wish to say that we cannot guarantee that you will be supplied with cement in anything like the quantity you ask for.

2. There is a very heavy demand on all factories producing cement, and after military commitments, the surplus for civilian uses is small.

3. We suggest that you also place a demand on the Ministry of Industry Commerce and Labour which Ministry will have a proportionate allotment.

Naples

1. A copy of your letter No. 75605 CAI/ISV dated 9 March 45 addressed to Associazione Provinciale Degli Industriali Cosenza has been passed to this Division.

2. It is presumed that you are still in need of timber since our letter 300/PWU dated 27 Feb 45 was not acted upon.

3. We now understand that all the saw mills in the Bari Area are controlled by the Military and only those in the Reggio Area are no longer controlled.

4. It is suggested that you try to obtain your timber requirements in the Reggio Area and should you encounter difficulties please inform us, when we will try to obtain for you through Military channels.

SOCIETA' MERIDIONALE DI ELETTRICITA'

nº 75605 CAL/Isv. Acri 9 marzo 1945

Spett. ASSOCIAZIONE PROVINCIALE DEGLI INDUSTRIALI
COSENZA

Agli Alleati ed al Governo Italiano interessa in modo particolare l'incremento dell'energia elettrica per cui ci viene sollecitata la ricostruzione di alcuni impianti idroelettrici della Campania distrutti a seguito degli eventi bellici e precisamente:

Centrale del II Salto Matese-

Centrale, canale di adduzione ed opere di presa di Suio

Sottostazione di trasformazione di Frattamaggiore-

il cemento armato è la struttura che meglio si presta per la rapida ricostruzione di tali opere, ma per la sua esecuzione occorre nel primo tempo del legname di pino.

Attualmente lo sfruttamento dei boschi di pino dell'Altopiano Silano è effettuata dagli Alleati per cui preghiamo codesta Spett. Associazione di volere interessare il Comando della 800a Compagnia del Genio Forestale rendendolo consapevole dalla urgente necessità di fornire alla ns. Società il legname occorrente per iniziare i lavori sopra accennati.

297

Il fabbisogno del legname di pino è il seguente:

	lunghezza	sezione	quantità

Declassified E.O. 12356 Section 3.3/NND No. 785019

R O M E

All'attenzione del Maj.Price -

Per la depurazione dell'acqua di alimentazione della nostra Centrale termica "M.Capuano" in Napoli, noi abbiamo bisogno di un quantitativo di soda Solvay (Carbonato sodico) di circa 1 Ton. al mese.

Ci risulta che la Fabbrica di Rosignano (Livorno) dispone di notevoli quantitativi di detto prodotto.

Vi preghiamo pertanto di volerci far ottenere una assegnazione di 3 Ton. - Attualmente disponiamo di una riserva che ci consentirà di funzionare per altri due mesi circa.

Vi ringraziamo vivamente per il vostro cortese interessamento.

Translation : LS/MV

Our monthly requirement of Solway Soda - used to purify the water feeding our thermal generating Station "M. Capuano" - is of about one Ton.

We know that the soda factory in Rosignano (Leghorn) has large stocks available.

We only have enough soda to face some 2 months requirement; we ask you therefore to kindly see that 3 more tons may be allotted to us.

We thank you in advance and remain

truly yours

All'attenzione del Maj.Price

Con riferimento alla Vostra del 15 marzo 1945 300/PWU abbiamo preso nota che per l'avvenire i Military Works Permits saranno rilasciati solo quando effettivi spostamenti debbono aver luogo.

Vi sottomettiamo però alcuni casi per i quali sarebbero necessari dei permessi permanenti.

(names follow translation)

Vi preghiamo, pertanto voler emettere, se possibile, i permessi per i suddetti nominativi.

Translation

Att. Maj. Price

Reference your letter dated March 15th '45, 30/PWU.

We took note that the Military Works permits should be issued only when a movement is required.

We submit to you the cases of some our officials and workmen who, for reasons of work should need permanent permits:

- Mr. Ferrari Arturo	- AC/471	} General Managers
- Eng. Masturzo Tullio	- AC/2	
- Eng. Bove Salvatore	- AC/250	- Co-manager
- Mr. Ruffo Vincenzo	- AC/41	- Driver
- Mr. Tommasone Fiorentino	- AC/476	- Driver
- Eng. Sacerdote Aldo	- AC/28	- Chief of the Purchasing Service
- Eng. Marasco Vittorio	- AC/366	- Purchasing Agent
- Eng. Sinibaldi Augusto	- AC/473	- Deputy Manager

they may need permits at any time, specially when the availability somewhere of materials is known. Any delay should be avoided.

- Eng. Miranda Carlo Alberto	- AC/401	- Engineer
- Eng. Baroncini Giacomo	- AC/411	- Engineer
- Maiellaro Francesco	- AC/602	- Technical employee
- Orsi Antonio	- AC/511	- Technical employee
- Gallorini Igino	- AC/400	- Technical employee

they are in charge of the reconstruction works on the Pescara plant and

turn over

MEMORANDUM FOR MAJOR RYAN

Requirements for line repairs

1) We have two important and urgent line repairs:

- Liri 60 kV line - Section Garigliano-Maranola
- Pescara 150 kV line

2) Requirements for the above works result from annexes 1, 2 and 3. For the Castel di Sangro-Pescara section of the Pescara 150 kV line, requirements have been already presented to A.C. HQ.

3) We have applied the Ufficio forIndustria e Lavoro but they are not able to release the required materials.

4) We have tried to find all the possible materials on the market. We shall be perhaps in condition to provide only bults and nuts for the 60 kV line and for the 150 kV line section Naples-Castel di Sangro.

5) We could gather all our scraps of angle bars and give them to Ilva Factory for their melting and drawing.

We beg you to consider the above possibility and obtain the necessary permit.

We thank you

Attention of Major Price

E 3-Pratiche generali varie

Abbiamo ricevuto la Vs/ 300/PWu dell'8 corr. e Vi ringraziamo del Vs/ cortese interessamento.

Poichè è per noi difficile inviare un ns/ funzionario a Terni per prendere contatto con l'OCN 3 Det. 80 FBW SAFE, Vi preghiamo volerci far conoscere l'ammontare della fornitura onde noi possiamo inviare subito la somma a mezzo assegno.

Infine, Vi facciamo presente le difficoltà che sorgono per il trasporto delle 3 Ton. di lamiere a mezzo ferrovia non potendosi utilizzare un vagone completo che ha una portata di 20 Ton. e richiedendo il trasporto a collettame un tempo troppo lungo.

Vi preghiamo, pertanto, voler esaminare la possibilità di farci effettuare il trasporto a mezzo camion.

Lamierino magnetico

Magnetic sheets

Translation

We have your letter 300/PWu of March 8, 1945 and thank you very much for your kind action.

It would be difficult for us to send one of our officials to Terni in order to contact the OCN 3 Det.80 F.W.B.SAFE; could you kindly let us know what we have to pay for the material supplied to us, so that we may immediately effect the payment by check?

377

We also call your attention upon the difficulties hindering the carriage of the 3 Tons. of sheets by railway, arising from the fact that we could not use one whole waggon - its carriage being 20 Tons. and, on the other side, carriage by mixed cargo would take too long a time.

We ask you therefore to kindly consider whether it could be possible to have the sheets carried by lorry.

With best thanks we remain

truly yours

Insulators

Reference to yours 306/PWU dated 28 January.

We thank you very much for your kind interest and herewith enclosed we send you a list of the insulators available at the Richard-Ginori factory in Colonnata and that we need.

About other insulators "special type" notified by the Ginori available for 800 Qls. we point out to you they may be very useful for us and so a list of them done by the firm with relatives schemes would be very necessary.

Will you please kindly take again necessary steps for the matter and give us further informations.

For the needs of UNES C° will you please directly apply this firm in Rome.

Yours truly.

HEADQUARTERS, PENINSULAR BASE SECTION, APO 782, 21 January 1945

TO : HEADQUARTERS, ALLIED COMMISSION, APO 394

1. Investigation reveals that press weighs approximately 100 tons. In order to disassemble press, it would be necessary to build considerable scaffolding which would interfere with occupying depot operations.

2. Estimate it would require 5 or 6 weeks to disassemble and load. Pensouth Engineer estimates a period of 3 months would be needed to put press in operation.

3. In view of the foregoing, it is recommended that project be not under taken.

OGGETTO: Firm Di Salle - Naples

Dear Maj. Price:

With reference to a previous application for cement entered by engineer Di Salle - Naples, please find enclosed herewith a letter addressed to you, by which he is asking for a release of a relatively small amount of steel round bars. This is necessary to him in order to proceed with the erection of one small workshop isle which would enable him to move away from the Poggioreale S.M.E. substation premises.

If the situation is such that this material could be released to the firm Di Salle without interfering with other requisitions of higher priorities, the S.M.E. engineers and myself would very much appreciate your taking his application into favourable consideration. 253

Hoping to have again a chance to see you in Rome, please accept my kindest regards.

Isolatori

In riferimento alla Vs. 306/PWU del 22 Gennaio.

Sentitamente Vi ringraziamo per il Vs. cortese interessamento ed alligata Vi rimettiamo una lista degli isolatori disponibili presso lo Stabilimento di Colonnata della Richard-Ginori e dei quali abbiamo bisogno.

Per quanto riguarda gli isolatori di tipo speciale di cui la Ginori accusa una disponibilità di circa 800 Q.li Vi facciamo presente che essi sono di grandissimo interesse per noi e che quindi sarebbe necessario ottenere dalla Ditta una lista completa di essi accompagnata dai relativi disegni.

all.1 Vi preghiamo di voler cortesemente continuare ad interessarVi della cosa e di tenerci informati del proseguo della pratica.

Per quanto riguarda le esigenze UNRRA Vi preghiamo di prender diretto contatto con detta Società in Roma.

Insulators

Reference to yours 306/PWU dated 28 January.

We thankyou very much for your kind interest and herewith enclosed we send you a list of the insulators available at the Richard-Ginori factory in Colonnata and that we need.

About other insulators "special type" notified by the Ginori available for 800 Qls. we point out to you they may be very useful for us and so a list of them done by the firm with relatives schemes would be very necessary.

Will you please kindly take again necessary steps for the matter and give us further informations.

For the needs of UNRRA C° will you please directly apply this firm in Rome.

nol.1 Yours truly.

All'attenzione del Cap. Bent

Allegata Vi rimettiamo copia di un pro-memoria da noi consegnato al Cap. Duran il 19 dicembre u.s. per 3 tonn. di lamierini magnetici necessari alla ricostruzione del 2° Gruppo del ns/ impianto Pescara 3° Salto.

Pratica A 93
3° Salto Pa

A seguito delle informazioni che Voi avete richieste al ns/ Ing. Baroncini durante la Vs/ visita all'impianto Pescara Vi confermiamo che i lamierini devono avere lo spessore di 35/100 mm. in quanto gli altri spessori disponibili negli stock della Terni hanno perdite troppo alte (1,3 ÷ 1,7 watt/kg contro 1,1).

Oggetto

Vi rinnoviamo la preghiera di farci ottenere un ordine di rilascio per i suddetti lamierini.

Distinti saluti

TRANSLATION

Attention Cap. Bent

Attached hereto is a copy of a memorandum send to Cap. Duran last december 19th for 3 Tons of magnetic iron sheets needed for the reconstruction of the second unit of the Pescara 3rd stage.

246

According to the informations you have required to our eng. Baroncini during your visit to our Pescara Hydroplants we confirm you that the sheets must have the thickness of 35/100 of mm. because others sizes available in the Terni steel Plant stocks have too high losses (1,3 ÷ 1,7 instead of 1,1 Watt/Kg).

We beg you again to obtain for us a release order for the said quantity and size of magnetic iron sheets.

We remain yours truly.

Memorandum for Cap. DURAN

According to sure information we have received in the Therni Steel Plant are available some stocks of iron magnetic sheets.

For the reconstruction of the second unit of the Pescara 3rd Stage we estimate that about 3 Tons of the said iron sheets are needed with losses of 1,1 + 1,3 watt/kg and thickness 35/100 of mm.

We beg you to obtain for us a release order for the said quantity and size of iron sheets.

The item should be shipped to the following address:

Pressa per produzione cavi

In riferimento alla Vs. 300/PWU del 25 Gennaio.

La pressa per piombo esistente presso la SICE di Livorno da la possibilità di produrre cavi elettrici per A.T.,armati, e pertanto il suo trasporto da Livorno, ove non è possibile tenerla in funzione, a Napoli presso la FICE che è in grado di farla funzionare, è di grande interesse per tutta l'industria elettrica in genere.

Date le difficoltà prospettate dagli occupanti lo Stabilimento SICE circa lo smontaggio, la FICE è disposta a provvedere direttamente ad esso a mezzo di suo personale specializzato.

Parimenti il trasporto a Napoli si potrebbe effettuare a mezzo ferrovia.

In tal caso occorrerebbe soltanto ottenere l'autorizzazione ad eseguire lo smontaggio,i camion per il solo trasporto alla stazione ed i vagoni ferroviari per l'inoltro a Napoli.

Vi preghiamo quindi di prendere in considerazione tale richiesta e Vi precisiamo che per ulteriori accordi potete prendere diretto contatto con la:

- Società Italiana Pirelli
  Ufficio Conduttori - Via Emilia,86 - Roma.

Vi saremo grati se ci informerete del prosieguo di questa pratica.

Translation

Cable Making Industry

233

Reference to your 300/PWU on 25th January.

The production of armoured cables for H.T. is possible by the lead press displaced now at the factory SICE Leghorn and so the movement of the said press from the SICE, where its operation is not possible, to FICE - Naples, that is able to make it operating, is very useful for all electrical industries.

235

As the occupants of the SICE factory pointed out the difficulties for the disassemblement of the press, FICE people is willing to take care of it by theyr specialist workmen.

And even the trasportation of the press from Leghorn to Naples could be done by railway.

Subject : Machinery for Pescara

To : The Regional Commissioner
Abruzzi Marche Region

1. Reference is made to your letter (no ref) dated 1 Feb.45 on the above mentioned subject.

2. It is difficult to understand why the two wagons furnished you at Ortona were not used, since the labels were dispatched on the 23rd Jan., the loading date was 27 Jan. and your letter stating that the " wagons laid idle at Ortona for seven days " is dated 1st Feb. in that from the date of our letter to the date of your letter, is only a seven day period, however, we have this day made another application for rail wagons but we would remind you that 14 days notice is required when bidding for rail transport so that it may not be possible to supply wagons before the week 19 - 25 Feb.

3. We will signal you when wagons can again be made available.

REQUISITION

To: ECONOMIC SECTION REQUISITION BRANCH — No. of Sheets 1 — Sheet No. 1

Requisition No. ..... Date 30/1/45 — Period Jan. - June 1945

SHIP TO Naples

Requisitioned By (show Signature, Rank, Organization, Destination. If different from "ship to" include address):

L.G. PRICE
Major RE
Electrical Section
P.W. & U. S/C H.Q. A.C.

Approved By:

Stock No.	Articles	Unit	On Hand and Due	Consumed	Required	Approved
-	Crystal glass water gauge tubes for Springfield Boilers Length 553 mm -external diam.20 mm. internal diam. 12 mm.	each	---	---	100	
-	Crystal glass water gauge tubes for Babcox and Wilcox boilers Length 420 mm External diam 19.5 mm Internal diam 11.5 mm	each	---	---	150	
	Water tubes for above boilers length 6.50 metres external diam 76 mm suitable for pressure of 26 atmospheres	each	---	---	200	

JUSTIFICATION: - The above material is required urgently for the Steam Station of Capuana Naples. All the stocks have been used up and it is now impossible to find or put into manufacture in this country. Capuana is the most important steam plant in Southern Italy and it is in operation daily it being the only plant that Naples can depend upon in the event of interuption of the southern network. The capacity of Capuana is 40.000 KW this will be a serious loss to the Southern system in the event of the station being forced to shut down.
Shipment is requested at an early date.

INSTRUCTIONS FOR PREPARATION OF REQUISITION

Space "TO."—To show the approving office to which requisition is submitted.

Space "PERIOD."—Show period for which the supplies are required.

Space "SHIP TO."—Full shipping address to be given. Where mail address is different from shipping address the former should also be shown, e. g., "Q. M., Fairfield Air Depot, Osborn, Ohio. Mail address, Fairfield." Except for established camps, posts, or stations, street or building address should be shown, e. g., "C. O. 328th Inf., National Guard, 456 Republic Bldg., Grand Haven, Mich." Where the property is to be invoiced to an organization, etc., different from that to which it is to be shipped, the required information will be shown.

Space "STOCK No."—Show stock number listed in Federal Stock Catalogue.

Space "ARTICLES."—Include sizes required. Show purpose numbers applicable to an article or group immediately above the article or group concerned.

Space "ON HAND AND DUE."—Show the quantity on hand plus the quantity approved on previous requisitions and not yet received.

Space "CONSUMED."—Show quantity consumed during the previous period.

Space "REQUIRED."—To be the quantity asked for by the requisitionist.

Space "APPROVED."—To be the quantity approved by the approving officer.

This form may be used in lieu of Q. M. C. Forms Nos. 402, 409, and 410 by appropriate modification.

IN THE SPACE BELOW SHOW BASIS FOR REQUISITION, i. e., Strength of Command, Number of Animals, Number of Animal-Drawn and Motorized Vehicles, Armament, or such other data as may be required by instructions issued by approving authorities.

SOCIETÀ MERIDIONALE DI ELETTRICITÀ

Napoli, 25.1.45

VMr/rg.10.000/

MEMORANDUM FOR MAJ. R Y A N

Items for Capuano Plant

For the operation of our Central Station Capuano we need very urgently :

- 100 Steel tubes for boilers Spriengfield
  length 6,30 mts. - diameter 3" - thickness 5/32" ✓
- 200 Crystal tubes for boilers at high pressure (26 Kg/cmq) ✓
  length 420 mms. - diameter 18 mms. - thickness 3 mms.
- 2000 Asbestos cloth gaskets for boilers 3/32. 50 sq yds
  Babcock & Wilcox as the annexed n°1
- 500 Asbestos cartoon gaskets for boilers 3/32.
  Babcock & Wilcox as the annexed n°2
- 200 Asbestos cartoon gaskets for boilers 50 sq yds
  Spriengfield as the annexed n°3

It is understood that the said items are absolutely lacking on the market.

Once they were produced by the factories displaced in Northern Italy.

The steel tubes are required very urgently in order to increase the efficiency of the boilers that are working now, for almost 40 tubes are till now not working and we fear many others will be soon in bad conditions.

The gaskets, are required for the maintenance of the boilers.

The crystal tubes we are using at present are not of a good quality and they are rapidly broken.

We fear we will be obliged to stop the said station because of the lacking of the said items.

The quantities we have requested will be enaugh for the operation of the Station during 6 months or 1 year. This depends on the hours of working we will be obliged to do.

Therefore we beg your personal interest in order that we will obtain the said items.

Many thanks.

2215

1. Investigation reveals that press weighs approximately 100 tons. In order to disassemble press, it would be necessary to build considerable scaffolding which would interfere with occupying depot operations.

2. Estimate it would require 5 or 6 weeks to disassemble and load. Peninsula Engineer estimates a period of 3 months would be needed to put press in operation.

3. In view of the foregoing, it is recommended that project be not undertaken.

Electrical Section

ROME

In riferimento alla Vs. 300/PWU del 15.12.44.

La Ditta Francesco Di Salle ha effettivamente fornito alla ns. Società in questi ultimi tempi, una notevole quantità di giunti per linee elettriche che in esercizio hanno dato fin'ora un buon risultato.

La Ditta suddetta avendo avuto il proprio Stabilimento distrutto dai bombardamenti fu da noi autorizzata ad istallare le sue macchine nei locali adibiti ad officina presso la ns.Sottostazione di Poggioreale.

Attualmente poichè abbiamo bisogno di tali locali,abbiamo invitato la Ditta a trasferire le sue macchine altrove.

Riteniamo che il mettere la Ditta Di Salle in condizione di poter produrre, possa essere di notevole giovamento sia per quanto riguarda le ns. esigenze,, sia per i fabbisogni della industria elettrica in genere.

Translation

In reference to yours Vs. 300/PWU of 15.12.44.

The firm Francesco Di Salle has actually supplied us with a big quantity of transmission line joints of late. Till now these joints have worked well.

As the said firm has had its own workshop destroyed by air raids we gave them the authorization to install their own machinery in the room used as workshop which we own at our Substation Poggioreale.

As at present we need that room we asked the firm Di Salle to transfer its own machinery elsewhere.

It is understood that the operating of the said firm may be very useful both for our own needs and for the operating of all electrical industries.

Subject : Insulating materials

To : Societa Meridionale di Elettricita
Via Paolo E.Imbrieni
Naples

1. A large proportion of the insulating material demanded by you some time ago, has been delivered and additional insulating material is in transit, consigned to you, care of Naples Warehouse.

2. Amongst the material in transit are three very important items namely:

a) Silk mica ribbon 100.000 yds.
b) Paper mica ribbon 100.000 "
c) Yellow sterling cambric ribbon 250.000 "

and instruction have been forwarded to Regional Commissioner Southern Region to have these items checked and notify this office accordingly.

3. Quite recently an unfortunate accident occurred at Ceprano resulting in the almost complete burn out of the Ansaldo Alternator and it has been found necessary to move this unit into Rome for repairs which repair is expected to occupy 10 to 12 days by special shift work, it will be necessary, therefore, to ask you to allow this Sub Commission to hold back approximately one half of the first or second item Para 2,(a) or (b), in order that no time is lost in getting the Ceprano unit repaired.

4. Orders have already been placed to cover the total material required and your stock will be replaced at an early date.

5. Your co-operation in this important matter will be
