AG 400-1 (ALGOT) MGS-AMM

30 January 1944

SUBJECT: Requisitions.

TO : Headquarters Allied Control Commission, NAPLES.

1: Letter, this headquarters, subject and file as above, dated 29 December 1943, and Appendix I thereto, dated 25 January 1944, are rescinded, and the following is substituted therefor.

2: The following instructions are issued as a guide for all officers concerned in writing requisitions for civilian supplies.

3. All supplies (Medical, Engineer, Ordnance, Quartermaster, and miscellaneous) that are required by AGO/AMM must be obtained by requisition.

4. Mechanics of a requisition:

a. Copies: Original and four (4) copies to Military Government Section, this headquarters. Additional copies optional.

b. Numbered: Consecutively, in series, by Supply Service on which rendered; e.g. No. 2 - GI - Reg. VI - Date
 " 4 - Engr. - Reg. I - Date

New series should be initiated with each new calendar year.

c. Destination: Order for direct shipment to Mainland, Sicily or Sardinia, indicating port.

d. Initiated by: Any officer.

e. Approved by: Commanding Generals and Commanding Officers of Allied Control Commission or their duly authorized deputies. (A list of all officers authorized to approve requisitions will be compiled and furnished to Military Government Section, this headquarters.)

f. Amounts: Specify by numbers of items and/or metric tons, using standard nomenclature where possible.

 NCS-AMM, Subject: Requisitions, dated 30 January 1944.

ENGINEERING PROJECTS

1. Many Engineer stores are in critical supply. To utilize these stores to best advantage, all construction, or other Engineer operations in occupied territory which require the importation of supplies or materials from Allied sources, will be covered by projects. These projects will be screened by AGS/AMM in the field, coordinated with military Engineers (U.S. and/or Br.), given a priority number, and submitted to Military Government Section, Allied Force Headquarters.

2a. Projects will be submitted in such form as to include the following information:

- (1) Nature of work to be accomplished.
- (2) Scope of work or operation - include time period of operation if pertinent.
- (3) Location.
- (4) When to be performed - expected date of doing work.
- (5) Justification - include here a statement as to why the project cannot be executed wholly with local resources.
- (6) Basis of calculations used.
- (7) Bill of materials and supplies to be imported.

b. The bill of materials will cover the over-all requirements of materials and supplies with proper nomenclature, description, quantities, and prospective dates anticipated delivery will be required. Anticipated delivery requirements will be phased if necessary.

3. Approved projects will be returned to the office of origin and will constitute the authority for proceeding with the work. Estimated bills of material of approved projects will be forwarded by this headquarters to the appropriate supply agencies as a notification of anticipated requirements.

4. Projects will not be submitted when construction or reconstruction is done wholly with local materials. Occasions may arise, however, when small amounts of common engineer supplies may be essential for use on a project being constructed from local resources. To anticipate such contingencies, a supply project may be submitted to cover authorization for the

maintenance of a small stock of ordinary items of engineer stores. Reasonable quantities of supplies may be used from this stock as unexpected demands arise. This is not to be construed as an authorization to use such stores on major works requiring a project for imported supplies.

JPL

HEADQUARTERS, ARMY SHIPYARD DIVISION

WASHINGTON 25, D. C.

LIST OF ALL ASSIGNED SHIPPING DEPARTMENTS

(Effective 15 September 1943)

NOTE:

(1) Classification of shipping designations has been reduced from "Confidential" to "Restricted" by War Department letter, AG 400,161 (25 August 1943) (C-S-1000000), dated 29 August 1943, subject: "Regulating and limiting ship lines for overseas shipment". However, their meanings will be limited to those agencies who have a specific need therefore.

(2) On this list, there appear unassigned four letter words, most of which will be assigned at a later date, when the need therefor arises. When such assignment has been made, the holder of the assigned list will indicate the number immediately following the shipping designation in question. Thus a master list can be maintained during a much shorter period of time.

(3) Shipping designations assigned to the four zones in the North African Theater of Operations will become effective on all shipments of supplies to be sent up to arrive at ports after 21 September 1943. After that time, shipments of supplies will be made to theaters rather than to specific ports, and shipping designations presently assigned to ports in the North African Theater of Operations will not be used.

to "reestablish" by the Department letter, 100,161 (23 August 1943) (S-100-161-23), dated 29 August 1943, subject: "Reestablishing and Marking Supplies for Overseas Mail Service". However, their markings will be limited to those agencies who have a surplus need therefore.

(2) In this list, there appear managed four letter words, none of which will be assigned at a later date, when the need thereof arises. When such assignment has been made, the holder of the attached list will indicate the meaning immediately following the shipping designation in question. Thus a master list can be maintained during a much greater period of time.

(3) Shipping designations assigned to the four areas in the North Atlantic Theater of Operations will become effective in all shipments of supplies to be sent up to arrive at ports after 21 September 1943. After that time, shipments of supplies will be made to theaters within then to trouble ports, and shipping designations presently assigned to ports in the North Atlantic Theater of Operations will not be used.
