SUBJECT: S.G.P.E. Company Premises in Foggia

TO : Societa Generale Pugliese di Elettricita
Via Giuseppe Suppa, 5
Bari
(Attn: Dr. Eng. E. Ortensi)

1. Reference your letter 2 May 1946

2. The question of the derequisitioning of your premises at Foggia has been discussed with the Allied Commission Department dealing with such matters. In view of the fact that this is a military commitment and is still required by them, no action can be taken at this time.

3. We can only suggest that you contact the Foggia Command personally on the possibility that they are in a position to give you an approximate date on when the property could be released.

4. I am returning the original letter dated 29 March from the Commanding Officer that should be retained in your files.

LOUIS W. LAUGHLIN
Major, C.E.
Acting Deputy Director

Dear Sir:

In reply to your letter dated 21 March 1946, we regret to inform you that your requisitioned property is still in use by this Command.

In the past we have considered and satisfied many requests from your Company, and we will be pleased to derequisition your premises as soon as conditions will permit it.

The undersigned is earnestly desirous of cooperating in every way possible to restore to Foggia its normal life and open every opportunity for progress and reconstruction.

Sincerely yours,

ROBERT K. MARTIN,
Colonel, Air Corps

R O M A

OGGETTO: Subject: S.G.P.E. Co. Premises in Foggia

Dear Sirs ,

from the attached correspondence between our Company and the H.Q. Foggia Army Air Base, it results that one flat of the Filiasi Building No. 27, located in Foggia at corner Corso Garibaldi - Piazza 20 September, is still needed by the above mentioned Command -

As our company is carrying out works for adapting this building, which has been recently bought, to its particular use and cannot foresee that these works be carried out to completion, we would very much appreciate if you could kindly inform us about when approximately the Foggia A.A.B. Command could proceed with the de-requisitioning of the above mentioned premises -

As you may be already aware of, our company has still to carry out important works in that area, which are also in the interest of the Allied Military Authorities and it would be helpful to know how far we could count on floor space availability for our premises in the town -

We wish you would excuse us for bothering you again about this matter -

Thanking you in advance for your kind interestment, we remain

INDUSTRY & UTILITIES S/C
6 MAG 1946

Yours respectfully,

SOCIETÀ GENERALE PUGLIESE DI ELETTRICITÀ

2-Annexed

21 March 1946

Col. R. K. Martin

Commanding Officer F.A.A.B.

Foggia

Electric Light & Power Co. premises, Foggia.

Dear Sir :-

With reference to previous correspondence exchanged between our Company and the American Town Major - Foggia, we wish to point out that the question of ensuring some suitable premises in the town for the operation of this Company has not been solved as yet in a satisfactory way.

As a matter of fact we are under the impression that the understanding between the Company and both the American and British Town Majors was that as soon as the first floor of the Filiasi Building #27, located at corner Corso Garibaldi - Piazza 20 Settembre, would have been derequisitioned, this floor would be left, through the Italian Authorities of Foggia, to the Electric Light & Power Co.-

The above mentioned premises have now been derequisitioned only by the British Military Authorities since January 10th 1946. Due to long civilian procedures, only about six weeks later the Company could occupy one section of the floor where works are being carried out now in order to make the premises suitable for the Company Offices and controll installations.

The other section of the above floor has not been yet derequisitioned by the American Town Major, and therefore the works being now carried out cannot be extended to this section, causing serious difficulties for the settlement and operation of the Company installations.

As you may be aware of, this Company, since three years ago, has lost its premises which were very suitable, but they were demolished by air-raid action. During this time the Company was compelled to scatter around its Offices and service premises; the last place we were in temporarily was three rooms offered to us by a city bank.

Declassified E.O. 12356 Section 3.3/NND No. 785019

We would be much obliged to you if you could arrange to kindly have another apartment assigned to the present occupant of the second section of the Filiasi Building, 1st floor, so that this could be derequisitioned and consequently our Company could go ahead with the work of making the floor suitable for the operation of the Company Offices and services.

We wish to express you our anticipated thanks.

Yours respectfully,

Declassified E.O. 12356 Section 3.3/NND No. 785019

SUBJECT: Fire Brick for Capuana Power Station, Naples

TO : Soc. Meridionale di Elettricita
Via P.E. Imbriani 42 - Naples -
(att. Eng. Masturzo)

1. With reference to your letter, dated 20 December 1945, to Col. Pennycuick, the following steps should be taken by you in order to obtain fire brick from England:

a. Reach an agreement with the Glenboigh Union Fire-Clay Company Ltd. of Glasgow, Scotland, with respect to price delivered to some definite point such as has been customary on past purchases which your Company has made from them.

b. When the terms have been agreed upon you must make application to the Ministry of Foreign Trade through the Naples Provincial Chamber of Commerce for a permit authorizing the purchase.

2. We are returning herewith the drawings which accompanied your letter to Col. Pennycuick.

Enclosures: Drawing no. 5491

SUBJECT : Materials for the Capuana Power Station Naples.

TO : HQ. A. C.
(Att.Economic Sub-Commission).

1. We have received a request from the SME for assistance to obtain fire bricks for the boilers of the main Naples Electric Power Station at Capuana.

2. It appears that the type of brick required is not obtainable in Italy and previously they were obtained from Glasgow. A total of 23,500 fire bricks and 15 Tons of fire proof cement are asked for and the accompanying notes and drawings give shapes and specifications.

3. Will it be possible, please, to help the Società Meridionale di Elettricità over this request?

SOCIETÀ MERIDIONALE DI ELETTRICITÀ

MEMORANDUM FOR COL. J.A.C. PENNYCUICK

Fire-proof bricks for Capuano Steam Station.

The maintenance of boilers of the above mentioned Steam Station requires fire-proof bricks of particular characteristic data, which cannot be found in Italy.

We have applied to Messrs S.A.F.I.S.- Cagliari, but the bricks they have shipped to us are not suitable to the high temperature of our furnaces.

Then we have tried to get some bricks from Tcheco - Slovakia and from Switzerland, but as far we have failed to obtain even a reply to our request.

Before the war, we used to get our fire-proof bricks from Messrs Glemboigh Union Fire-clay Co.Ltd. - Glasgow 48 - West Regent Street Scotland. (type Special A I Mixture).

The most urgent requirements are noted on the enclosure, while the shapes of bricks are shown by our drawings which are enclosed too.

Our present stock of fire-proof bricks allows a safe operation of the Station not longer than February I5th I946.

December 20th I945

Re:- Three 15000 kW turbo-sets
of Capuano Plant. Our Orders 95790 & 30121 delivered in 1923 & 1926.

Dear Sirs,

From your letter of September 14th we have taken due note that you intend to operate these three turbo-sets in future with a frequency of 50 cycles, i.e. with 3000 r.p.m. The steam turbines and alternators delivered for these orders are actually of the design for 3000 r.p.m. and from the point of view of mechanical stresses we have, therefore, no objection to increase the speed to 3000 r.p.m. Beforehand we, however, strongly recommend you that these turbo-sets will be inspected and overhauled by one of our turbine erecting engineers and we beg to send you enclosed our "Conditions of Erection", on which we have indicated the costs for sending one of our specialists to your plant. Your assistance for getting the visa for sending our specialist would naturally be necessary.

Steam Turbines:

The springs for the speed and emergency governors must be replaced for the new speed of 3000 r.p.m. Concerning the springs for the nozzle valves, we believe that the existing springs can still be used and will need only another adjustment. The tachometers must

Re:-Three 15000 kW turbo-sets of Capuano Plant.

Exciters:

No alterations will be necessary.

Pump-sets:

According to our records, two pump-sets are equipped with motors of a rated output of 250 kW, whereas the third pump-set is equipped with a motor of 290 kW rating.

If the pumps are operated at the higher speed corresponding to 50 cycles, the output absorbed by the pumps will increase theoretically by the ratio $\left(\frac{50}{45}\right)^3$, with other words the motor would be too small. For the pump-sets equipped with the smaller motors we propose to provide new impellers for the circulating water pumps for a 10 % smaller water quantity, at which condition we expect that the power absorbed at the pump shaft will be 243 to 250 kW. The existing motors will, therefore, be just ample enough. The reduction of the circulating water quantity by 10 % will be of very minor effect to the vacuum.

For the third pump-set with the motor of 290 kW rating, we recommend to provide no alteration for the time being and to ascertain by an actual test whether the existing motor will not be overheated when operated at the higher frequency and increased load. We believe that this motor will be still ample enough.

A tender for the required spareparts as mentioned above will be sent by separate mail via the Tecnomasio Italiano Brown, Boveri, MILANO.

548

We hope that the above explanations will be satisfactory; should you need any further information we are at your disposal.

Yours faithfully,
BROWN, BOVERI & COMPANY
Limited

(C O P Y)

From Societa Meridionale di Elettricita
Naples
To;- A.C. Headquarters
Electrical Division.

Ref;-471/994
Date, 7 June 45.

Reference your letter 300/FWU dated May 19th.
We cannot obtain our timber requirements in the Reggio Calabria Area because no silan pine grows in that province and this is the only wood available fit to replace the firwood for our needs.

We ask you to kindly try to obtain the timber for us from the controlled Areas through Military channels.

Our requirements- they are really most pressingnow-are still as detailed in our memorandum dated february 17th 1945 viz,

Squared timbers cm 10 x 10 x 400		m3 5
Planks, thickness cm 2,5	Non lung.? 400 cm	m3 75
Planks, thickness cm 4	Non lung.?, 400 cm.	m3 50
Squared poles 11 x 15 cm x 6 + 8 mt		m3 70
Total requirements of silan pine timber		m3 200

Carriage by railway from the Cosenza or Crotone Rlw Station to Frattamaggiore-Grumo (Naples) Rlw St.

We also call your attention to the fact that we had planned to use for our building work the lumber from 11 large wooden barracks we own in Cecita-Longobucco (Cosenza) but these were requisitioned in March 1945 by an American Unit, a detachment of 2698th Technical Supervision Regt APO US Army.

We pointed out to Maj T. B. Foster C.E. U.S. Army. who is in Command of the Detachment, that we badly needed the lumber from the barracks. He kindly wrote to the Engineer Office - Benbase South APO 782(See attached copy of letter) asking that office to supply the lumber we needed, but the request was not granted until today.

Should you not be in a position to obtain the timber for us through Military channels we ask you to kindly take steps to have those barracks derequisitioned.

Any further delay in the allotment of the required timber would seriously interfere with the work of reconstruction which is under way.

Trusting this important work will receive your prompt attention.

We thank you and remain

Napoli, (105) 26 settembre 945
VIA P. E. IMBRIANI, 42

P. B. S.
ENGINEER SERVICE

Pratica E 24 SI
Cantieri e magazzini

Oggetto

La ns/ Società deve provvedere al più sollecito ripristino della sottostazione di Frattamaggiore per permettere:

1) il convogliamento a Napoli di circa 40.000 kW provenienti dai ns/ impianti sul F.Pescara con la installazione di 2 trasformatori 150/60/9 kV - 20/23/15 MVA.

2) Il rifasamento della rete di Napoli con la riparazione e messa in servizio di un sincrono ad asse verticale della potenza di 25.000 kVAR.

In relazione ai programmi di approntamento del suddetto macchinario elettrico è necessario che almeno la officina smontaggio trasformatori, dell'altezza di m. 22 circa, e la sala sincroni, dell'altezza di m. 12 circa, siano approntate al più presto e non oltre il 31 gennaio p.v.

Per la ricostruzione dei predetti edifici in c.a. occorrono almeno:

mc. 400 di legname nuovo di abete o pino così ripartiti:

mezzanelle cm. 2,5	mc.	150
tavole da ponte cm. 4	"	100
sostacchini cm. 10x10x400	"	10
sostacchini cm. 11x15x600÷800	"	140
Totale mc.		400

543

Data la pratica impossibilità di provvedere a disporre detto fabbisogno con acquisti al mercato libero e l'urgenza ed importanza del lavoro in questione, ci rivolgiamo a codesto Ufficio con preghiera di un urgente interessamento in merito.

SOCIETÀ MERIDIONALE DI ELETTRICITÀ

1. To transmit to Naples the energy of our Pescara Hydroplants (about 40.000 kW) with the installation of 2 transformers 150/60/ /9 kV 20/23/15 MVA.

2. To keep normal voltage at the load end over any range of load by the installation of a synchronous condenser, vertical type of 25.000 KVAR.

According to our program of assembly of the electric machinery it is necessary that at least the transformer room, (high about 22 mt.) and the synchornous condensers room (high about 12 mt.) be ready as soon as possible and no later than next 31st January.

For the rehabilitation of the above buildings, are needed at least 400 cu. mt. of lumber, fir or pine, so detailed.

Boards (thikness 2,5 cm.)		cu. mt.	150
" " 4 "		" "	100
Baulks size: cm. 10x10x400		" "	10
" " " 11x15x600÷800		" "	140
	Total	" "	400

As it is really impossible to provide to the above items with purchase on the free market, in consideration of the urgency and importance of the works, we apply to your office, begging you for a kind concern in the matter.

With many thanks.

Vi comunichiamo che le assegnazioni di olio per trasformatori occorrente alle Società del Ns. Gruppo per il 1° e 2° trimestre 945 ci sono state fatte dal Comitato Italiano Petroli.

Ora il Comitato Italiano Petroli ci comunica che per il 3° trimestre 1945 dobbiamo rivolgerci direttamente a codesto ufficio.

Vi preghiamo di voler cortesemente disporre affinchè ci siano concesse le seguenti assegnazioni :

Soc.Meridionale di Elettricità

- Kg. 19.300 di olio destinato al rimboccamento di 688 trasformatori ed interruttori di potenza varia installati negli impianti di produzione e trasformazione.
- " 25.000 di olio destinato al nuovo riempimento di 1 trasformatore da 12000 KVA installato nella sottostazione 4° Salto Pescara.
- Kg. 44.300 in totale.

Soc.Elettrica della Campania

- Kg. 12.000 di olio destinato al rimboccamento di 261 trasformatori di potenza varia installati nelle zone di Campobasso-Avellino-Benevento-Salerno-Formia e Caserta-

537

Soc.Gen.Pugliese di Elettricità

- Kg. 10.300 di olio destinato al rimboccamento di 234 trasformatori di potenza varia installati nelle zone di Bari-Foggia-Taranto-Brindisi e Lecce-

- Soc.Lucana per Imprese Idroelettriche

- Kg. 1.750 di olio destinato al rimboccamento di 300 trasformatori di potenza varia installati nella zona di Potenza.

Soc.Elettrica delle Calabrie

- Kg. 2.800 di olio destinato al rimboccamento di 650 trasformatori di potenza varia installati nelle zone di Cosenza-Catanzaro e Reggio Calabria -

Soc.Elettrica per Bonifiche ed Irrigazioni

- Kg. 1.600 di olio destinato al rimboccamento di 195 trasformatori di potenza varia installati nelle zone di Foggia-Bari e Lecce.

Ringraziamo e distintamente salutiamo.

TRANSLATION

Allotment of transformer oil for the third quarter of 1945

We have been alloted by the Comitato Italiano Petroli the transformer oil we needed for the first and second quarter of 1945.

We are informed by the same Comitato Italiano Petroli that we have to apply to your Office for our requirements for the period July September 1945.

We ask you therefore to kindly allot to our Company and to our subsidiary ones following quantities of transformer oil :

S.M.E. requirements

- 19.300 Kilos needed to refill n.688 oil transformers for different voltages existing in our production and distribution plants.
- 25.000 Kilos needed to fill one 12.000 KVA transformer installed in our substation on the fourth stage of the Pescara River.

"Cempania El. C°"requirements

- 12.000 Kilos of oil needed to refill 261 transformers for different voltages existing in the plants in the Campobasso, Avellino, Benevento, Salerno, Formia and Caserta Zones.

"Pugliese" El. C° requirements

- 10.300 Kilos of oil needed to refill 234 transformers for different votages existing in the various plants in the Bari, Foggia, Taranto, Brindisi and Lecce Zones.

"Lucana" El. C° requirements

- 1.750 Kilos of oil needed to refill 300 transformers for different voltages existing in the Potenza zone.

"Calabrie" El. C° requirements

- 2.800 Kilos of oil needed to refill 650 transformers for different voltages existing in the plants in the Cosenza, Catanzaro and Reggio Calabria zones.

"Bonifiche ed Irrigazioni El. C°" requirements

- 1.600 Kilos of oil needed to refill 195 transformers for different voltages existing in the plants in the Foggia, Bari and Lecce zones.

ALLIED COMMISSION
M I L A N O

Dear Capt. Best,

I thank you very much for the kind greetings you sent me from Milan; I was very glad to have your good news and hope to meet you again soon.

I enclose a copy of a letter my Company wrote to you in April 1945 about the requisition of a welding set. As it was impossible for the A.C. to trace it and give it back to us, we intend to apply to the Italian Government for the assessment and payment of value thereof; in order to do that we need have the receipt note n. 476296 and the two slips concerning said requisition, which were sent to you with the above mentioned letter.

You would very much oblige me if you could ask the A.C. in Rome to send those documents back to Società Meridionale di Elettricità Via P.E.Imbriani 42 - Napoli, or to issue any equivalent form stating that said machinery was requisitioned and that no payment whatever has been made to SME for said requisition. I also enclose copies of the receipt note and of the slips.

Excuse me for the trouble I am causing to you. With my best thanks in advance believe me

sincerely yours

(Ing. Giacomo Baroncini)

Raccomandata

1) L'Ing. Baroncini ci ha comunicato che è vostro cortese intendimento procedere alla ricerca della saldatrice e degli altri materiali requisiti dalle Forze Alleate presso la Centrale del Pescara.

2) Poichè trattasi di materiale che è indispensabile ai nostri lavori di ricostruzione ed in ispecial modo ai ripristini che abbiamo in corso sulle nostre linee a 150 kV, vi saremmo grati qualora si potesse ottenere la restituzione di quanto è stato requisito.

3) Per lo scopo, vi accludiamo n.3 biglietti di requisizione.
Vi ringraziamo e vi inviamo i nostri saluti.

Translation

1) Our Eng. Baroncini informs us that you are willing to kindly trace for us the welding set and the other materials requisitioned by the A.F. at our generating station on the Pescara river.

2) As said materials are indispensable for the works we have underway, and specially for the repairs along the 150 kV transmission line, we would be very grateful to you if you could help us to get them back from the requisitioning Unit.

3) For the purpose we send to you, herewith enclosed one receipt note n. 476296 and two slips issued to us for said requisition.

MEMORANDUM FOR MAJ. STEVENSON

I. We have been told by U.T.C. Napoli that, starting from Sept. 21st next, every lorry shall be withdrawn from its normal job by order Maj. Bowers, in order to employ all lorries available in the displacement of Port Depots.

2. We point out that such a measure, if applied to us, would mean the stopping of our Operation Dept. and serious difficulties for our Construction Dept.

3. At present I3 U.T.C. lorries are in service for S.M.E.

4. We ask for a kind interest on the subject.

In relazione alla prossima unificazione delle frequenze sul valore di 50 Hz ci si è posto, fra gli altri problemi, quello di dover funzionare a tale nuovo regime di frequenza col macchinario termico, di vostra fabbricazione, della nostra Centrale Capuano e di tutti gli ausiliari relativi.

Questo macchinario ci fu, a suo tempo, da voi fornito in base ad ordinativo n° I5 del I9 Maggio I9[illegible].

Gradiremmo conoscere il vostro parere in merito alla possibilità o meno di poter funzionare in tali nuove condizioni di regime e gli eventuali accorgimenti e modifiche che si rendesse necessario apportare per rendere possibile tale condizione di marcia.

Con l'occasione vi preghiamo anche di farci sapere, con cortese sollecitudine, se ed a quali condizioni potete, come già per il passato, inviarci un vostro montatore specializzato per eseguire la manutenzione completa di n.2 turbine con particolare riguardo ai labirinti, che presentano usura, ed ai regolatori per i quali s'impone una accurata messa a punto.

Di tutto quanto sopra avevamo già interessato il Tecnomasio Italiano Brown Boveri di Milano che ci ha però dichiarato di non poterci fornire elementi e tanto meno personale tecnico specializzato come risulta dalle copie di lettere 524 che vi alleghiamo per conoscenza.

E' inutile precisare tutto l'interesse che noi abbiamo perchè venga sollecitamente effettuata la revisione di detto macchinario che allo stato della situazione è da considerarsi di vitale importanza per l'alimentazione della nostra rete.

Restiamo in attesa di vostro gradito cortese riscontro e

Ogg.Revisione turbine centrale Capuano
Pratica a I00

In relazione a quanto ci chiedete con la vostra lettera del I4/7 u.s.vi informiamo che con nostro rincrescimento non possiamo soddisfare la vostra richiesta di inviare un montatore per eseguire la revisione delle turbine installate nella centrale in oggetto.

Come vi è noto i lavori di questo genere,vengono eseguiti dal personale della Società Brown Boveri di Baden e che per il momento non possiamo richiedere.

Teniamo comunque presente le vostre necessità e, se ci sarà possibile, sarà nostra premura soddisfarvi.

Gradite i nostri distinti saluti.

CENTRALE MAURIZIO CAPUANO

A stimata vostra lettera del 27 giugno u.s.

I gruppi turboalternatori della vostra Centrale sono stati costruiti interamente dalla Soc.Brown Boveri di Baden (Svizzera) per quanto possiamo rammentarci. E poichè i rapporti di carattere commerciale con la Svizzera non sono stati ancora ripristinati non ci è possibile metterci in relazione con la stessa Società per ottenere le informazioni da voi desiderate.

Riteniamo che le turbine a vapore possano senz'altro girare alla maggiore velocità risultante dall'aumento della frequenza. E' probabile tuttavia che sarà molto opportuno modificare la palettatura per adattarla alle nuove condizioni di funzionamento.

Per quanto riguarda gli alternatori occorrerebbe sapere se essi dovranno funzionare alla stessa tensione oppure alla tensione corrispondente all'aumento della frequenza.

Sarebbe pertanto bene che voi ci siate precisi in merito comunicandoci nel contempo i dati esatti di targhetta delle diverse macchine.

Vi preghiamo gradire i nostri distinti saluti.

Dear Colonel Fenton

Yesterday morning I forgot to inform you that before seeing you I spoke to Maj Price to whom I remembered the question of the timber mentioned to you, as you certainly remember that I spoke to you of this question twenty days ago, which I imagine you have last to Maj. Price.

Maj. Price promised me, yesterday morning, to solicitate the Being to whom he requested the timber, to give an answer.

The S.A.C. communicates; every attempt made in Sila to find the timber is resulted vain.

Actually, the Society need only one way of resolution.

TIMBER FOR REPAIR OF ELECTRIC SUBSTATIONS

We wish to submit to ypur kind attention the following request of material needed for the repair of two important electric substations. As already known by you, our company is mainly fed by hydraulic power stations through a system of high voltage transmission lines and transforming substations. Starting from these substations, several medium voltage feeders, overhead lines or cables, are supplying power to all provinces of Apulia Region and to some provinces of the Abruzzo Region. A certain number of the generating stations and of the substations have been seriously damaged by air raids and by mining action by the Germans. Particularly, in order to insure a regular supply of power to the Electrified railway Foggia-Beneventò-Naples and in order to improve the amount of power to be trabsmitted to the Pescara and Ancona districts, the company has to start considerable repair work to the main junction substations of Frattamaggiore and Foggia.

In order to carry out rebuilding of the substation housing and of the equipment supporting structures, we need to buy from the Calabria pine-woods the following timber:

Quality: Sila Pine-wood

a) Balks (small): approx. dim. 4" x 4" - 13' 2" long
quantity 3200 ft.- (240 balks - 10 cu. metrs)

b) Balks (large): appros. dim. 5½" x 5½" - 23 ft. long
quantity 23500 ft. -(1050 balks- 140 cu.mtrs)

c) Boards - 1" thick: approx. dim. 1 x 12 to 14 ft.
quantity 6000 boards (5400 cu. ft.- 150 cu.m.)

d) Boards - 1½" thick: appros. dim. 1'x12'to 14 ft.
quantity 2500 boards (3600 cu.ft.-100 cu.m.)

We have been informed that in order to purchase from the Calabrie woods the above timber (Sila pinewood), a special release must be obtained from the H.Q. Local Resources Board (Italy).

We would greately appreciate if you couls kindly recommend our application and possibly assist us in obtaining such a release, taking into consideration the importence for the general interest of the

Telegrammi: TUSCIANO - NAPOLI

Si porta a conoscenza di cotesto Ministero che malgrado l'interessamento di cotesto stesso Ministero e della Direzione Generale dell'ENAC noi non riusciamo ad ottenere dalla Direzione Provinciale dell'ENAC di Campanaro la benzina occorrente per i quattro automezzi di proprietà dell'Ufficio Trasporti della Campania che la Direzione Provinciale dell'ENAC di Napoli ha messo al servizio dei nostri impianti Silani.

Alla data odierna detti nostri impianti non dispongono che di 300 litri di benzina e siamo quindi nella impossibilità d'intervenire in caso di guasti.

Con l'occasione facciamo presente che la mancata assegnazione degli automezzi e della benzina da noi richiesti per mettere in esecuzione il nostro programma di prove spinterometriche ci ha impedito, anche questo anno, di effettuare tale programma. E' quindi questo il terzo anno consecutivo che non riesce possibile provare gli isolatori delle nostre linee di trasporto nè provvedere alla sostituzione degli elementi guasti. Ai primi temporali autunnali verificatisi sulle regioni meridionali nella notte tra il 9 e il 10 corrente sono andata fuori servizio la linea a 150 kV Sila-Tusciano e altre 3 linee a 60 kV. Ciò a conferma di quanto avevamo già da tempo preveduto.

Requisition of iron sheets

Dear Major Price,

I enclose copies of some A.C. and S.M.E. letters concerning the regularisation of the requisition of 2 sheets of iron by the Forrestry Company at Camigliatello.

Our last letter dated december 7, 1944-which covered the talley slip the A.C. had required.- remained unanswered, as far as I know.

You would very much oblige me by letting me know the result of our request, if any.

With best thanks believe me

yours truly

CAMIGLIATELLO

La nostra Direzione Lavori della Sila ci comunica che in data 14 agosto 1944 un ufficiale del vostro reparto richiese la consegna di due lamierè di ferro 2 x 1 che erano presso il nostro cantiere di Croce del Greco, malgrado gli fosse stato esibito l'ordine n.400 del C.E.B. H.Q. A.A.I. che vieta la requisizione di ogni specie di materiale appartenente a Società Elettriche, Inoltre, il suddetto ufficiale era sprovvisto del regolare ordine di requisizione previsto dalle vigenti disposizioni, e rilasciò a titolo di ricevuta lo scontrino che qui si rimette in copia. Vogliate provvedere a far regolarizzare la pratica o farci tenere il regolare ordine di requisizione.

Translation

Our representative at Acri reports to us that on August 14th, 1944 an officer of your Unit took two iron sheets 2 x 1 s.q. from our building yard of Croce del Greco, in spite of the C.E.B. H.Q. 's order n.400 forbidd ing any requisition of materials belonging to Elettric Companies and which had been duly exbibited. Moreover no regular requisition form was issued, as provided for by te regulation in force. As a receipt for the two iron sheets our representative was given the talley a copy of which is here enclosed. We ask you to kindliy have it regularized and let us have the requisition form needed for the indemnification thereof.

With best thantks, we remain

truly yours

SUBJECT: Fuel for Power Plants - Naples.

HQ., A.C., Public Works and Utilities Sub-Commission,
Electrical Division, APO 394.

135

1. Reference your 6/1-300/PWU dated 16 August 45, subject as above.

2. Your estimate for August is equivalent to 3,000 barrels. It is called to your attention that the average consumption, based on issues of this plant, over the last 19 months was 1,733 barrels per month.

3. It is appreciated that these plants are presently being used to maximum capacity. However, it is felt that much economy can be practiced in the amount of current ~~fuel~~ presently being consumed in Naples with the result that the fuel consumption will remain close to 1,700 barrels per month, as fuel supplies are not only tight but are to remain so in the future.

(COPY)

Fra: Societa Meridionale di Elettricita
Naples
To:- A.C. Headquarters
Electrical Division.

Ref;-471/994
Date, 7 June 45.

Reference your letter 300/PWU dated May 19th.
We cannot obtain our timber requirements in the Reggio Calabria Area because no silan pine grows in that province and this is the only wood available fit to replace the firwood for our needs.

We ask you to kindly try to obtain the timber for us from the controlled Areas through Military channels.

Our requirements- they are really most pressingnow-are still as detailed in our memorandum dated february 17th 1945 viz,

Squared timbers cm 10 x 10 x 400	m3 5
Planks, thickness cm 2.5	m3 75
Planks, thickness cm 4	m3 50
Squared poles 11 x 15 cm x 6 + 8 mt	m3 70
Total requirements of silan pine timber	m3 200

Carriage by railway from the Cosenza or Crotone Rlw Station to Frattamaggiore-Grumo (Naples) Rlw St.

We also call your attention to the fact that we had planned to use for our building work the lumber from 11 large wooden barracks we own in Cecita-Longobucco (Cosenza) but these were requisitioned in March 1945 by an American Unit, a detachment of 2698th Technical Supervision Regt APO US Army.

We pointed out to Maj T. B. Foster C.E. U.S. Army, who is in Command of the Detachment, that we badly needed the lumber from the barracks. He kindly wrote to the Engineer Office - Benbase South APO 782(See attached copy of letter) asking that office to supply the lumber we needed, but the request was not granted until today.

Should you not be in a position to obtain the timber for us through Military channels we ask you to kindly take steps to have those barracks derequisitioned.

Any further delay in the allotment of the required timber would seriously interfere with the work of reconstruction which is under way.

Trusting this important work will receive your prompt attention.

We thank you and remain
respectfully yours,
Societa Miridionale di Elettricita

DETACHMENT, 2698th TECHNICAL SUPERVISION REGIMEN T (OVERHEAD)
3d ENGINEER SERVICE BATTALION (ITALIAN)
APO 782 U.S. Army

15 March 1945

Subject; Property belonging to Societa Meridionale di Elettricita.

To;- ENGINEER OFFICER, Penbase, APO 782 U.S. Army (ATT Lt Col Cooley)

1. Reference previous letter this Headquarters, subject as above dated 12 March 1945. According to Eng Davatalli , the objections of the Societa to the requisitioning their camp site at Cantiere Cocita Calabria for this organisation, were based on the fact that the Societa planed to use the lumber from the barracks to build forms for concrete in the construction of a project in the vicinity of Naples.
This project is to be built by direction of Major Ryan Engineer Service, Penbase South. Eng Lavatelli has informed us that there would be no Objection whatsoever to occupying this camp if the Company could be provided with lumber from another source. The Societa also has no objection to the requisitioning by this organisation of a small quantity of pipe mentioned in the first letter. They have no contemplated use for the pipe.

2. Request, if possible, that arrangements be made to release the required amount of timberto the Societa from Engineer Depots. The present camp, with barracks is an ideal one for the battalion, and as pointed out previously its use will allow the organisation to start operations with the 800 Engineer Forest Company at a much earlier date, and will also be a great saving of materials.

James B. Foster
Major C.E.
Battalion Supervisor.

Copy to Engineer Penbase South

SUBJECT: Purchase of Almelec Conductor for Cisterna Electricity Supply.

TO : Milano Office, Electrical Division,
Public Wks. & Util. Sub-Commission,
Att: Major Clarence Wilcox.

1. Confirming the telephone conversation today between Ing. Toscano of this office and your office, the Societa Romana di Elettricita has requested that an order be placed with the Trafilene Laminatoi di Metalli for Almelec conductor needed for the transmission line feeding Cisterna, under the following conditions:

Cross Section:	50 sq. mm.
Quantity:	4,000 Kg.
Price for redrawing:	42,50 Lire for Kg.
Payment to be made by:	Societa La Centrale, Via S. Damiano 4. Milano.

2. Within the next few days, the actual order prepared by the Societa Romana di Elettricita will be sent to you for transmission to the Trafilene Laminatoi di Metalli.

3. It is intended that all actual transactions take place between the Societa Romana di Elettricita, Societa La Centrale, and Trafilene Laminatoi di Metalli, and that the Public Works and Util. Sub-Commission will endeavor to expedite the order by utilizing means of communications at its disposal, and by aiding in securing available transportation.

N. 12930 Uff. Re./Imp.
DA CITARE NELLA RISPOSTA

ROMA, 16 Giugno 1945
VIA TORINO, 107 - CASELLA [illegible] 1945

OGGETTO: Prezzi materiale isolante consegnato alla Società Meridionale di Elettricità

Come è noto alla Società Meridionale di Elettricità di Napoli sono state consegnate nel gennaio u.s. le partite di materiale isolante, vernici, nafta, acido solforico, ecc., di cui all'accluso elenco.

Dovendo questo Istituto procedere alla sistemazione contabile di detto materiale, si sarebbe grati se codesta Commissione si compiacesse comunicare, con cortese urgenza, per ogni singolo prodotto compreso nell'elenco il relativo "landed cost".

Dai listini sinora inviati si rilevano i seguenti "landed costs":

- Tape rayon varnished	roll	Lire	62
- Insulating material	box	"	29.994
- Paper insulating	roll	"	2.561
- Varnish Ge 152	litro	"	[illegible]
- W.M. & P. Naphta	"	"	47,50
- Sulphuric acid	kg.	"	27

Per detti "landed costs" Vi preghiamo di confermarci che essi sono applicabili ai prodotti ritirati dalla Società Meridionale di Elettricità.

SUBJECT : Scrap Copper.

TO : HQ AC, Public Works & Utilities Sub-Com., Electrical Division.

4 June 1945

(49)

1. Receipt is acknowledged of your letter 300/PWV of 1st June 45.

2. The availability of the Scrap Copper as per Release Order No.2077 was reported by the Italian Ministry of Industry, Commerce & Labour through HQ AC Commerce Sub-Com.

3. As the Material was reported as available, it was concluded that it was surplus, and it was therefore allocated.

4. The position of Scrap Copper in the hands of Electricity Companies is fully appreciated, and should any further quantities be reported as "available" you will be consulted before the material is put before the Engineering Materials Committee for allocation.

Subject : Scrap Copper

To : Allied Forces Local Resources
MAAC

1. We are informed that a release order No. 2077 was issued by you to DADOS Central Purchase Dept. on the Luzena Electricity Co which Company is a Subsidiary of Societa Meridionale di Elettricita for 2.160 Kgs of Scrap Copper.

2. DADOS was only able to collect 1.506 Kgs since the remainder had been used by the Company for redrawing into copper conductors.

3. It is suggested, that unless there is a very urgent demand for copper scrap, the electricity Companies should not be relieved of their stocks, the fact that such stocks exist do not mean a surplus but in almost every case, the Companies are waiting an opportunity to have the scrap copper smelted and manufactured into transmission conductors.

4. Wire drawing factories are inundated with orders at present and all orders are being executed according to priority.

For the Chief Commissioner.

LS/GdC

Board of Trade, Industry & Labour
Industry & Mines Section

R O M E

An officer of the D.A.D.O.S. Central Purchase Direction Italy, Naples Branch, a few days ago called at the offices of our subsidiary Lucana Company for Hydroelectric Enterprises, in Potenza.

He produced the talley slip n. 2077 issued by Allied Forces Local Resources HFHQ and approved by this Board of Trade, for the allottment of 1.586 kilos of scrape copper owned by the Lucana Coy and actually took delivery of said amount of broken metal.

The allottment he produced concerned the whole amount of scrape copper (2.160 kg) the Company in due course had stated it owned; but, in the meantime, part of said amount had been disposed of for the making of copper conductors.

We beg to call your high attention to the fact that the scrape metals we own - as from the statements we filed in due time in compliance with the regulation enacted by this Board - are indispensable to us, as they must be used to make all the outfit we need for the work of reconstruction and maintainance of our production transportation and distribution system.

Copper scraps are specially needed as they are used to make copper wires and ropes, both utterly indispensable to the work of repairs to our lines and to our machinery, both badly damaged during the war.

The amount of scrape metals owned by us and our subsidiary companies even falls short of our minimum present requirement. We could not use them all yet, because the only workshop fit for the work of trahsformation is that of the Cormadini Coy in Naples; and this has far too many orders to fill and is unable to execute them with the required speed, owing to the heavy damage done by the Germans to its machinery.

We point out that whilst the work for the reconstruction of the Pescara generating stations is going on satisfactorily, that for the repairs to the lires along which the energy produced in the same plants ought to be conveyed, has on the contrary to be delayed, specially owing to the lack of conductors. Should we be obliged to give over to others the scrape copper we have, we might then find ourselves in a condition non to be able to transport the energy that will be available on the places of production. It would be even impossible to convey to the South of Italy the spare energy from the North.

458

ALLEGATO
N. 1417S

Declassified E.O. 12356 Section 3.3/NND No. 785019

On the other hand we know that large stocks of scrape copper are available, for which probably no regular statement was ever made and which are purchased and sold at black market prices.

We hereby request that our Company and following subsidiary ones:
- Pugliese El. Coy,
- Lucana Hydroel. Coy,
- Calabrie El. Coy,
- Campania El. Coy,
- El. Coy for drainage and irrigation (S.E.B.I.)

should be authorized to keep and use for their own needs the stocks of scrape metals they own, no quantity of which should be allotted to any other Italian or Allied firm or office whatever. The work of reconstruction of our plants is most important for the national rehabilitation: should we be deprived even of a part of our stocks of scrape metals, we might be forced to delay or even to stop said work.

We remain respectfully yours

24 May 1945

SUBJECT : Electric Motor Brushes

TO : AFHQ G5 Section (Economics and Supply)

93,79

1. Reference is made to your EI dated 21 May 1945 and our 300/PWU dated 20 April 45.

2. Attached hereto are copies of letters addressed to Industry and Commerce Sub-Commission this HQ dated 29 Feb.44 and 1 March 44 which letters indicate the description of brushes requisitioned on AFHQ. MGS under Requisition No.13/ENG/III/44 dated 1 March 44.

3. It will be seen that the carbon brushes at Cancello exactly tally with the items requisitioned under 13/ENG/III/44 except item 4 of your EI dated 21 May 1945 which shows a deficiency of No.25

4. In view of this information it is suggested that the carbon brushes at ES(B) D Cancello are those supplied against Requisition 13/ENG/III/44 dated 1 March 44 in which case it will be appreciated if early release can be effected.-

1. We are in receipt of your letter 56000/436 dated 14 May 45 and in reply wish to say that we cannot guarantee that you will be supplied with cement in anything like the quantity you ask for.

2. There is a very heavy demand on all factories producing cement, and after military commitments, the surplus for civilian uses is small.

3. We suggest that you also place a demand on the Ministry of Industry Commerce and Labour which Ministry will have a proportionate allotment.

Naples

1. A copy of your letter No. 75605 CAI/ISV dated 9 March 45 addressed to Associazione Provinciale Degli Industriali Concern has been passed to this Division.

2. It is presumed that you are still in need of timber since our letter 300/PWU dated 27 Feb 45 was not acted upon.

3. We now understand that all the saw mills in the Bari Area are controlled by the Military and only those in the Reggio Area are no longer controlled.

4. It is suggested that you try to obtain your timber requirements in the Reggio Area and should you encounter difficulties please inform us, when we will try to obtain for you through Military channels.

Richiesta di olio da parte della Soc. Idroelettrica Garga-Saracena

(80)

Con riferimento a vostra lettera 300/PWU/ del 20.4.45 vi precisiamo che la Società Idroelettrica Garga ha un impianto di produzione sul fiume Garga (660 kW) e distribuisce energia in nove Comuni della Provincia di Cosenza con complessivi 32.546 abitanti.

Riteniamo necessario che la Soc. Garga sia messa in condizioni di continuare il servizio di produzione e distribuzione.

Telegrammi: TUSCIANO - NAPOLI

L'Ufficio Trasporti della Campania con sua nota del 14 corr. ci ha comunicato che, a partire del 15 c.m. i suoi servizi sono passati alle dirette dipendenze di codesto Spett.Ente.

Poichè attualmente l'U.T.C. aveva messo a no/ disposizione alcuni autocarri per le nostre inderogabili necessità dei lavori di ricostruzione e per l'esercizio degli impianti preghiamo codesto Ente, in vista della scadenza delle decadi in corso, di rinnovare l'assegnazione degli stessi mezzi U.T.C. per i seguenti servizi: -

- 2 autocarri da 3 Ton. adibiti esclusivamente al trasporto, da Guardiagrele a Presenzano ed altre località, di pali a traliccio smontati da un tronco di linea inutilizzato e rimontati, in sostituzione di quelli distrutti da eventi bellici, sul tratto Venafro-Capua della linea 150 kV Pescara-Fratta.
- 1 autocarro da 3 Ton. per i lavori della linea a 150 kV Pescara-Fratta sul tronco Fratta-Presenzano (con residenza a S.Maria C.V.)
- 1 autocarro da 3 Ton. per i lavori della 150 kV Pescara-Fratta tronco Presenzano-Pizzone (con residenza ad Isernia).

Declassified E.O. 12356 Section 3.3/NND No. 785019

- 1 autocarro da 3 Ton. per i lavori di ricostruzione della Centrale del Leto.
- 1 autocarro da 3 Ton. per l'esercizio degli impianti del Tusciano (residenza Olevano sul Tusciano)
- 1 autocarro da 3 Ton. per l'esercizio degli impianti del Tanagro (residenza Pertosa)
- 1 autocarro per l'esercizio degli impianti e linee collegati alla sottostazione di Frattamaggiore (residenza Frattamaggiore)
- 1 autocarro da 3 Ton. per l'esercizio degli impianti della città di Napoli.

Inoltre ci è indispensabile la riassegnazione di altri due autocarri rispettivamente da 3 e 1,5 Ton. per l'esercizio dell'impianto e linee del Matese e per l'esercizio della sottostazione di Torre Annunziata e linee relative (residenza Piedimonte d'Alife e Torre Annunziata).

Quantunque superfluo, perchè codesto Ente è già a conoscenza delle ns. necessità e dell'importanza che i ns/ lavori di ricostruzione e l'esercizio dei ns/ impianti rivestono nel momento attuale, facciamo presente che abbiamo limitato allo strettissimo indispensabile le nostre richieste, il cui ottenimento ci metterà in grado di non sospendere la attività dei due settori (ricostruzione impianti distrutti ed esercizio di quelli in funzione) ai quali dobbiamo dedicare tutte le nostre forze per la realizzazione dei complessi programmi di lavori e di distribuzione dell'energia elettrica approvati e controllati dalle Autorità Italiane ed Alleate.

Il ns. Dott. Brun latore della presente illustrerà nei dettagli le nostre esigenze che certamente comprenderete, sicchè confidiamo nell'assegnazione degli autocarri richiesti e nella vostra collaborazione mediante la quale potremmo riuscire a potenziare sensibilmente la disponibilità di energia elettrica nell'Italia Meridionale.

Ringraziandovi Vi salutiamo distintamente

SUBJECT : 50 Cases Solder - ex S.S. "KING JAMES"

TO : I.C.E.

1. By error 50 cases solder ex S.S."KING JAMES" were released from Depot 676 Naples to Società Meridionale di Elettricità Naples by order of Major Ryan, Public Works & Utilities representative.

2. Since Società Meridionale di Elettricità has already disposed of approximately one-half of this solder, it is impossible to recover the entire quantity.

3. However, at the order of Major Ryan as of 3 April 45, they are holding the balance on hand subject to the orders of I.C.E.

4. Therefore, ICE should arrange, at once, to collect from Società Meridionale di Elettricità, Naples the balance of solder on hand. ICE will then arrange to deliver this solder to the proper consignee. Further ICE will invoice both the Società Meridionale di Elettricità and the second consignee in accordance with the quantities actually shipped, and will adjust their records as well.

5. ICE will submit a report to the Commerce Sub-Commission of the quantities released to each consignee.

Lamierino magnetico

Magnetic sheets

Abbiamo ricevuto la Vs/ 300/PWu dell'8 corr. e Vi ringraziamo del Vs/ cortese interessamento.

Poichè è per noi difficile inviare un ns/ funzionario a Terni per prendere contatto con l'OCN 3 Det. 80 FBW SAFE, Vi preghiamo volerci far conoscere l'ammontare della fornitura onde noi possiamo inviare subito la somma a mezzo assegno.

Infine, Vi facciamo presente le difficoltà che sorgono per il trasporto delle 3 Ton. di lamiere a mezzo ferrovia non potendosi utilizzare un vagone completo che ha una portata di 20 Ton. e richiedendo il trasporto a collettame un tempo troppo lungo.

Vi preghiamo, pertanto, voler esaminare la possibilità di farci effettuare il trasporto a mezzo camion.

Translation

We have your letter 300/PWu of March 8, 1945 and thank you very much for your kind action.

It would be difficult for us to send one of our officials to Terni in order to contact the OCN 3 Det.80 F.W.B.SAFE; could you kindly let us know what we have to pay for the material supplied to us, so that we may immediately effect the payment by check?

We also call your attention upon the difficulties hindering the carriage of the 3 Tons. of sheets by railway, arising from the fact that we could not use one whole waggon - its carriage being 20 Tons. and , on the other side, carriage by mixed cargo would take too long a time.

We ask you therefore to kindly consider whether it could be possible to have the sheets carried by lorry.

With best thanks we remain

truly yours

PUBLIC WORKS AND UTILITIES SECTION

12 March 1945

SUBJECT : Gauge Glasses - Capuano

TO : HQ.Allied Commission
P.W.U.Sub-Commission
(Att.Lt.Col.W.M.LAPPER)

1. Reference is made to your letter 300/PWU of 4/3/45.

2. We have already contacted C.T.S.A. of Naples and I.L.V.A. of Bagnoli to determine whither or not the gauge glasses in these plants can be utilized in the Capuano plant.

3. The gauge glasses in I.L.V.A. are not suitable for use in Capunno.

4. We found 4 Klinger type gauges in C.T.S.A. and the managment of C.T.S.A. has agreed to loan them to Società Meridionale Elettricità. These gauges are now being fitted on to the boilers at Capuano.

5. There are 5 boilers in operation at Capuano and each boilers should have two gauges and for this reason we suggest that the gauges glasses be provided as requested by Società Meridionale Elettricità as soon as possible.

Oggetto

Cemento

A Vs/ del 24 corr. diretta alla UNES Roma e a noi trasmessa in copia per conoscenza Vi comunichiamo quanto segue:

1) La ns/ Direzione Lavori Pescara ha già provveduto nel dicembre u.s. ad inviare 4000 sacchi alla Cementeria di Civitavecchia e 4000 a quella di Segni. Il quantitativo deve pertanto essere pienamente sufficiente alla spedizione delle 200 tonn. assegnate rispettivamente sui due predetti Stabilimenti.

2) Per pra non ci risultano necessarie ulteriori assegnazioni oltre a quelle relative al completamento delle 400 tonn. complessive già concordate.

Con molti ringraziamenti.

409

TRANSLATION

Reference to your letter dated 24 inst. to UNES Rome with copy for us, we beg to inform you:

1) Our "Servizio Costruzioni Zona Nord" in Pescara has already provided since last December to dispatch 4000 cement bags to Civitavecchia and 4000 to Segni. The above amount of bags is quite sufficient to complete the demand of 200 Tons from Civitavecchia and 200 Tons from Segni.

2) For the moment we don't need any other additional cement, above the amount necessary to make up the total of 400 Tons originally demanded.

We thank you and remain truly yours.

Subject : Tyres for S.M.E. Company - Naples

18 Jan. 45

271

To : COMMERCE SUB-COMMISSION (Attn Maj. Wood)
From : P. W. & U. Sub-Commission

1) - We have repeatedly asked that tyres be made available for the cars of the Società Meridionale di Elettricità - Naples, but so far nothing has been done in this matter.

2) - As this Company is responsible for the electrical generation and distribution for the whole of Southern Italy including the important industrial centre of Naples, it is absolutly necessary that we make every effort to see that their cars are kept available for service.

3) - At the present time out of 28 cars only one is able to make a journey away from Naples for visits to the generating plants and rehabilitation works.

4) - In a recent breakdown of transmission lines between Sila and Naples the Company was unable to send out any of their own vehicles due to lack of tyres and a serious delay was caused in the carrying out of this repair. The result of this was that the electricity supply to factories engaged in important work for the military were without power for a much longer period than would normally have been necessary.

5) - The tyre position with this Company is now most serious and unless some tyres are made available at a very early date they will not be in a position to carry out their work in connection with the generation of electricity and the rehabilitation of the damaged plants.

6) - Request is made for the tyres as shown on the list below to be supplied without delay.

RECAPITULATION OF TYRES AND TUBES REQUIREMENTS

Richiesta olio per trasformatori -

A vostra 300/PWU del 13/12/44 vi precisiamo che la Società per Azioni Strade Ferrate Secondarie Meridionali, che vi ha richiesto una assegnazione di 2770 kgs. di olio per trasformatori. non è una nostra consociata.

Essa ha sede in Napoli, Corso Garibaldi 387 e gestisce la ferrovia a scartamento ridotto che collega Napoli con i paesi alle falde del Vesuvio; perciò è anche chiamata Ferrovia Circumvesuviana.

Translation -

16

Reference your letter 300/PWU of Dec. 12th, we inform you that the "Società per Azioni Strade Ferrate Secondarie Meridionali" that has filed an application for 2770 kgs. of transformer oil is no associate of the S.M.E.

That Company has its main office at Corso Garibaldi 387, Naples it operates the small gauge railways connecting Naples with the towns on the shopes of Vesuvius and is, therefore, also known as "Circumvesuviana Rlw."

Believe us

384

truly yours

MEMORANDUM

16 Dec. 44

S.M.E.

URGENT

S.M.E. needs 10 - 16x600 tires and 10 - 16x600 tubes to put on two of their own passenger automobiles for the following reason :

1. Transport technicians to Calore to test unit. Capacity 5.500 KW.

2. Transport technicians to Sila to test Orichella 18.000 KW. unit and to supervise and test 12.000 KVA transformers which is being moved from Bari to Timpa Grande.

Failure to obtain these tires and tubes will seriously delay restoration of power supply in Southern Italy.

SOCIETÀ MERIDIONALE DI ELETTRICITÀ

MEMORANDUM FOR CAPT. RYAN

For the maintenance of the boilers of our Capuano steam plant, IOOO fire-proof bricks and 20 Tons special cement are required.

We have found such materials in Sardegna, and the Società Anonima Finanziaria Industriale Sarda writes to us that the same materials were ready for shipping since Nov 20th last.

The total weight of the materials amounts to 23 Tons.

We ask for a kind interest in order to obtain a shipping order from Cagliari to Napoli. We thank you.

MEMORANDUM FOR CAPT. RYAN

Storage batteries

I. Storage batteries of our plants are in very poor conditions, owing to the lack of spare parts (plates and other accessories).

The Tusciano and Savuto batteries are in worst conditions. We foresee that such batteries cannot absolutely remain in operation during more than 2-3 months.

2. For the repair of the above batteries, the following materials are required (see annexed drawing Nr.5434)

I80 positive plates type Tudor A_2 (for Tusciano power station);
I80 negative plates type Tudor A_2 (for Savuto pumping station);
I20 negative half-plates type Tudor A_2 (for Savuto pumping station).

3. As far, it is not possible to find such materials on the free market.

We believe that the F.A.P. (Fabbrica Accumulatori Partenope - Casalnuovo - Napoli) could manufacture the plates. Said Firm is, however, requisitioned by the Allied Forces.

4. We ask a release order for the above said plates be given us, in order that it may be possible to have the two batteries of Savuto and Tusciano stations quickly repaired.

SUBJECT : 200 tons cement Civitavecchia-Ortona.

TO : P.W. & U. Sub-Commission
(Electr. Sec. - Maj. Price).

1. Reference old 300/PWU I regret this cannot be accepted as emergency. Due to extreme shortage of rail cars the earliest this old can be considered is for the week 18 - 24 Dec.

2. Civitavecchia to Ortona is an extremely long and uneconomical haul. Can this cement not be drawn from Italcementi at Salerno please? Bids for haul Salerno to Ortona will be met very much more readily,- in fact we could take bids for such moves on our own tonnage very quickly.
