Signor Ing. Romagnoli = Milano

Acciaierie Tubificio Brescia potrebbe risparmiare
600.000 kilowatt mensili fermando Forni Elettrici se le venissero as-
segnati 600 tonnellate di carbone mensili per Forni Martin.

Sembra opportuno nostro appoggio ad analoga richiesta
fatta dalla ditta al Comitato Siderurgica Corso Venezia 16 telef. 72741
Ing. Fidenza possibilmente prima del 18 corr mese. Preghiamola dirci
se è possibile vostra opera in proposito.

To : Capt. ROGERS by order of Col PARKER

Bresciana Company inform that Tempini's at Brescia has the possibility to redraw copper at once ; they don't know however, whether the firm have coal. I have spoken, directly, to Castiglione in Milan; he can begin the work at once, he only needs a little quantity of nafta and coal. Castiglione also says that he knows that it is possible to find in Milano at Zanoletti and Tonolli's Stores electrolytic copper bars for redrawing but it would be necessary to block = up these materials.

To Capt. ROGERS = BOLOGNA =
(Attention Col. Parker)

Bresciana informa Tempini Brescia può lavorare subito rame da rottame
ma non sa se hanno bisogno di carbone.
Parlato personalmente con Castiglioni Milano. Può subito anche lui
cominciare. Necessita solo poca nafta e poco carbone.
Castiglione dice che esistono in Milano nei Magazzini Zanoletti e
Tonolli barre di rame elettrolitico per fili ma è necessario sboboccare.
