MEMORANDUM FOR MAJOR DENTON

1) We enclose in this letter the table of the quantity of cement we have already collected for sundry plants, and the list of the quantities we need in order to finish the work on hand (Enclosures N°.1 & N°. 2).

2) Following arrangements with the Firms of Northern Italy for the rebuilding of machinery needed for the restoration of our plants we have to send to a/s firms the following materials:

To Milan:

At Brown Boveri the damaged coils so as to recover the copper , as well as several parts of Farfa 1st Head alternator to be repaired, for a complexive weight of about 10 Tons.

At C.G.E. the damaged coils for the recovery of the copper and several pieces of Tivoli Plant alternator to be repaired, for a complexive weight of about 20 Tons.

At Riva the turbine of Farfa 1st hedd which has to be repaired, for a complexive weight of about 10 Tons.

To Genoa:

At Ansaldo the damaged coils for the recovery of the copper and several pieces of Tivoli Plant alternator to be repaired, for a complexive weight of about 20 Tons.

3) As the generators of Guarcino plant (16 Tons weight) and of Vado Cusano(4,5 Tons weight) are already finished at S.Giorgio-Sestri, it would be convenient to seize the opportunity of the return journeys for their transportation.

We enclose the sketches of the place the machinery occupies (Enclosures N°. 3 and N°. 4), pointing out that the place may be considerably diminished by dismantling part of the same machinery. 3063

Moreover, at Riva in Acqui we have about 50 000 insulators in store, for a complexive weight of about 30 Tons, which might complete the return loads.

Reference : ~~219/PWU~~

9 May 1945

Subject : Controlled Materials - Cement

To : DIRECTOR COMMERCE SUB-COMMISSION, HQ AC

From : Public Works and Utilities Sub-Commission

1. Your attention is directed to the following work which it is proposed to commence ad soon as certain material is available.

2. The San Giacomo hydro-electric plant, situated inland on the River Vomano, was being constructed prior to the occupation of Italy since when, work has been suspended, but when completed will be one of the most important hydro-electric plants in Italy.

3. Most all the machinery is on site, the remainder has been located in the north and awaits shipment but certain constructional work has still to be carried out before the machinery can be assembled, in this connection a large quantity of cement is required.

4. It is estimated that the first phase of the scheme will be completed in about six months during this time the Terni Company will require approximately :

2,000 Tons of 680 quality cement
3,000 " " 500 " "
5,000 " " 300 " "

5. So far as this scheme is concerned, it would be advantageous and economical to draw cement requirements from Spoleto.

6. In addition to the foregoing the present electrical rehabilitation programme will require approximately 2,000 tons cement per month and the Public Works Division approximately 2,000 tons vement per month.

./.

3052

0184

Declassified E.O. 12356 Section 3.3/NND No. 785019

7. In view of the importance of having an adequate quantity of cement guaranteed monthly, it is strongly recommended that AFLR(I)B retain control of the production and release, until the present rate of production is considerably increased.

11 June 45

SUBJECT : Visit to Guarcino Generating Station, 9 June 1945.

TO : Distribution.

FROM : P. Wks. & U. Sub-Commission.

1. In company with Ing. Di Stefani, SME, and Ing. Pietromarchi, I visited Guarcino Generating Station on 9 June 1945. This plant is located at Guarcino, about 10 kilometers east of Fiuggi, and 60 kilometers east of Rome. It is on the Cosa River. It was under construction during the war.

2. Characteristics of the plant follow:

Capacity: 1,600 HP for five months.
800 HP minimum.
1,750 KVA
Head , 188 meters.

3. Plans call for the plant to be used also as a 20 KV substation, and to be connected with the Subiaco station at 20 KV. With the exception of minor damages to the top of the penstock, the plant has been unaffected by the war. The Romana Company states that the plant can be operating in 3 months, provided that they receive 50 tons of cement, and that the generator, weighing about 15 tons be transported from Genoa, where it was manufactured.

4. In consideration of the low capacity of the plant, it is recommended that transportation and materials, both scarce items, not be made available for the project at this time.

RECEIVED
P.W. & U. S/C A.C.
-5 JUN 1945 306

AL COMANDO ALLEATO
Divisione Elettricità

ROMA

Alla cortese attenzione del Magg. Price -

Le confermiamo quanto ci siamo affrettati a comunicarle oggi per telefono, come da Suo invito.-

La Società S.A.M.E. ci ha telefonicamente oggi reso noto che nelle sue Fornaci di Montorio ha disponibili per immediata consegna:

n. 4.000 tegole marsigliesi (1 vagone)
n. 6.000 tavelline da 50 (1 vagone)

nonchè 4 vagoni di mattoni pieni e che assicura di potere consegnare ogni settimana 1 vagone di tegole e 1 vagone di tavelline da 50 fino a raggiungere al più presto la produzione mensile di n.30.000 tavelle da 50 e n. 50.000 marsigliesi, nonchè mattoni pieni e forati.-

La S.A.M.E. s'impegna di consegnare f/co su vagone Stazione Chiusi i laterizi di cui sopra al prezzo fissato dalla Prefettura di Siena e cioè:

L. 15,00 a tegola marsigliese
L. 15,00 a tavellina da 50.

e sarebbe desiderabile, ora che le comunicazioni telefoniche con Chiusi sono riattivate, che le ditte cui dovranno essere forniti i laterizi per ordine di codesta On/le Divisione, prendessero accordi diretti con la S.A.M.E. di Chiusi sia per i termini di fornitura che per le indicazioni relative al carico dei laterizi ed alla spedizione dei vagoni.-

La Fornace di Montallese, potrà iniziare le sue consegne regolari di tavelloni, di tegole, di mattoni pieni e forati per fine corr.mese.

Mentre segnaliamo che nessuno ordine è stato presentato finora alle fornaci di Chiusi sia dalla Società Romana di Elettricità per le 6.000 tegole sia dall'Impresa Nova per le 25.000 tavelline da 50,

./.

Declassified E.O. 12356 Section 3.3/NND No. 785019

attiriamo l'attenzione di codesta On/le Divisione sul fatto che la Prefettura di Siena ha bloccato da tempo tutta la produzione dei laterizi della S.A.M.E. vietandone la vendita.-

Si rende pertanto necessario, per dare corso alle ordinazioni suddette, che codesta On/le Divisione provveda a far revocare il provvedimento di blocco dei laterizi.-

Con osservanza.

ADMINISTRATIVE MEMORANDUM)
:
NUMBER 32) 30 May 1945

Electric Power Rehabilitation I
Local Resources in Italy - Mainland & Islands II
Establishment of Local Sub-Committees of Labor and Wages Control Committee III

I - ELECTRIC POWER REHABILITATION

AFHQ Administrative Memorandum Number 58, 1944, and Section I, Administrative Memorandum Number 7, 1945, are rescinded.

1) - The Electrical Reconstruction Committee created by above Administrative Memorandum is dissolved.

2) - The functions of electric power rehabilitation are transferred to the Allied Commission.

3) - Military agencies engaged in electric power rehabilitation activities will coordinate their plans with the Allied Commission.

II - LOCAL RESOURCES IN ITALY - MAINLAND & ISLANDS

AFHQ Administrative Memorandum Number 52, 1944, is amended as follows :

1) - Section I, Paragraph 2, Restricted Items is amended by the addition of the following after Item I :
"7. Poplar Wood"

2) - Section I, Paragraph 1(f), Industrial Gases and Chemicals, delete Serial 29 and substitute :
"29. Gas Bottles and Containers - other than those specifically designed for the storage of Methane Gas".

III - ESTABLISHMENT OF LOCAL SUB-COMMITTEE OF LABOR & WAGES CONTROL COM.

AFHQ Administrative Memorandum Number 25, 1945, is amended as follows :

1) - In Paragraph 6b, line 3, before "Allied" insert "Comined" and after "Scale" insert "and bonuses".

2) - Paragraph 2b of Appendix "A" is amended by the addition of the words : "(including an appropriate allowance for paid annual and other holidays)".

3) - Paragraph 3 of Appendix "A" is amended by the insertion of the words "sickness insurance" after the words "social insurance".

Subject : Material for Central and South Italy
To : Public Works & Utilities S/C
Electrical Division
Attention: Lt. Col. W.M. Lapper
Date : 1 Giugno/945

Soc. Gen. Elettrica della Sicilia

Herewith copies in English and Italian from Ing. Gonzales, shewing the position of the remodelling of the Porto Empedocle Power-Station.

We would appreciate our assistance in forwarding this information to the subject Company in Sicily.

Lardarello Company

Franco Tosi representatives state they have one 3,000 kW steam ready for delivery to Lardarello.

Also four 26,000 kW steam turbines with the majority of castings ready, but awaiting machining.

Terni Company

Franco Tosi state they also have a certain amount o of equipment ready for S. Giacomo and Providenza, but are short of certain raw materials.

They were very much surprised to learn that equipment at S. Giacomo had not been destroyed or taken away by the Germans and pleased to know that this project would be continued as early as possible.

They are preparing a list of essential materials required for completion of equipment now on order.

./.

Declassified E.O. 12356 Section 3.3/NND No. 785019

Their representative plans to visit central Italy as soon as transportation arrangements are completed.

Romana Company

Arrangements are being made for the Romana Company to move approximately 50 Tons of electrical equipment and material from Milan to Rome.

Engr. Rovelli and his Engr. Franco Guli are in Milan now.

Engr. Franco Guli will remain here to handle the tranfer of material to Rome.

Selt. Valdarno Company

Arrangements are being made for the Selt-Valdarno Co. to move approximately 15 Tons. of electrical equipment and material from Milan to Florence.

OGGETTO: Subject: Stores urgently needed by Electric Power Co. for Region of Puglia

A list of mateials urgently needed by this company is given here below - The quantity required, as specified, are the very minimum necessary for keeping the service for about six months.

Your attention is kindly recalled on this point, with the view in mind that it would be possible on your part to facilitate this company in the purchase of such materials from suppliers in Northern Italy -

This purchase should be made as soon as possible because

(a) the company is in bad need of the materials in order to be able to keep continuity of service in the provinces of Foggia, Bari, Taranto, Lecce and Brindisi -

(b) if longer time will elapse before looking for this material in Northern Italy, there are chances that nothing will be found with the suppliers there and the stores should be obtained from other sources requiring a much longer time to wait.

Item No.	Materials	Quantity	Approx cost Italian Lire
1	Insulating Filling Compound for H.V.Cables Make: PIRELLI - Type No.915 or equivalent	5 Qli. 1000 lbs.	
2	Insulating Varnish - Clear - Baking Type: Sterling - for transformer coils	100 Kg. 200 lbs	
3	Insulating Varnish - Black - Air - drying for Air insulated transformer coils	50 Kg. 100 lbs

ESTABLISHMENT SECTION

ESTABLISHMENT MEMORANDUM)
NUMBER 10)

28 May 1945.

ESTABLISHMENT OF TRUCK OPERATING GROUP & MAINTENANCE GROUP, ALLIED COMMISSION

1. These organizations were approved by AFHQ, pursuant to letter AG 537/ 177 GDS-O, dated 13 May 1945.

2. The Motor Transport Group established by Establishment Memorandum Number 2, Headquarters Allied Commission, 3 March 1945, is hereby disbanded and the personnel will be used to form the Truck Operating Group and the Maintenance Group.

3. In paragraph 2 (a) Establishment Memorandum Number 2, dated 3 March 1945, DELETE: "Its Commanding Officer will report to the Chief Commissioner of the Allied Commission in a status comparable to that of a Regional Commissioner, Allied Commission/Allied Military Government", and SUBSTITUTE THEREFOR: "The Commanding Officer Truck Operating Group and the Commanding Officer of the Maintenance Group, will report to the Vice President of the Economic Section, Allied Commission".

4. Functions and responsibilities of the Truck Operating Group are the same as those published for the Motor Transport Group in Establishment Memorandum Number 2, of 3 March 1945. DELETE: "Motor Transport Group" wherever it appears in Establishment Memorandum Number 2, of 3 March 1945, and SUBSTITUTE THEREFOR: "Truck Operating Group".

5. Functions and responsibilities of the Maintenance Group are to establish spare parts depots and sub-depots and maintenance base shops and higher echelons of maintenance shops, for truck operating group vehicles and other vehicles under control of Allied Commission/Allied Military Government and all allied relief agencies and missions. Shops will be operated through contract with competent civilian management in static installations. The channels for supply and administration will be the same as those of the Truck Operating Group.

6. Paragraph 3, Establishment Memorandum Number 2, of 3 March 1945, is rescinded in its entirety.

7. Colonel JAMES J. CARNES, 015340, Infantry, USA, is hereby assigned as Commanding Officer of the Truck Operating Group and Maintenance Group.

BY COMMAND OF REAR ADMIRAL STONE:

C. M. PARKIN,

CCM Airgram 26 21 May 1945, Washington, D. C.

From: CCAC

To: AC, repeated FHGEC

Subject: Status of Category "B" Program and Amendments to CLAC I Requisitions

Under separate airgram CLAC(S) papers referring to Category "B" program are being forwarded to you.

Attached are amendments to requisitions which have been made by Italian Technical Mission to U. S. under terms of reference of MCC 103.

Requisitions are being submitted to CLAC(S) for consideration (see Italian Series 300/1) and to supply authorities for determination of source of supply according to procedures outlined in CLAC(S) 18 paper, on a priority basis agreed upon by Italian Mission and AC representatives here.

Also enclosed are 2 copies of first 17 YT requisitions and amendments to same (CLAC(S) 18/2 refers) which give you status and full specifications on procurement ex U.S. as of May 18, 1945. Expected deliveries against such YT requisitions are reported to you with individual cables so that shipping space be made available. (CCM 73 and 81 are examples.)

2 copies of YT requisitions are also furnished by FEA to Italian Embassy in Washington and 1 copy is given to the Italian Technical Mission in U.S.

Attachments:
2 copies each YT requisitions 1 to 17 (U.S. procurement)
15 copies CLAC I-236 Amendment No. 1
I-235 do.

T. E. H. BIRLEY

CLAC I-235
(MOC Airgram 40)
Amendment No. 1

May 15, 1945

PROGRAM OF ESSENTIAL ITALIAN IMPORTS

IRON AND STEEL PRODUCTS

In accordance with its terms of reference defined in MOC 103, the Italian Technical Mission to the U.S. has amended and corrected requisition CLAC I-235, Iron and Steel Products, MOC Airgram 40, as follows:

Item No.

2. Delete Tons 116,200
Read 70,000 tons instead of 59,250 tons

A. Read Height instead of High h.
Read W Cm^3 instead of W (cmq)

G. Read the quantities as follows:

Dimensions	Type (Standard)	Quantity
28" x 20"	1 C	250 tons
	1 CL 125	3,000 tons
	1 CL 140	750 tons
	1 X	2,000 tons
	Total	6,000 tons

H. 1. Read width in mm. instead of inches.
First item read 80 mm. x 4-2 mm.

2. Add (Quality R = 50 - 60 Kg/mmq)
Read mm. instead of inches.

3. Delete and read instead:

Type Angles (R = 50 - 60 Kg/mmq)

Type N.P.

Dimensions	Quantity
70 mm. x 9 mm.	150 tons
80 mm. x 10 mm.	150 tons
90 mm. x 11 mm.	150 tons
100 mm. x 12 mm.	150 tons
110 mm. x 12 mm.	150 tons
Total	750 tons

3012

Declassified E.O. 12356 Section 3.3/NND No. 785019

Item No.

2. Delete Tons 116,200
Read 70,000 tons instead of 59,250 tons

A. Read Height instead of High h.
Read V Cm^3 instead of V (cmq)

G. Read the quantities as follows:

Dimensions	Type (Standard)	Quantity
28" x 20"	1 C	250 tons
	1 CL 125	3,000 tons
	1 CL 140	750 tons
	1 X	2,000 tons
	Total	6,000 tons

H. 1. Read width in mm. instead of inches.
First item read 80 mm. x 4=2 mm.

2. Add (Quality R = 50 - 60 Kg/mmq)
Read mm. instead of inches.

3. Delete and read instead:

Type Angles (R = 50 - 60 Kg/mmq)

Type N.P.

Dimensions	Quantity
70 mm. x 9 mm.	150 tons
80 mm. x 10 mm.	150 tons
90 mm. x 11 mm.	150 tons
100 mm. x 12 mm.	150 tons
110 mm. x 12 mm.	150 tons
Total	750 tons

3012

4. Add: Galv-Pipe (Steel) - Threaded with Couplings for Gas and Water

Dimensions dia.	Quantity
1/4 in.	50 tons
1/2 in.	200 tons
3/4 in.	200 tons
1 in.	150 tons
1 1/4 in.	100 tons
1 1/2 in.	100 tons
2 in.	100 tons
2 1/2 in.	50 tons
3 in.	100 tons
3 1/2 in.	50 tons
4 in.	50 tons
Total	1,150 tons

Declassified E.O. 12356 Section 3.3/NND No. 785019

Item No.

H. 5. Add: Bar Steel - (for Chain mfg. - Special quality)

Diameter		Quantity
1-3/16"		1,000 tons
1 "		900 tons
7/8"		800 tons
	Total	2,700 tons

Justification

The original requisition was for 116,200 tons of steel products. Specifications were given for only 59,250 tons. The present amended requisition gives specifications for a total of 70,000 tons of steel products.

Dear Sir,

This is to acknowledge receipt of Release Order AC. 2943 of the 4th inst., covering 1 cylinder of Acetylene, instead of 5, which represent our normal requirements for a period of one month.

As pointed out in our previous communications to Major Price, the material in question is necessary for the lighting of our Torrenova Receiving Station, adjacent to Ciampino airport. It mainly concerns therefore the security of the aircrafts of the Allied Forces flying over the airport during the night, and we trust that you will kindly issue orders for the release of the additional 4 cylinders, as well as for further allocations.

Yours very truly,

R O M A

Tavelloni.

Ci riferiamo alla ns/ lettera del 18 corr.ed alle conversazioni telefoniche riguardanti l'ordine di codesta Divisione 306 P.W.B. del 16 corr. per la fornitura da parte della S.A.M.E. di Chiusi alla Societa Impresa Crova - Roma - di tavelloni e, al riguardo, a seguito della visita del ns/ Presidente a Chiusi, ci pregiamo comunicare quanto segue:

a) i 2.000 tavelloni da mt.1,20 giacenti alla Stazione di Chiusi non sono della S.A.M.E.ma delle fornaci di Sinalunga che le spediscono a Roma;
b) nessun ufficiale alleato ha conferito a Chiusi con i Dirigenti della S.A.M.E. circa i detti materiali.

Circa la possibilità della S.A.M.E. di effettuare forniture di laterizi comunichiamo che, attualmente, solo le fornaci di Montorio hanno la corrente elettrica (30 Kw.) e che le fornaci di Montaliese, Gonzarelli ~~e Ornanciano~~ sono senza energia elettrica malgrado le insistenti richieste della S.A.M.E. desiderosa di riattivarle per approntare i laterizi di cui c'e grandissimo bisogno.

Le fornaci anzidette possono attualmente produrre:

Tavelle da cm.50 x 25 x 3
Tavelle " " 60 x 25 x 3
Tavelloni da cm. 80 x 25 x 6
" " " 90 x 25 x 6
" " " 100 x 25 x 6
Marsigliesi
Mattoni pieni
Mattoni forati

La Fornace di Montorio, l'unica finora che abbia energia elettrica, può fornire mensilmente nº30.000 tavelle da 50, nº50.000 marsigliesi e mattoni pieni e forati.

Se anche le Fornaci di Montaliese e Gonzarelli avessero la

2995

././.

Declassified E.O. 12356 Section 3.3/NND No. 785019

SOCIETA ANONIMA MATERIALI EDILIZI

- C H I U S I -

corrente elettrica richiesta (Kw.50), potrebbero produrre mensilmente:

n.60.000 marsigliesi
mq. 2.400 tavelloni
n. 20.000 tavelle da 50
oltre ad aliquote di mattoni pieni e forati.

La S.A.M.E.può produrre notevoli quantitativi di tavelloni e marsigliesi nelle sue tre fornaci ma ha bisogno che le vengano forniti o assegnati i sottoindicati materiali per la costruzione della scorta di telaini necessari per i laterizi verdi:

mc. 100 di tavole di abete da mm.25
mc. 50 " " " " " " 15
qi. 20 di Punte Italia da mm. 35
" 10 " " " " " 50
" 10 " " " " " 70.

Data la favorevole ubicazione delle fornaci abbastanza vicine a scali ferroviari, in considerazione del notevole quantitativo dei laterizi che potrebbero essere mensilmente consegnati, confidiamo che vorra esserci concessa al più presto l'energia elettrica richiesta per mettere in piena efficienza le ns/ fornaci e soddisfare così i bisogni di carattere militare e quelli della popolazione.

Con osservanza.

MEETING HELD AT 10.00 HRS 11 MAY 45 IN THE COMITEE ROOM OF THE MINISTRY OF INDUSTRY COMMERCE AND LABOUR.

The Chairman opened the meeting by greeting the representatives of the Allied Commission and then asked the meeting for views on determining prices of products and material., many representatives spoke but the popular recommendation seemed to be that a new law should be made to fix prices and that prices should be published in weekly bulletin.

The question of war damages arose, the Chairman stated that each province must keep accurate data regarding war damage and forward claims to the appropriate Ministry i.e. Industry, Mining, Agriculture, Public Works, etc.

This question caused much discussion and confusion since provincial representative advocated that the Camera di Commercio should be given the functions held previous to fascism and that the Ufficio Provinciale del Lavoro be a statistical organisation.

The Chairman recommended that the Provinces send in their recommendations in writing.

By this time the members had entered into a political argument and the meeting became out of control the Chairman eventually restored order by declaring the meeting posposed at 12.40 hrs to reassemble at 18.00 hrs when it was expected that the Minister Gronchi would attend to address the meeting.

At 18.00 hrs the Minister Gronchi had not put in an appearance so the Chairman addressed the meeting on behalf of Minister Gronchi.

To Major PRICE.

Our three-brick-kilns located at Montorio and Gonzarelli near Chiusi and at Chianciano can produce per year about 15.000.000 bricks but the machines need 80 Kw. of electric energie, while now have only 50 Kw.

For the transportation of brown - coal necessary for the brick-kilns - need to have the assignment of tyres and gasoil.

If Allied Command will concede, as soon as possible, what is above mentionèd, the brick-kilns may consigne, at the end of May, a notable quantity of bricks.

Alla PUBLIC WORKS SECTION
ELECTRICITY DIVISION
R O M A

Noi siamo in condizioni di poter produrre circa 15.000.000 di laterizi dai ns/ Stabilimenti di Montorio, Gonzarelli in Stazione di Chiusi e Chianciano.

In confronto ai Kw.50 di energia elettrica concessa ci abbiamo però necessità di 80 Kw.

Occorre inoltre che ci siano assegnati, previo pagamento pneumatici e carburanti per gli autocarri, per il trasporto della lignite occorrente per la accensione dei forni.

Se quanto sopra ci verrà concesso rapidamente contiamo a fine maggio di poter iniziare consegne ragguardevoli.

Restiamo in attesa di cortesi notizie in proposito.

Assegnazione cemento - Ditte Panico Leonardo e Martignano Pasquale della Prov. di Lecce.

1) L'Ufficio Prov. del Commercio e dell'Industria di Lecce ha segnalato a questo Ministero con la corrispondenza che si allega in copia (lettere nn.2925 del 18/4/1945 e 3346 del 3/5/1945) che alle ditte:
Panico Leonardo di Galatina
Martignano Pasquale di Parabita
sono stati assegnati notevoli quantitativi di cemento da parte della Elettrical Division della S/C Public Works and Utilities.

2) Questo Ministero richiama l'attenzione di codesta Sottocommissione su tali assegnazioni, sorpreso per il fatto che le ditte suindicate si occupano di vini, non già di impianti elettrici.

3) Dell'azione che codesta Sottocommissione potrà reputare opportuna, si gradirà notizie, appena possibile.

4) Questo Ministero, ove le assegnazioni di cui sopra dovessero risultare erroneamente disposte, sarebbe di avviso di lasciare il cemento presentemente bloccato presso le ditte

SUBJECT: Spherical Diaphragms for Naples Gas Co.
MGS-258-ENGR

TO : Headquarters, Allied Commission, APO 394
(Attn: Public Works & Utilities Sub-Commission)

1. The requirement for spherical diaphragms requisitioned in LAC Airgram 110 of 13 March as MGS-258-ENG has been approved by CCAC. Supply responsibility has been allocated to United Kingdom.

2. Attached is a letter received from the Ministry of Supply through the War Office, who have requested that this letter be considered when placing our demand on UK.

3. Your reply should include:

a. Whether brass taps are needed on the air tubes.

b. Whether the smaller bags should also be canvas covered.

c. Possibility of reduction in the quantity required.

d. Acceptability of the standard continental size spherical diaphragms manufactured by Thomas Burden & Co, which are almost immediately available for shipment.

4. Attention is also drawn to our letter E-2 of 13 March 1945 on the same subject, addressed to Commerce Sub-Commission, AC. The six diaphragms manufactured by No 10 Sub Workshop SAEC (Globus plant)are said to have been completed and presumably have been delivered to the Naples Gas Company.

5. Please state the result of this test and indicate how the possibility of local manufacture effects the total requirement.

For the Assistant Chief of Staff, G-5:

D. E. LATHROPE,
Captain, C.A.C.,

Supply of Rubber Bags for Gas Main Repairs

Referring to your memorandum dated 7th April enclosing one copy of C.A. Serial No. ITALY 74, I have waited to obtain a sight of the drawing to which reference is made in para 7 of Airgram 110 before replying. Apparently this drawing has not been sent to E.5 (as stated) which caused a slight delay.

At your request I make the following observations on the items requisitioned:

Suitability. In general the items conform to common British practice subject to the following qualifications:

All items: Minor details of construction differ. This is discussed under availability below.

All items: It is usual to supply brass taps on the end of the air tubes, but possibly these are already available locally as they are not shown on the drawing. Suggest confirm.

Items 1B, through F: It is usual to have these canvas covered as in the case of the larger bags. The cover considerably increases the life of the bags but decreases the flexibility which may be required if the bags are to be used in non-standard sized mains; it also necessitates a rather larger insertion hole in the main. Suggest confirm.

Quantities: With average care bags can be used many times and are more in the nature of plant than consumable stores. The estimated monthly consumption figures quoted in col. 11 appear to me unreasonably high for a town the size of Naples even allowing for war damage and possible requirements of other cities. (This is based on experience during heavy air raids damage in London).

(This is based on experience during heavy air raids damage in London).

2974

It is, however, agreed that it is essential to have a minimum working stock of all sizes, and if stocks are now seriously depleted replacement will certainly be urgently required.

It is suggested that the following quantities would meet the minimum working stock requirements and that these should be supplied at once, leaving the matter of subsequent monthly consumption to be reconsidered, Quantities have been related to the lengths of each size of main in Continental cities, subject to a minimum of 6 bags for any one size.

CONFIDENTIAL

Declassified E.O. 12356 Section 3.3/NND No. 785019

Item	1	A	12	Item 2A	12
"	1	B	24	" 2B	12
"	1	C	36	Items 2 C through H - 6 of each	
"	1	D	12		
"	1	E	24	Total	60
"	1	F	18		
Total			126		

Total required at once 186, instead of 100.

The subsequent monthly consumption should be much less than that estimated and total requirements for the next twelve months should be of the order of 250 (including the 186 above), instead of 570.

Availability: One maker can supply the whole of the 186 recommended above in their standard production of Continental sizes within three weeks from receipt of order without interference with existing Army and Civilian orders.

This firm, Messrs. Thomas Bugden & Co., 244 Coswell Road, E.C.1. supply the Army and most gas companies in England. Before the war they supplied many Continental companies including Milan (the largest in Italy).

Their standard production of Continental sizes is for mains of the diameters shown in col. 4. Construction differs slightly from cols. 5, 6 and 7 of the specification, but in my opinion this is unimportant and I should rely on the long experience possessed by this firm to produce a satisfactory bag. In nearly all cases the diameter of the air tube differs from that shown in col. 9; this might make for a little difficulty in connecting to whatever size pump connections are standard in Naples, but can easily be overcome locally.

This firm can produce exactly to specifications if necessary, but delivery would be much delayed.

If it had only been possible to substitute standard bags for British mains, i.e. inch sizes, it would have been advisable to send samples as requested in para 4., but I do not consider that this is necessary in the present circumstances where the diameter, which is the only really vital dimension, is to Continental standard.

Summary: Bags are plant rather than consumable stores.

Suggested that 186 bags, in quantities of each size proportioned to lengths of mains (as detailed above) be sent at once instead of 100.

Declassified E.O. 12356 Section 3.3/NND No. 785019

Subject: Request for materials

To : Electrical Section

Public Works and Utilities Sub-commission

Allied Commission

1. With ample supply of electricity from the North there is no problem of generation in Emilia. However, the transmission lines from BOLOGNA south to FLORENCE and to RIMINI-ANCONA are badly damaged. To rehabilitate electrical facilities in the area south of BOLOGNA, including FLORENCE, FORLI', RAVENNA, and PESARO, it will be necessary to rebuild at least two lines south of BOLOGNA. The lines suggested for repairs are PWGU number 303 (120 KV) BOLOGNA-FORLI' and no1077 BOLOGNA-S.MARIA-VAIANO-PRATO-RIFREDI(60 KV.). Both lines mentioned are owned by Società Bolognese Elettricità, a subsidiary company at the Società Adriatica di Elettricità. This company has already prepared plans for rebuilding these lines. However, with the serious shortage of transport and materials, it will be required that certains materials be made available to them.

2. Attached as a list of material needed for the most urgent of this work. It is suggested that they be furnished, these materials, at least 25% now, with the remainder at monthly intervals of 25%.

3. One of the most urgently needed items of equipment for utility companies in this area, is a workshop truck with acetylene and electric welding equipment, such as a truck, shop, motorized used by the U.S. Army. It is strongly recommended that the electrical companies be allowed to purchase such trucks from the Army. Such equipment would be of greater use for repairing demolished steel towers than any other single item of equipment. It would be appreciated if this matter were brought before the proper authorities.

E.H. ROGERS

Public Works and Utilities Sub-commission

Allied Commission

1. With ample supply of electricity from the North there is no problem of generation in Emilia. However, the transmission lines from BOLOGNA south to FLORENCE and to RIMINI-ANCONA are badly damaged. To rehabilitate electrical facilities in the area south of BOLOGNA, including FLORENCE, FORLI', RAVENNA, and PESARO, it will be necessary to rebuild at least two lines south of BOLOGNA. The lines suggested for repairs are PWEU number 303 (120 KV) BOLOGNA-FORLI' and no1077 BOLOGNA-S.MARIA-VAIANO-PRATO-RIFREDI(60 KV.).
Both lines mentioned are owned by Societa Bolognese Elettricita, a subsidiary company at the Societa Adriatica di Elettricita. This company has already prepared plans for rebuilding these lines. However, with the serious shortage of transport and materials, it will be required that certains materials be made available to them.

2. Attached is a list of material needed for the most urgent of this work. It is suggested that they be furnished, these materials, at least 5% now, with the remainder at monthly intervals of 5%.

3. One of the most urgently needed items of equipment for utility companies in this area, is a workshop truck with acetylene and electric welding equipment, such as a truck, shop, motorized used by the U.S. Army. It is strongly recommended that the electrical companies be allowed to purchase such trucks from the Army. Such equipment would be of greater use for repairing demolished steel towers than any other single item of equipment. It would be appreciated if this matter were brought before the proper authorities.

E.H. ROGERS
Capt. C.E.
Electrical Officer

HAEDQUARTER ALLIED COMMISSION
A P O 394
PUBLIC WORKS AND UTILITIES
SUBCOMMISSION ELECTRICAL DIVISION

R O M A
Via Veneto - Palazzo Corporazioni

Naples, May the 3rd 1945

In order to guarantee the continuity of our railway service, having exhausted our provisions, we need:

N.250 brushes of special electrographitic quality, made by the Morgan Firm of London, in measures of m/m 55 x 30 x 25 with the corners cut off, two pliable and one terminal, fit for our machinery of electric sub-stations of conversion continuous energy -

We make you knouwn what preceeds because of the urgency we have of providing ourselves with the foresaid brushes and by indication of Doct. Ettore Velonà, former agent in Naples of the Morgan Firm of London.

We beg you to Kindly take an interest in the matter and we thank you.

THE MANAGER

HAEDQUARTER ALLIED COMMISSION
A P O 394
PUBLIC WORKS AND UTILITIES
SUBCOMMISSION ELECTRICAL DIVISION

R O M A
Via Veneto- Palazzo Corporazioni-

'Per garantire la continuità del nostro esercizio ferroviario avendo esaurite le scorte, ci occorrono: n.250 spazzole in speciale qualità elettrografica di costruzione della casa Morgan di Londra nelle misure di m/m 55 x 30 x 25 spigoli smussati, due flessibili e un terminale adatto per i nostri macchinari delle sottostazioni elettriche di conversione a corrente continua.

Tanto Vi facciamo noto per l'urgenza che abbiamo di procurarci dette spazzole e su indicazione del dott. Ettore Velonà già Rappresentante a Napoli della Ditta Morgan di Londra.

Vi preghiamo volervi interessare della cosa e Vi ringraziamo -

Subject : Cement- Modugno

To : DIRECTOR OF ENGINEER PRODUCTION AND STORES AFHQ (Main)

1. As the result of an application to Commerce Sub Commission this HQ. for 50 Tons Cement, we were allotted from Cementeria Pugliese Modugno this amount under release Order No. 2252 dated 17 Jan 1945.

2. At the end of January the firm of Giuseppe Lasorsa-Bari called at Modugno offices and paid in full but when transportation was finally arranged, Modugno refused to release the cement on the grounds that their works was then controlled by D.E.P. & S.

3. The management of Modugno now state that your authority is necessary before release can be effected.

4. Will you please grant this authority so that this matter long outstanding, can be disposed of.

REMARKS;

Declassified E.O. 12356 Section 3.3/NND No. 785019

Justification :- This granting is required monthly and it will be appreciated if a standing release can be arranged. The gas is used to light up the antennas of the Torrenova Radio Station which is adjoining Ciampino airport, and the lighting is necessary for the security of military aircraft. This is a commitment of PWB left to us.

ELBA ELECTRICAL CO.

Florence, April 17th 1945

TO: Adv. Sect. El. Div.
P.W. & U. S/c, A.C.

The undersigned supplies with electric power the Elba island. The power is generated in a Diesel plant and supplied through 30 KV - 9 KV and 260 V. overhead transmission lines.

Only one lorrie 400 Kg carrying capacity is available, but the above can not circulate now as the tyres are no longer in operating condition.

As we need the above car for the damages repair we ask you to let us supply with 5 tyres and tubes sizes 6 x 16.

We thank you.

OGGETTO:

La sottoscritta Società effettua la distribuzione dell'energia elettrica all'Isola d'Elba, generando l'energia con una propria centrale con motori Diesel-elettrici, e traspontandola con linee a 30000 V., 9000 V., e 260 V.

L'unico automezzo di cui disponiamo è un camion di 4 ql. di portata: adesso questo camion non può più circolare perchè non sono più usabili i pneumatici.

Siccome è indispensabile disporre di questo camion per effettuare sollecitamente la riparazione dei guasti, Vi preghiamo di farci avere in assegnazione n° 5 copertoni 6 x 16 con relative camere d'aria.

Ringraziando saluta distintamente.

ITALCABLE

SERVIZI CABLOGRAFICI RADIOTELEGRAFICI E RADIOELETTRICI

SOCIETÀ PER AZIONI - CAPITALE L. 175.000.000

SEDE IN ROMA

REP. REPARTO ECONOMATO ACQ 1/1

Rome, April 17th 1945

Subject: REQUEST FOR ACETYLENE

Martinoli

3030

To: Major L. J. Price, R.E.
Public Works & Utilities
Electrical Division
ROME.

By the terms of our agreement with the Psychological Warfare Branch, this Company has undertaken all the communication services hitherto operated by the P.W.B. itself from Rome.

We beg to ask you, therefore, that the monthly allowance of 5 gas bottle of acetylene, previously made by the PBS to the P.W.B. for the lighting of the antennas of the Torrenova Transmitting Station, be now reserved to this Company, which will provide for the necessary containers.

Your kind attention is drawn to the fact that our Torrenova Station being close by Ciampino Airport, it is of the utmost importance for the safety of the military aircrafts that the antennas of the Station be enlightened during the night.

For information's sake, we would add that the acetylene in question was withdrawn by the P.W.B. from Società Produzione Acetilene, 2 via Portonaccio, Rome.

Thanking you in anticipation.

Yours very truly,
ITALCABLE
SERVIZI CABLOGRAFICI RADIOTELEGRAFICI E RADIOELETTRICI
IL COMMISSARIO
DIRETTORE GENERALE

2963

P.S.- A telegram from Torrenova just on hand, apprises us that the supply of acetylene available at the Station, is nearly to be exhausted, it being ~~only~~ sufficient for the illumination of the antennas only until the night from Friday to Saturday next.

Ordinazione tubi ghisa per Esercizio di Fano.

Questa Società, per impegni assunti con le Autorità Comunali di Fano, deve ripristinare entro il 31 Maggio p.v. tanto l'Officina di produzione del gas che la rete di distribuzione dell'Esercizio stesso.

Per poter riparare i danni subiti dai detti impianti ci occorrono i seguenti materiali:

- tubi normali di ghisa fusi verticalmente per pressione a 10 atmosfere, a bicchiere e cordone, catramati internamente ed esternamente a caldo

Ø	40	ml.	50

"	150	"	60
"	200	"	1600

che con riferimento alle intese telefoniche vi preghiamo di voler tenere a nostra disposizione nei Vostri Stabilimenti di Terni, salvo il venduto e dopo l'approvazione delle Autorità Alleate. Il ritiro sarà effettuato con tutta probabilità a mezzo camion A.M.G.

Circa il prezzo resta fissato in L. 15.= a kg. per il tubo da 100 più gli extra normali per i calibri inferiori.

Dopo ricevuto lo svincolo da parte della A.C. dei suddetti materiali, potrete senz'altro emettere fattura direttamente al nostro Esercizio che provvederà a liquidarla.

In attesa di conferma, distintamente salutiamo

SOCIETÀ ITALIANA PER IL GAS
ESERCIZIO ROMANA GAS
Il Direttore Generale

TRANSLATION

By : C.Tatti

ESERCIZIO ROMANA GAS - ROME

29 March 45

Reference : 7nd/1y/399

To : "Metaltubi" via Vittorio Veneto 96,

Subject : Cast iron tubes for Fano Works

This Company, pursuant to engagements taken with Fano Commune, must rehabilitate within 31 May both both the Gas Works and the distribution network at Fano.

Following materials are needed for repairing the damage of the said plants :

- Standardized cast iron tubes, vertical casted, 10 atm. pressure, spigot and socket joints, internally and externally coated with hot tar.

ø	40 mm	50 metres
"	50	100 "
"	60	50 "
"	70	250 "
"	80	100 "
"	100	100 "
"	140	150 "
~~"~~	~~150~~	~~60~~ ~~"~~
"	200	1600 "

With reference to our telephone agreements, we beg you to keep available for us said material in your Terni Works, excepting the quantities sold, and after the approval of Allied Authorities. Collection will be probably made by A.M.G. truck

The price is fixed at 15 Lire/kg per 300 tube, plus the normal extras for smaller diameters.

After release by A.C. of the said material, you can invoice it directly to our Management, which will see to the payment. Please acknowledge.

Esercizio Romana Gas

RECEIVED
P.W. & U. S/C A.C.
9 APR 1945 078

Al Colonnello JENNY
Capo della Sottocommissione Alleata
per i Lavori Pubblici
R O M A

L'Ufficio Speciale per la Viabilità Statale del Genio Civile di Cosenza non può servirsi della propria autovettura in quanto priva delle relative gomme.-

Data la vastità e l'importanza della rete stradale di quella provincia e la necessità per il detto ufficio di aver a disposizione un mezzo di locomozione, La prego volersi interessare, qualora nulla osti, per la concessione dell'autorizzazione di montare all'autovettura stessa gomme alleate.-

In attesa di un Suo gradito riscontro, La ringrazio e La saluto cordialmente

MINISTRY OF PUBLIC WORKS
The Undersecretary of State

7 April 45

TO : Colonel Jenny
Director Public Works Sub-Commission

The Ufficio Speciale per la Viabilità Statale of Cosenza Genio Civile is unable to use its motorcar owing to lack of tyres.

Considering the lenghth and importance of the road system in that Province, and the fact that the said Office needs some sort of transport, we beg you to arrange, if possible, for issue of a permit for fitting Allied tyres on the said car.

Awaiting the favour of your reply, I thank you

Truly yours,

Sgd./ Cassiani

Subject : Electrical Wire redrawing.

To : Electrical Section
Public Works & Utilities Sub-Commission
Hq. Allied Commission.
APO 394

1. Three electrical operating Companies in this area (Soc. Elettrica Romagnola, Soc. Idroelettrica dell'Alto Savio, Impresa Elettrica Riccione) are in desperate need of wire redrawing for the copper they have managed to salvage from their many badly destroyed lines.

2. Would it be possible to have your Headquarters arrange for the redrawing of this copper by CORRADINI in Naples?

3. This Headquarters will arrange transport of copper to Naples.

4. Total amount of copper involved is same 15 tons.

SUBJECT: Manufacture of rubber products at 1 ABW R.E.M.E.

TO: Public Works and Utilities Sub-Commission,
(Attn. Maj.Price)

1. Inclosed is one copy of Appendix "A" to ME/A/2/2964/3 of Nov.1944, on the procedure to be followed regarding the repair of and accounting for civilian type tires and rubber manufactured goods for A.C.

2. Your attention is drawn to Par.3, sub-par. a, b, c, d, page 3 of the above mentioned appendix.

3. As R.E.M.E. have requested that demands be submitted through Commerce Sub-Commission, please pass particulars of your requirements on form PR4 together with information as complete as possible, including type of rubber, sources of raw material, moulds rate at which delivery is desired, and quantity is required.

4. It is suggested that Major Price of your Sub-Commission contact Major Wood of Availability Division, personnally, in order to discuss the procedure outlined above

APPENDIX 'A' TO HQ/A/2/296/3 of NOV 44.

PROCEDURE TO BE ADOPTED IN RESPECT OF REPAIR OF AND ACCOUNTING FOR CIVILIAN TYPE TYRES AND RUBBER MANUFACTURED GOODS FOR ADC

TYRES

1. Receipts and Issues

(a) All demands for tyre and tube repair services in connection with civilian type tyres will be submitted to CMME 1 Adv Base Wksps REME by Road Transportation Section, Transportation Sub-Commission, HQ, ADC, on pro-forma PR/1 (sample attached). Demands for such repairs will not be accepted by REME from any other sources.

(b) Form PR/1 compiled with full details of tyres and tubes for repair will be forwarded in duplicate to the Pirelli Wksps ('B' Sub Wksps, 1 Adv Base Wksps) together with the tyres and tubes themselves. O. i/c 'B' Sub Wksps will retain one copy for reference and will sign and return the duplicate copy to HQ ADC as an official receipt for the items detailed thereon.

(c) Upon receipt, tyres will be inspected and segregated into the following categories:-

(i) Re-tread
(ii) Major repair
(iii) Minor repair
(iv) Beyond reinstatement

The work required in respect of tubes will not be broken down but it is assumed that each will require an average amount of work and material.

Army Form G 1045 will be used by the Wksp as internal accounting documents only.

(d) After repairs have been completed, notification will be sent to Road Transportation Section, Transportation Sub-Commission, HQ ADC, on pro-forma PR/2 (sample attached) to collect. This form will be produced by the ADC representative wishing to collect the goods. A duplicate copy of this form will be signed by the ADC representative and will be retained by O. i/c 'B' Sub Wksps as a receipt for the items repaired or

Declassified E.O. 12356 Section 3.3/NND No. 785019

1. Receipts and Issues

(a) All demands for tyre and tube repair services in connection with civilian type tyres will be submitted to CERE 1 Adv Base Wksps RMEE by Road Transportation Section, Transportation Sub-Commission, HQ, ACC, on pro-forma PR/1 (sample attached). Demands for such repairs will not be accepted by RMEE from any other sources.

(b) Form PR/1 compiled with full details of tyres and tubes for repair will be forwarded in duplicate to the Pirelli Wksps ('B' Sub Wksps, 1 Adv Base Wksps) together with the tyres and tubes themselves. O. i/c 'B' Sub Wksps will retain one copy for reference and will sign and return the duplicate copy to HQ ACC as an official receipt for the items detailed thereon.

(c) Upon receipt, tyres will be inspected and segregated into the following categories:-

(i) Re-tread
(ii) Major repair
(iii) Minor repair
(iv) Beyond reinstatement

The work required in respect of tubes will not be broken down but it is assumed that each will require an average amount of work and material.

Army Form G 1045 will be used by the Wksp as internal accounting documents only.

(d) After repairs have been completed, notification will be sent to Road Transportation Section, Transportation Sub-Commission, HQ ACC, on pro-forma PR/2 (sample attached) to collect. This form will be produced by the ACC representative wishing to collect the goods. A duplicate copy of this form will be signed by the ACC representative and will be retained by O. i/c 'B' Sub Wksps as a receipt for the items repaired or returned as beyond reinstatement.

(e) All tyres and tubes returned to ACC will be labelled with the following informations-

(i) Make, size and type
(ii) Nature of service undertaken (e.g. re-tread, repair, etc.)
(iii) Reference number and date of the relevant pro-forma PR/1.

(f) As far as possible all tyres and tubes received by Wksps as one consignment (i.e. under cover of one demand reference) will be returned to ACC in one consignment in order to facilitate cross-referencing forms PR/1 and PR/2.

(g) ACC will be responsible for transport to and from 'B' Sub Wksps of all tyres, tubes and any raw materials they supply.

(h) Unless agreement has previously been reached between HQ ACC 288 [illegible]

.../2.

Declassified E.O. 12356 Section 3.3/NND No. 785019

1 Adv Base Wksps, it will be necessary for the provision of the requisite raw materials to be made by ACC in respect of the work they wish to have carried out.

2. Costing

(a) Basic costs for the various forms of repair will be standardised and will vary only according to the size of the tyre or tube.

(b) Where ACC supplies the necessary materials, the basic cost will consist of labour and overhead charges aggregating as under:-

(i) Retread only(Tyres)

Car sizes	-	550 Lire each tyre
Truck sizes	-	1000 Lire each tyre

(ii) Major Repairs only (tyres)

Car sizes	-	200 Lire each repair
Truck sizes	-	250 Lire each repair

(iii) Minor Repairs only (tyres)

Car sizes	-	150 Lire each repair
Truck sizes	-	175 Lire each repair

(NOTE:- It is possible and likely that several major and/or minor repairs will be carried out on individual covers)

(iv) Tube Repairs

Car sizes	-	100 Lire each tube
Truck sizes	-	125 Lire each tube

(NOTE:- The cost will not vary with the number of individual repairs in any given tube and a flat rate will be charged if the item is repairable.

(c) In cases where ACC does not supply raw materials, cost will be as under:-

(i) Retread only (tyres)

Car sizes	-	1000 Lire each tyre
Truck sizes	-	1900 Lire each tyre

Declassified F.O. 12356 Section 3.3/NND No. 785019

sist of labour and overhead charges aggregating as under:-

(i) Retread only (tyres)

Car sizes	=	550 Lire each tyre
Truck sizes	=	1000 Lire each tyre

(ii) Major Repairs only (tyres)

Car sizes	=	200 Lire each repair

(iii) Minor Repairs only (tyres)

Car sizes	=	150 Lire each repair
Truck sizes	=	175 Lire each repair

(NOTE:- It is possible and likely that several major and/or minor repairs will be carried out on individual covers)

(iv) Tube Repairs

Car sizes	=	100 Lire each tube
Truck sizes	=	125 Lire each tube

(NOTE:- The cost will not vary with the number of individual repairs in any given tube and a flat rate will be charged if the item is repairable.

(c) In cases where ACC does not supply raw materials, cost will be as under:-

(i) Retread only (tyres)

Car sizes	=	1000 Lire each tyre
Truck sizes	=	1500 Lire each tyre

(ii) Major Repairs only (tyres)

Car sizes	=	300 Lire each repair
Truck sizes	=	400 Lire each repair

(iii) Minor Repairs only (tyres)

Car sizes	=	200 Lire each repair
Truck sizes	=	250 Lire each repair

(NOTE:- The total cost of servicing any individual tyre will be arrived at by aggregating the separate charges for all the individual repair operations.)

2882

...../3

Declassified E.O. 12356 Section 3.3/NND No. 785019

(iv) Tube Repairs

Car sizes	-	150 Lire each tube
Truck sizes	-	175 Lire each tube

(i) A monthly cost summary of all the repairs completed for ACC of tyres and tubes will be submitted by CEME 1 ABW on pro-forma PR/3 (sample attached) to Commerce Sub-Commission HQ ACC, with copies to Transportation Sub-Commission HQ ACC and DME AFHQ (for information).

MANUFACTURED RUBBER PRODUCTS

1. Requests to manufacture

(a) All demands for manufacture will be submitted to DME AFHQ on pro-forma PR/4 (sample attached) with copy to CEME 1 ABW for information.

(b) CEME 1 ABW will take no action to manufacture on form PR/4 until it is subsequently supported by an official order to manufacture emanating from this Directorate (Pro-forma PR/5 (sample attached)). He will, however, report to this H.Q. the potentialities of the plant for undertaking such work and any availability he may possess in respect of raw materials. If special dies are required which are beyond his capacity to produce he will submit details.

(c) Instructions to manufacture will be issued by this Directorate on Pro-forma PR/5 which will be addressed to CEME 1 ABW with copy to Commerce Sub-Commission HQ ACC.

(d) When the manufactured goods are ready for despatch, CEME 1 ABW will inform Commerce Sub-Commission HQ ACC on pro-forma PR/6 (sample attached) with copy to this Directorate. It will be the responsibility of ACC to arrange for the delivery to 'B' Sub Wksps of any materials that may be required and to collect manufactured goods. Form PR/6 will be produced by the ACC representative wishing to collect the goods and a duplicate copy of this form will be signed by him and will be retained by O. i/c 'B' Sub Wksps as a receipt for the items in question.

2. Costing

(a) The cost of the goods manufactured will be based upon the value and weight of the finished goods, the labour and overhead expenses and expenditure upon manufacture of any special dies, etc, which it may be necessary for REME to provide.

(b) Where materials are partly or wholly provided by ACC, the REME cost of [illegible] materials are

Declassified E.O. 12356 Section 3.3/NND No. 785019

(sample attached) to Commerce Sub-Commission HQ ACC and DME AFHQ (for information).

MANUFACTURED RUBBER PRODUCTS

3. Requests to manufacture

(a) All demands for manufacture will be submitted to DME AFHQ on pro-forma PR/4 (sample attached) with copy to CEME 1 ABW for information.

(b) CEME 1 ABW will take no action to manufacture on form PR/4 until it is subsequently supported by an official order to manufacture emanating from this Directorate (Pro-forma PR/5 (sample attached)). He will, however, report to this H.Q. the potentialities of the plant for undertaking such work and any availability he may possess in respect of raw materials. If special dies are required which are beyond his capacity to produce he will submit details.

(c) Instructions to manufacture will be issued by this Directorate on pro-forma PR/5 which will be addressed to CEME 1 ABW with copy to Commerce Sub-Commission HQ ACC.

(d) When the manufactured goods are ready for despatch, CEME 1 ABW will inform Commerce Sub-Commission HQ ACC on pro-forma PR/6 (sample attached) with copy to this Directorate. It will be the responsibility of ACC to arrange for the delivery to 'B' Sub Wksps of any materials that may be required and to collect manufactured goods. Form PR/6 will be produced by the ACC representative wishing to collect the goods and a duplicate copy of this form will be signed by him and will be retained by O. I/c 'B' Sub Wksps as a receipt for the items in question.

4. Costing

(a) The cost of the goods manufactured will be based upon the value and weight of the finished goods, the labour and overhead expenses and expenditure upon manufacture of any special dies, etc, which it may be necessary for REME to provide.

(b) If materials are partly or wholly provided by ACC, the REME cost of the finished products will be adjusted accordingly. If no materials are provided by ACC a flat rate of 100 Lire per pound of finished products will be charged, plus combined labour and overhead costs of 120 Lire per man-hour of direct labour. In order to obtain the total cost chargeable to ACC, it will be necessary to add a suitable contribution to cover any special dies, etc, which should be chargeable to the individual transaction.

(c) A monthly cost summary of all manufactured products completed for ACC will be submitted by CEME 1 ABW on pro-forma PR/7 (sample attached) to Commerce Sub-Commission HQ ACC with copy to DME AFHQ (for information).

GENERAL

5. It must be clearly understood that REME is normally not in a position to allot raw materials acquired from military sources for military commitments, to be used for other purposes. Consequently it will usually be necessary for ACC to arrange for the provision of all raw materials necessary for fulfilling any given requirements.

2001

.../4

Declassified E.O. 12356 Section 3.3/NND No. 785019

6. It is advisable, therefore, that before ACC places a request to manufacture upon this H.Q. it should be established by direct contact with CEME 1 ABW whether or not he is in a position to supply part or all of the materials necessary. If he is unable to do so, it will be pointless for ACC to approach this Directorate unless it is in a position itself to provide the requisite and deficient materials.

Subject : Cement- Electrical Rehabilitation

To : Director of Engineer Production and Stores
A.F.H.Q.

1. For the repairs and reconstruction work of the Tivoli and Fontecupa Power Plants
150 Tons Cement
is urgently required.

2. This application is very urgent since the situation is now critical. Reconstruction work has been interrupted due to lack of Cement.

3. We shall be glad to know that 150 Tons Cement can be made available for our important programme of Electrical Rehabilitation, since no availability is known at present by Commerce Sub Commission, it is hoped that a supply will be made available to us in the near future.

4. Will you please authorise No.3 Dot North 80 MBW Spoleto to release this amount to us to enable Power Station to carry out their programme.

OGGETTO Assegnazione pneumatici.

Questo Ispettorato, non avendo assegnata una autovettura in dotazione, si serve per le gite di servizio di una autovettura "Fiat tipo 1100„ targata Roma - 66014 di proprietà del Sig. Brancaleoni col quale ha un regolare contratto-

Recentemente sono venute a guastarsi in modo irreparabile tutti i pneumatici (copertoni)e camere d'aria) della detta autovettura,compresi quelli di scorta,né é stato possibile trovare da acquistarne per la sostituzione -

Quest'Ufficio é pertanto impossibilitato a compiere qualsiasi sopraluogo - In tali condizioni esso si rivolge a cotesta A.C,che ben conosce l'importanza dei servizi di cui ha l'incarico,affinché gli ottenga l'assegnazione di sei pneumatici completi di tipo americano per la suddetta vettura coh la più cortese sollecitudine -

La misura normale dei copertoni per la Fiat 1100 é 600 x 16 -

L'ISPETTORE GENERALE
M. Vicentini

Subject : Relations with Italian Government

To : VP, Economic Section (15)
VP, Civil Affairs Section (10)
Director, Communications Sub-Commission
Director, War Material Disposal &
Italian PW Sub-Commission

1. Vice Presidents will impress upon the Directors of their Sub-Commissions, and Directors of Independent Sub-Commissions upon their officers, the necessity of implementing the policy of the COS directive defining the new relations of the Allied Commission with the Italian Government, especially with respect to the following paragraph :

> " The Staff of Allied Commission Headquarters should occupy itself primarily with consultation and advice to the Italian Government at high levels".

2. Experience during the last six months has shown that where as officers in the field have been careful to avoid executive action or speech with officials of the Provincial governments, there has been a tendency at HQ for officers in the Sub-Commissions to forget that the "C" from A.C.C. was intended to convert the relations between the Allied Commission and the Italian Government to those of adviser (and provider of supplies) on the one hand and of a sovereign government on the other. I have heard reports of discussions and conferences which lead me to think that more forceful measures than advice have been used to persuade - if indeed not to compel - the Italian Government to accept the views of the Allied Commission and come into line. In some instances these measures have been taken by subordinate officers of Sub-Commissions speaking perhaps to subordinate officials of the Italian Government. But the effect has been the same - and is unfortunate. The Italians presume that every member of the Commission speaks with the authority of the Chief Commissioner and they suffer, in their estimation, from a multiplicity of masters, and the application of conflicting policies od "advice" and "control".

3. In future, therefore, Vice Presidents and Directors of

1. Vice Presidents will impress upon the Directors of their Sub-Commissions, and Directors of Independent Sub-Commissions upon their officers, the necessity of implementing the policy of the CCS directive defining the new relations of the Allied Commission with the Italian Government, especially with respect to the following paragraph :

> " The Staff of Allied Commission Headquarters should occupy itself primarily with consultation and advice to the Italian Government at high levels".

2. Experience during the last six months has shown that where as officers in the field have been careful to avoid executive action or speech with officials of the Provincial governments, there has been a tendency at HQ for officers in the Sub-Commissions to forget that the "C" from A.C.C. was intended to convert the relations between the Allied Commission and the Italian Government to those of adviser (and provider of supplies) on the one hand and of a sovereign government on the other. I have heard reports of discussions and conferences which lead me to think that more forceful measures than advice have been used to persuade - if indeed not to compel - the Italian Government to accept the views of the Allied Commission and come into line. In some instances these measures have been taken by subordinate officers of Sub-Commissions speaking perhaps to subordinate officials of the Italian Government. But the effect has been the same - and is unfortunate. The Italians presume that every member of the Commission speaks with the authority of the Chief Commissioner and they suffer, in their estimation, from a multiplicity of masters, and the application of conflicting policies od "advice" and "control".

3. In future, therefore, Vice Presidents and Directors of Sub-Commissions will ensure that such formal advice as it may be necessary to convey to the Italian Government is given by Vice Presidents or their Deputies or by Directors of Sub-Commissions, to Ministers or Under-Secretaries. At lower levels officers should refrain from giving formal advice and should restrict their functions to verbal consulation and discussion, expressing informally and unofficially any advice which they may feel should be given and would have the complete approval of their Director or Vice President. Generally speaking, in all their dealings with members of the Italian Government on matters affecting Italian Government territory, officers must act with diplomacy and tact rather than as mentors or governors. Only thus will the Italian Government learn to shoulder its responsibility.

SUBJECT: Water Pump.

TO : P.W. & U. Subcommission, Allied Commission.

1. One pump capable of pumping 1 liter per second against a 200 meter head is desired urgently for repairs to Loiano water system, or two pumps with same delivery against 100 meter head will serve.

2. It is proposed to drive the pump by a farm tractor until such time as motors and power are available.

3. Please advise if available, and where.

For the Commanding General:

D.M.GAITHER,
Major, CMP,
Engineer Officer,
AMG Fifth Army.

Copy to: HQ, Alcom for Industry S/O.

Major Price -
Do you know where any such unit might be located?

HEADQUARTERS ALLIED COMMISSION
APO 394
Public Works and Utilities Sub-Commission

051/PWU. 21 March 45.

SUBJECT: Electrical Rehabilitation.

TO : Ministry of Public Works
(attention: Eng. Asta)

1. With regard to the withdrawal of A.C. officers from Italian Government Territory which is expected to take place at the end of March, this change may cause a set-back in the electrical rehabilitation work, unless care is taken in handing over to you the arrangements which we have had with the electrical companies.

2. In the first place I think it would be wise for you to notify the electrical companies that all correspondence which has hitherto been addressed to this Sub-Commission should now be sent direct to you. There will be the important question of supply of materials and I think you should get the companies to forecast their supply requirements for say three months ahead, so as to give you time for procurement.

3. The manufacture of castings and machining work which is now controlled by A.C. officers and given a priority will still have to be dealt with in this manner so far as making arrangements with the Terni Steel works is concerned, but here again it is preferable that we deal through you on these matters.

4. It is our desire that there shall be no delay caused to the rehabilitation work due to this change-over and I would assure you that our officers will be available to give you every assistance which I have no doubt you will require particularly in connection with supplies for a little while to come.

5. I have no doubt that many of the problems will be cleared in our regular discussions, but I think it is wise that

Declassified E.O. 12356 Section 3.3/NND No. 785019

you should without delay inform the electrical companies with regard to their sending correspondence direct to your office when dealing with matters within the Italian Government Territory.

W.M. LAPPER,
Lieut-Colonel,
Chief, Elect. Div.

R O M A
Via Veneto

Dear Major Price,

You will find herewith enclosed, the Military works Permit AC/706 of our employee Mr. Imbimbo.

He has to reach Rimini,-where all his relatives fled to at the time of air raids,-in order to arrange all that is necessary to take his family back to Naples.

Eng. Masturzo and I would be very grateful to you if you could help him by adding "Rimini" on the back of the permit.

I thank you very much and remain

yours truly.

Avv. Santelli

5. The firm Cecchetti at Civitanova Marche (approx. 30 miles north of Ancona) has a contract with the Italian State Railways for repair and construction of rolling stock, also the making of car parts, This shop is under the direct supervision of Trans. Sub-Commission. The material is urgently needed to re-file the transformer at the plant plus the periodical consumption.
