Ref. : ACC/5673/IND

SUBJECT : Boiler Tubes

TO : P.W.& U.Sub-Commission

1. Your ACC/506/P.W.U. of 15/10/44 refers.

2. The pipe plant at Barm is according to our most recent knowledge occupied as a workshop by a Royal Engineer heavy maintenance unit, who are using the buildings as a machine and erection shops.

3. In order to make space for this work they have uplifted much of the pipe machinery and moved this to one side; and even if they could be persuaded to relinquish the premises the restoration of the factory to its original form would take considerable time.

4. We are however investigating to see if the R.E. unit is still on the premises, but in the meantime it would be as well for you to submit details of your requirements on boiler tubes and steel pipes, giving sizes and full specifications so that some idea of the required quantities can be obtained.

MEMORANDUM FOR LT.COL.LAPPER

Referring to our memorandum of Sept 5th last we beg to take notice that the diameter of the requested 200 water pipes for boilers is 3" external (and not internal as specified in the memorandum above).

We thank you.

Naples, Oct. 6th 1944

MEMORANDUM FOR LT. COL. LAPPER

For our steam plant M. Capuano in Napoli, the following items are urgently required:

- 100 crystal glass water gauges for Springfield boilers:

  length 553 mm.
  external diameter 20 mm.
  internal diameter 12 mm.

- 150 crystal glass water gauges for Babcock and Wilcox boilers:

  length 420 mm.
  external diameter 19,5 mm.
  internal diameter 11,5 mm.

- 200 water tubes for boilers:

  length 6,50 m.
  overall diameter 3" (76 m.)

- Pressure in the boilers: 26 atm.

We have tried to find these materials, but we have not succeeded finding them.

REMARKS:

Form ACC-MAT No. 10.

Declassified E.O. 12356 Section 3.3/NND No. 785019

JUSTIFICATION : - URGENTLY REQUIRED FOR THE REHABILITATION OF 1000 KVA Power Plant at LAMA DEI PELIGNI. THESE REPAIRS WILL ALLOW THIS PLANT TO OPERATE in two weeks after receipt of Cement.

NOTE Please make available on the East side of Italy if possible.

Declassified E.O. 12356 Section 3.3/NND No. 785019

1900-K

MEMO TO Maj. PRICE:

1000 KVA power generating station at LAMA DEI PELIGNI (Road map Sheet 18, H-1583) has for several weeks been reported ready to operate within two weeks after receipt of 20 Tons cement.

Cement was expected to come from a plant at Bomba (H-3082) but due to difficulties in obtaining belting, this plant has apparently not been able to furnish cement.

Your assistance is requested in obtaining the required 20 T cement from any other source in order that we might effect the early release of this 1000 KVA block of power.

19. October 1944

Subject: PARAFFIN WAX

To2 : LT. COL. LAPPER, HQ.A.C.C. P.W.&U. SUB COMMISSION

Reference your letter ACC/306/PW&U, dated 16.9.1944, forwarded for action to this Office by the Regional Engineer, Southern Region.

The request made by the Firms mentioned in the letter to you from C.I.P. for supplies of Paraffin wax have been investigated.

The following is the position of the various firms ~~of~~ ~~paraffin~~ and the amount which is considered should be released to them against their various requests.

Miraglia Osvaldo-Taranto, request made for 2 kg paraffin, approved 2 kg

S.A. Officina Galileo, Taranto, request made for 20 kg, approved 5kg

S.I.P.A. S. Giorgio,Taranto, request made for 10 kg, approved 5 kg.

The 3 a/m firms are optical makers and are working for the Allied and Italian Navies, and the Paraffin wax is necessary in the process of manufacturing.

Lasorsa Giuseppe, Bari, request made for 20 kg, approved 10 kg.

The a/m firm has a workshop and affects repairs to electric motors.

SUBJECT: Flashlights

TO : Public Works and Utilities Sub-Commission
(Att: Electrical Section)

1. Reference is made to your memorandum, 6 October "44, your file ACC-306-PWU relative to subject item.

2. Advises received today from AFHQ states that, 3,600 flashlights and 10,800 batteries are being shipped from theatre stocks to ACC Public Safety Sub-Commission. Of this amount 800 flashlights complete with batteries plus 2,400 batteries are for Public Utilities located both in Rome and Naples.

3. It is suggested that you contact the Public Safety Sub-Commission for allocation of your share of flashlights and batteries. Public Safety Sub-Commission is being notified by this office to that effect.

4. It is understood that these flashlights are to be sold to the Public Utilities companies and not on a free distribution basis. In this connection the book costs are as follows :

Flashlight, TL-122-B	$ 0.52
Battery, BA-30	0.05

These are government costs and not landed costs. Suggest that 25% be added for landed costs.

ROBERT A. MARTINO
Lt-Colonel, S.R., ORC

SUBJECT : CARBON BRUSHES

TO :

1. The undermentioned societa is now in a position to accept orders for the manufacture of Carbon Brushes, namely

SOCIETA ITALIANA FORNI ELETTRICI ED ELETTRICITA
NAMNI S.C.I.O.

which societa has representatives in Rome, namely
INGENIERI CALONI E AMERI (Siemens)
Piazza Mignanelli 3
Roma

2. When placing orders for carbon brushes with this societa it will be necessary to state fully your requirements and if possible supply the old carbon brushes in order that the societa can recover the copper braid for fixing to the new brushes. This is necessary because of the extreme shortage of copper braid.

3. Please supply this office with a copy of your order so that priority of manufacture can be determined.

SUBJECT : PORCELAIN INSULATORS

TO : Industry Sub - Commission
Building Materials Division

1. We are in receipt of your ACC/5666/IND of 30 Sept.44 and welcome the information contained therein.

2. Porcelain insulators are in great demand at the moment and this Sub-Commission will be glad to know how soon the factory can be put into production, particularly with regard to the production of high tension insulator bushings for transformers.

3. It should be noted that this Sub-Commission has had transformer bushings on order for nearly twelve months and there is yet no sign of the order being executed, and demands are still being made for insulators therefore local production would do much to relieve the position of transformer repairs as many transformers are out of commission waiting the supply of insulator bushings.

4. This Sub-Commission strongly recommend that all possible assistance should be given to enable this factory to function at an early date.

GEJB/gsp

Ref.ACC/5666/IND — Building Materials Division — 26 Sept. 1944

SUBJECT: Porcelain - Societa Ceramica Richard Ginori.

TO : Acting Director, Industry Sub-Commission.

1. This Society, having factories at Doccia, Milan, Pisa, Mondovi, La Spezia, Livorno and Rifredi, was founded in 1735.

2. The factories at Livorno and Rifredi confined their activities entirely to the manufacture of porcelain insulators, but, whereas the Livorno factory is completely destroyed, Rifredi is completely intact.

3. (a) Rifredi can start to operate immediately, after electric power and long flame coal have been supplied.

(b) Doccia has been badly damaged and only one oven, out of 25, is workable. It is estimated that the production of insulators could be recommenced here in approximately 8 weeks after the supply of electric power has been re-connected. This power will be required at first in order to repair the damaged machinery.

4. The Society has a stock of approximately 250 Tons of insulators, of which a small quantity was seen to be of the type required by Communications S/C, as per attached drawings.

5. Details of the factories are as per attached data sheets. The requirements in materials, however, are given as a whole for the two plants as the Society uses Doccia as a dump.

6. While it is known that the requirements of long flame coal (600 Tons per month) seems excessive, the production of insulators, for the transmission of electric power and for communications, is a high priority necessity.

7. It is therefore recommended that the Rifredi plant only should be reactivated this year, which would mean that 400 tons

219

Declassified E.O. 12356 Section 3.3/NND No. 785019

of coal per month would be necessary instead of the 600 Tons quoted.

217

Declassified E.O. 12356 Section 3.3/NND No. 785019

DRAFT

1. In no case do the power system conform to Army District or A.C.C. Boundaries and it is necessary for officials, engineers and workmen from one area, to pass freely to other areas where work must be done. Without such free passage the work of repair and rehabilitation of the power syd ems became impossible.

2. It is therefore desirable that one pass or permit -which would be honoured in all areas- be issued to each employee of the Power Companies whose duties require them to move from one area to another. This pass will properly identify the person and be non-transferable.

3. It will state specifically the nature of the work on which the bearer is engaged and be valid only when so engaged.

4. It will be issued for a period of not less than six months and be withdrawn immediately the person to whom it is issued is no longer engaged on Power Coy work.

5. A careful record will be kept of all permits issued and the Power Coy will be instructed to immediately notify the issuing office when any employee ceases to be so employed.

6. The AAI Central Electrical Board issued a limited number of permits to Power Coy workmen in Southern Italy, which permits expire on the 30th Sept.44 This function will now be the responcability of the Electrical Department at HQ.ACC. this department being the only competant body which can readily identify the necessity of permits for persons engaged on the repair and rehabilitation of the Electrical power systems of Italy.

18 September 1944.

SUBJECT: Corradini Plant - Naples -

TO : Headquarters, Allied Control Commission
Public Works & Utilities Sub-Commission
(Att. Lt. Col. W.M. Lapper).

1. Recently Major Price of your office requested information relative to the operation of the Corradini plant at Naples.

2. The Signal Corps of the U. S. Army has relinquished control of the Corradini plant at Naples as of 1 September 1944.

3. I have been advised that the Corradini plant has a capacity for producing 5 tons of copper wire per day.

4. The release of certain controlled supplies including coal is necessary for the operation of this plant.

5. I recommend that the Allied Control Commission establishs some control over this plant in order that its services will be available to the public utilities at a reasonable price.

26 SET Rec'd

Alla Commissione Alleata di Controllo
Roma
Sotto Commissione Lavori Pubblici

Con autorizzazione C.E. 2 District ho iniziato la costruzione della mia officina , ma una gran quantita di materiale mi manca ed è assolutamente impossibile di trovare quanto mi necessita qui sul posto. Mi riservo di presentare una distinta esatta dei materiali necessari, facendo pero presente che per il momento il piu urgente è il cemento, cioè 50 Tonnellate subito e 200 Ton. subito dopo a scaglioni quindicinali per evitare che i lavori subiscano interruzioni.
Dovendo venire a Roma nei prossimi giorni, non mancherò di presentare tutti i documenti e la corrispondenza avuta con il 2° District, nonche la lista completa dei materiali occorrenti.
Distinti saluti.

Lasorsa Giuseppe

SUBJECT: Paraffin Wax.

TO : Commerce Sub-Commission, H.Q. ACC.

1. Reference your ACC/5083/Commerce dated 18 Sept 44. Para 2. It is not considered essential to include paraffin in this mixture.

2. Dealing with Para 3 your letter, paraffin is necessary for insulating transformer windings but it is suggested that 50% only be released and that the Company concerned be notified to demand only minimum requirements with a detailed justification.

3. Strade Ferrate Secondarie MEridionali - Naples.
Total required 175 Kgs. but this Company asks for 200 Kgs, suggest that 175 Kgs only be released.

E.J. BARRY,
Major, C.E.,

ESTABLISHMENT MEMORANDUM

NUMBER 20)

- ISSUE OF SUPPLIES TO ACC/AMG FROM ARMY DEPOTS -

1. In order that proper accounting may be maintained both by the Armed Forces and by ACC it is essential that all ACC/AMG officers requisitioning or drawing stores or supplies from British or American Army depots should state clearly whether such issues are for ACC/AMG's own use and consumption (e.g. rations, Q.M. Stores for messes, offices, etc.) or whether they are for reissue to Italian civilians either direct from the Army depot or Via an ACC/AMG warehouse.

2. This information will be embodied in the requisition for example, "Required for 2675th Regiment" (this would apply to rations or other issues from American Depots for ACC/AMG's own consumption); Required for ACC/AMG Civilian supplies Warehouse of X.; "Required for Refugee Camp of Y behalf of ACC/AMG "; "Required for ACC/AMG for civilian use".

3. All shipping tickets and issue vouchers will be receipted by the ACC/AMG officer drawing the supplies, who <u>will retain a copy of the shipping ticket or issue voucher</u>; in the case of supplies drawn for civilian use the ACC/AMG officer drawing them will submit his copy of the shipping ticket or issue voucher to the Regional Supply Accountant who will use it as a supporting document for his monthly stock movement reports.

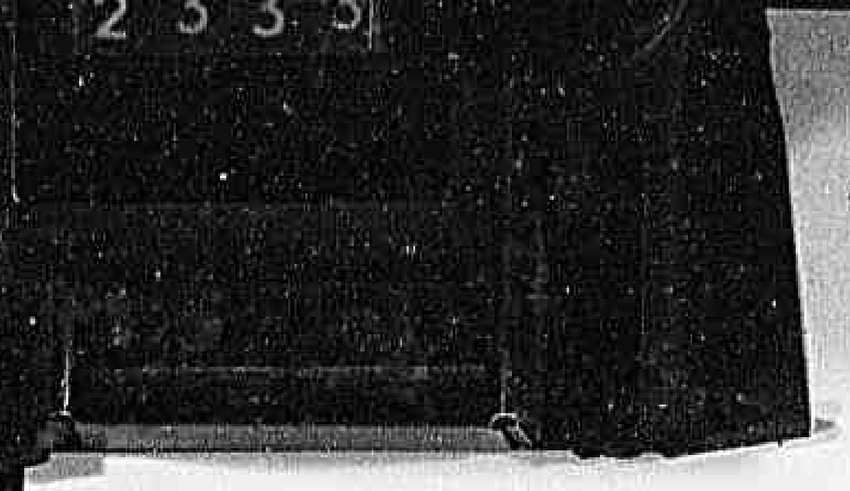

4. Issues to Italian Army formations are not a concern of ACC Regional Officers. These shipping tickets will be signed for by the Italians and not by an ACC/AMG officer. Such issues are a matter only for accounting at ACC Headquarters.
