Commission Electrical Division
Via Vittorio Veneto = ROMA =

Facciamo riferimento alla ns. richiesta in data 11/6 u.s. nº 573/181 relativa all'assegnazione di vagoni ferroviari, per segnalarVi che sono stati messi a ns. disposizione soltanto nº 3 vagoni anzichè nº 6 come da Voi disposto.-

Preghiamo pertanto Codesta Commissione di voler disporre affinchè vengano messi a disposizione della ns. Società, entro il più breve tempo possibile, i sottoelencati vagoni ferroviari tutti del tipo "POZ" oppure "doppio vagone con bilico" occorrenti per il trasporto di nº 600 pali in legno di castagno:

Mittente: Ditta Pizzicannella Umberto
Destinatario: Unione Esercizi Elettrici

a) completamento della prima richiesta come sopra indicata:
nº 1 vagone - stazione mittente:Lariano — 20
stazione destinataria:Fano
nº 2 vagoni - stazione mittente:Lariano
stazione destinataria:Ancona — 40

b) nuova richiesta:
nº 3 vagoni - stazione mittente:Lariano — 60
stazione destinataria:Vasto

I pali di cui trattasi ci sono assolutamento indispensabili per urgenti lavori di riparazione di linee che abbiamo in corso nei ns/ Esercizi di Ancona e Pescara.-

Certi del Vs. cortese interessamento, ringraziamo restando in attesa di Vs. comunicazioni.-

30 May 45

SUBJECT : Materials needed for reconstruction of UNES Transmission Lines.

TO : Major L.G. PRICE.

FROM : P. Wks & U. Sub-Commission.

1. Transmitted herewith is a list of materials needed by the UNES Company for the reconstruction of three sections of transmission line in the area West of Ancona.

2. The completion of one of the sections, Fabriano-Pergola, is necessary in order that a sulfur mine near Pergola may resume operation. The starting of this mine ~~has~~ is of great concern to the Industry Sub-Commission, which considers the mine as a very important sulfur producer. I do not recommend that we assist at this time to obtain material for the Pergola-Fossombrone, and Raggioli-Femmignano lines, also shown on the list.

3. I would appreciate your help in obtaining the requested material for the Fabriano-Pergola line, except that the UNES Company will be asked to supply the wood poles, and they will be asked to furnish additional information describing the 30 KV insulators.

R

V. S. RENTON,

Ordinazione nº 15
572/903 Approvv. AZ/dma

Isolatori Porcellana

A seguito delle intese verbali intercorse durante la recente visita a Doccia del ns. Ing. Tolomeo, ci pregiamo con la presente comunicarVi il ns. fabbisogno di isolatori di porcellana oltre quelli che già abbiamo fissato con ns. ordinazioni nº 11 in data 12 corr. e nº 14 in data odierna:

A) - Tipi rigidi di linea:

1) Per bassa tensione:

1) modello 962 R.G. (CN 7).....nº 15.000.=
2) " 27 R.G. (CN 6)....." 25.000.=
3) " 1492 R.G. (CN 146)....." 30.000.=
4) " 626 R.G. (CN 147)....." 15.000.=
5) " 884 R.G. (CN 86)....." 1.500.=
6) " 1302 R.G. (CN 87)....." 1.500.=

2) Per alta tensione:
per 10 KV. di esercizio:
7) Vs. Mod.Paderno 1303 oppure Americano 17901 oppure Delta 17913 o simili.....nº 25.000.=
per 15 KV. di esercizio:
8) Vs. Mod.Paderno 1386 oppure Americano 17902 oppure Delta 17914 o simili....." 20.000.=
per 30 KV. di esercizio:
9) Vs. Mod.Paderno 1009 oppure Americano 17673 oppure Delta 17919 o simili....." 10.000.=

Gli isolatori delle posizioni 1) e 2) con capsula CS. 71, gli isolatori delle posizioni 7) e 8) con capsula CS 72 e gli isolatori della posizione 9) con capsula CS. 73.- Tenete presente che noi preferiamo il tipo Americano.

19/7

B) - Per cabina:

1) Portanti = completi di cappa e base:

10)per 10 Kv. di esercizio = Mod.CN.186 o simile.....nº 1.800.=
11) per 30 Kv. di esercizio = Mod. CN.190 o simile....." 900.=
12) per 60 Kv. di esercizio = Mod. CN.335 o simile....." 50.=

Gomme e camere d'aria da automobile

45

In risposta alla stimata Vs. 20 corr. nº 305/P.W.U. ci pregiamo ripeterVi nel foglio qui allegato l'elenco dei pneumatici che ci sono necessari per la rimessa in efficienza dei ns. qutomezzi, elenco che abbiamo limitato a quelle macchine sulle quali può venire adattato il tipo di copertone e camera d'aria nº 6,00 x 16 di cui Voi potete disporre.-

Infatti già con ns. 5 Febbraio u.s. nº 572/518 Vi comunicavamo l'impossibilità nostra di impiegare l'altro Vs. tipo nº 7,50x20.

Dall'elenco risulta che il ns. fabbisogno ammonta a totali nº 54 copertoni e nº 51 camere d'aria dai quali vanno dedotti i nº 8 copertoni e nº 8 camere d'aria che ci avete consegnato in assegnazione per il mese di Febbraio u.s.-

Voi siete a perfetta conoscenza dell'urgente ns. necessità di venire in possesso dei pneumatici in parola, pertanto vogliamo sperare che oltre agli 8 copertoni e 8 camere d'aria che ci avete promesso di fornirci in sostituzione di altrettanti del nº 7,5 x 20 assegnati in Febbraio e da noi rinunciati per l'impossibilità di montaggio sui ns/ automezzi, vorrete fissare la nuova assegnazione nella massima quantità possibile.-

Ringraziando restiamo nell'attesa di gradite Vs. comunicazioni.-

OGGETTO:
Assegnazione pneumatici per automezzi

A seguito ns. 28 Febbraio u.s. n° 572/635 e precedente ns. 5 Febbraio u.s. n° 572/518, Vi confermiamo che non ci è possibile utilizzare su ns/ automezzi gli otto copertoni e le otto camere d'aria n° 750 x 20, assegnati con Vs. 21 Febbraio u.s.-

Come intesi verbalmente con il Vs/ Sig. Magg. Price, mentre decidiamo di rinunciare all'assegnazione suddetta, restiamo nell'attesa che per il corrente mese di Marzo ci vengano messi a disposizione altrettanti copertoni ed altrettante camere d'aria, del n° 600 x 16.- Ciò s'intende in aumento a quanto Codesta Commissione andrà ad assegnarci quale secondo acconto sulla ns. domanda in corso n° 572/478 in data 31-1-945.-

Nell'attesa di comunicazioni, ringraziamo vivamente.-

Subject : Hydro electric plants of Sagittatio
Transports.

In order to carry out the numerous transports of the parts of machinery which are to be delivered to " Terni Steel-Works " for providing to reinstate the C. generator unit of the main power station of Sagittario river we think 4 trips to be necessary from this power station to Terni, using heavy trailors pulled by tractors and at least other 12 trips using trucks of minimum capacity of 50 - 60 q.

It is intended to transport by trailors the heavier and cumbersome parts, such as the gate of the machinery, the turbines wheels and their asces, the lower part of the turbines foundations, the rotor of the alternator with its axes.

On the other hand all parts of machinery which can be distembled and which therefore will weigh less and be less cumbersome, as well as the wrekages requested by Terni Steel-Works," in order to facilitate the manifacture of the models of the more damaged parts, can be carried in ordinary trucks.

Subject to the preparation of a complete detailed scheme of transports, we point out that the above mentioned transports can be started presumably between March 10 and 20 and , that is, as soon as the improved conditions of road due to the passing of the passing of the winter season and the availablity of electrical power that the U.N.E.S. is going to supply in order to carry out the operations of the bridge crane inherent to distembling and loading works, will be such to avoid any prejudicial waste of time.

1915

Declassified E.O. 12356 Section 3.3/NND No. 785019

The aferisaid menas of transport, if available in Rome, can be utilized, as a general rule, also to go to Sagittario as it is necessary to transport there timber, working tools, barrels and all other materials needed for carrying out the works.

We wish to know if the Allied Commission can provide the said means for that time and, if so, when they would be ~~a~~ put at our disposal.

TO: HQ.A.C. P.W. & U. S/C
Att.Maj.Price

Subject : UNES Ascoli - Sulphuric Acid

REF. R5/516/2/6

Enclosed please find MAT 10 in quadruplicate with covering letter dated 10 Feb. 45 from the P.S.O. Ascoli regarding 500 litres sulphuric Acid for UNES Ascoli.

As pointed out By RSO in his footnote, Sulphuric Acid is no a controlled material. There is however no local source of supply and it will be appreciated if you can indicate to Unes Head Office in Rome where sulphuric Acid can be obtained if they do not already know.

It appears to me that organisation like UNES could greatly simplify the produring of consumable stores if they established a central purchasing department in their Head Office.

ROME

ALLOCATION OF RAILWAY TRUCK

The undersigned Campania Electric Co., with head quarter in Naples Via Roma,123, has bought 12 transformers, 100 KVA 9000/260 Volt each, from Mater factory in Rome,Via Gino Capponi 51.

Thise transformers are necessary for the reconstruction of plants damaged by war in area of Caserta, Sessa and Formia.

The Campania Coy demands the allocation of one railway truck to forward the transformers by rail from Roma Tusculana station to Caserta station.

If it is impossible to use the Caserta station for military reasons, the transformers shall be forwarded to Santa Maria C.V. station-address Campania Coy.

The transformers, whose total load is 7,5 Tons, will be ready at Mater factory in Rome at end of February and so the Campania Coy beg your office to grant the railway truck for the 15th March 1945.

Every further arrangement shall be taken with the UNES Coy with headquarter in Rome Via Torino 117 telephon 480980 - 484586 - 487792. that is charged from Campania Coy to forward the transformers by rail.

We remain, Sirs, your sincerely.

TRANSLATION 189

ASSEGNAZIONE DI VAGONE FERROVIARIO

La sottoscritta Società Elettrica della Campania, con sede in Napoli-Via Roma,123, ha comprato 12 trasformatori, ciascuno da 100 KVA 9000/260 Volt presso lo stabilimento MATER in Roma,Via Gino Capponi,51.

Questi trasformatori sono necessari per la ricostruzione degli impianti danneggiati dalla guerra nella zona di Caserta, Sessa Aurunca e Formia.

La sottoscritta Società domanda l'assegnazione di un carro ferroviario per spedire i trasformatori per ferrovia dalla stazione di Roma Tuscolana a quella di Caserta. Se sarà impossibile usare della stazione di Caserta per ragioni militari, i trasformatori saranno spediti al=

1. Reference is made to your R5/516/6 dated 2 Jan 45 and UNES letter dated 21 Dec. 45.

2. It is noted that the work of covering the roof of Vanmartello Power Station has been suspended because of lack of tiles and that tiles have been found at the works of Fornaci Brizzarelli, Marciano.

3. Bricks, tiles and the production are not controlled and any stocks found can be disposed of provided the stocks have not been "frozen" by the military authorities.

4. It is assumed the tiles found at Fornaci Brizzorelli have not been frozen, you are therefore, an authority to issue instructions to the above mentioned Company to dispose of its stock to UNES for work at Vanemartello which work is considered to be of urgent military and civil importance.

5. Please report any difficulties that may arise to this Sub Commission.

RICEVUTA 22.12.44 L'AQUILA

TEGOLE PER CENTRALE VENAMARTELLO =

I lavori di copertura del fabbricato centrale Venamartello sono ora sospesi per mancanza di tegole.
Naturalmente senza completare la copertura del fabbricato non potremo dare inizio alla riparazione delle macchine elettriche.

Noi avevamo trovato tegole presso le Fornaci Brizzarelli di Marsciano Provincia di Perugia ma ora veniamo informati che la produzione delle tegole di questa Fornace é stata bloccata per ordine del Colonnello Poletti, a disposizione esclusiva per la Città di Terni.

Quì nella nostra Regione non ci é possibile trovare tegole, Vi preghiamo quindi di volere farci ottenere lo sblocco a nostro favore, dalle Fornaci Brizzarelli di N° 9000 (novemila) tegole, necessarie per completare la copertura del fabbricato centrale.

1. It has been agreed that 50 Tons of Cement is released weekly until further notice from Italcementi to Societa Meridionale di Elettricita for use on the rehabilitation of Pescara 3 hydro electric plant.

2. As arranged with your Engineer Zanoni, U.N.E.S. will act on behalf of SME regarding payment etc. and will communicate with the Italcementi Rome office to settle all details.

3. We are informed that so far only one lot of 50 Tons Cement has been payed for, and that it will be necessary for you to make further arrangements with Italcementi before subsequent shipments can be made.

4. For your information the first 50 Tons Cement was dispatch from Civitavecchia to Ortona 22/12/44 and it is hoped to dispatch a further 50 Tons on 26/12/44 but this can only be done with the approval of Italcementi Rome Office after the financial details have been settled by you.

5. Please inform this office as soon as possible that weekly shipments of cement can continue.

MATERIALS FOR UNES

In reply to your letter ACC/306/PWU of the 15 inst.

We submit to you in the annex, the required data about possibility of supplying materials to the Unes.

Yours truly

Signed:-

Annex 1

185

A) MATERIALS

27

1- Metals.

1- Sheated conductors could be supplied provided we shall receive the necessary quantity of copper scraps and all the data about the section and type of insulation.
We could, then take care that the necessary works be executed by the Corradini and Fice Factories.

2-3-4-5-6-- The difficulties in finding such materials on the market increase day by day. If UNES cannot directly buy them, it will be necessary to apply to the ACC case by case.

7- We estimate they could be manufactured in Rome or Naples. Samples or drawings would be required.

8-9-1o- as for 2-6.

2- Insulating materials

1-2-3-4-5- We have obtained, through A.C.C., some quantities of those items. The employment is a question of priority. If Unes will state in detail required amount and employment it will be possible to decide.
6-7-8- as for 1-2-/6.

9- The number of bushings requested was that strictly needed by S.M.E. We do not presume it will be possible to supply UNES.
Pin insulators - as for 1/2-6.
Suspended insulators - We cannibalize less important lines or we reduce the number of elements on the same line. UNES could arrange in the same manner.

3- Lubrificators - 4- Fuels - 5 Tires for motor cars - 6- Materials for construction:
as for 1/2 - 6.

7- Works equipment - as for 1/2 - 6 except for 7-8. We could supply Unes with Decauville track and waggons. Requirements must be reduced to a minimum as the above items will be taken

Declassified E.O. 12356 Section 3.3/NND No. 785019

Olio per trasformatori

- ROMA -

HEADQUARTERS
25 SET. 1944
A. C. C.

Abbiamo ricevuto la Vs/ cortese comunicazione del 21 mc. ACC/304/PWU in merito alla assegnazione da Voi concessaci di 100 Galloni di olio per trasformatori e provvederemo a metterci d'accordo con il C.I.P. per il ritiro di tetto quantitativo.

Vi preghiamo però di tener presente che come risulta dalla ns/ richiesta n° 571/734 inoltrata al Central Elettrical Board l'8 agosto us. il ns/ fabbisogno di olio è di almeno 100 Tonnellate (1.000 Q.li) di olio, in quanto è da tener presente che quasi tutti i trasformatori installati nei ns/ impianti, per effetto della rottura dei cassoni hanno perduto completamente l'olio anche nei casi in cui gli avvolgimenti sono rimasti senza danni.

Avendo da parte ns/ già provveduto in molti casi alla riparazione dei cassoni e anche degli avvolgimenti non gravemmte danneggiati, è necessario che ci venga subito assegnato l'olio per il riempimento delle macchine onde permettere rapidamente la rimessa in servizio.

Siamo sicuri che la Vs/ nuova assegnazione sarà corrispondente al ns/ effettivo fabbisogno.

Olio per trasformatori.

Abbiamo ricevuto la Vs/ cortese comunicazione del 21 mc. ACC/304/PWU in merito all'assegnazione da Voi concessaci di 100 Gal= loni di olio per trasformatori e provvederemo a metterci d'accordo con il C.I.P. per il ritiro di detto quantitativo.

Vi preghiamo però di tenere presente che come risulta dalla ns/ richiesta n°571/734 inoltrata al Central Elettrical Board l'8 Agosto us. il ns/ fabbisogno di olio è di almeno 100 Tonn. (1.000 qli) di olio, in quanto è da tener presente che quadi tutti i trasformatori installati nei ns/ impianti, per effetto della rottura dei cassoni hanno perduto completamente l'olio anche nei casi in cui gli avvol= gimenti sono rimasti senza danni.

Avendo da parte ns/ già provveduto inmmolti casi alla ripara= zione dei cassoni e anche degli avvolgimenti non gravemente danneg= giati, è necessario che ci venga subito assegnato l'olio per il riem= pimento delle macchine onde permettere rapidamente la rimessa in ser=
