For the attention of Major Evans

Dear Sirs,

With reference to your conversation last week with the undersigned regarding orders for carbon brushes for electrical machines in Southern Italy, you asked whether we could give you the name and address of our pre-war representative in Naples. The last record we have is:-

Sig. Dott. Ettore Velona,
Via Emanuele Filiberto 61,
Napoli.

Sig. Velona was not a direct agent of ours but a sub-agent of our main agents - Sigg. Ing. S. Belotti, Milan. He was, however, very conversant with our business and the requirements of the various users in his territories, and if he is still available he may be of some assistance to you.

Yours faithfully,
THE MORGAN CRUCIBLE CO. LTD.

SUBJECT:- Electrical Materials, Requisitions for

TO:- HQ ACC, Requisition Division.

1. Ref your RD-212-4 dated 21 June 44.

2. In view of the urgency of all these items it is requested that all shipping dates be brought forward where possible.

3. With regard to MCS.Reqs.No 104, Outdoor bushings of any make for the voltage and amperes specified will be accepted, as adaptors necessary to permit their use on existing transformers can be procured locally. These bushings should be shipped from stock by the most expeditious means available in view of the fact that the repair of damaged transformers is now at a stand-still.

SUBJECT: Stores Demand.
TO : Col. G. R. Crowdon, C.E.B.

1. Your letter of 2 June together with requisitions and drawings which was sent to the Industry and Commerce Sub-Commission, A.C.C., has been passed to this Sub-Commission for observation and screening.

2. The normal channel through which this Headquarters receives demands for supplies is through its Regional Officers and I shall be glad if you will request the S.M.E. Company should they apply to you again for material which you desire to requisition through A.C.C. to make their request to the Region III Engineer Officer, Lt. Col. Hensley.

3. As our Requisition Department require some further information on the particular item which you have sent in, this is being passed to Col. Hensley with a request that he take the matter up with the Company concerned to obtain the necessary information.

SUBJECT: Equipment and Supplies

(117)

Directorate of Works,
H.Q., A.A.I.,
C.E.F.

Vice Chairman,
C.E.B. ARE. 500

1140/DW
5 Jun 44

With reference to your CEB/13/2 of 27 May, it is observed that your requirements therein listed are identical with those ordered by A.C.C. on 24 Jan, 10 Feb, 29 Feb, 1 Mar, 12 Mar, except as indicated in para 3 below. It is appreciated that you now require these stores in addition to those already demanded but no useful purpose will be served by forwarding them through "Q" branch of this H.Q. It is essential that demands should be submitted through normal channels of supply and in this case the proper course is for you to demand on A.C.C.

2. To give all possible backing to your previous demands, cables have been dispatched from C.E. and C.A.O. personally to A.F.H.Q. requesting very early delivery of these stores and copies are attached for your information. Similar action will be taken in connection with the demands you are now submitting should this in due course prove necessary.

3. The supply of leather should be a matter for local purchase, and the matter is being investigated.

The supply of electric torches and batteries should be possible from normal military stocks.

It is noted that 40,000 sheets of Insulating oil filter paper of each size are required in addition to the 20,000 of each previously ordered. Can you indicate the period during which these quantities are likely to be consumed.

REF: GEM/13/2

27 May 1944

SUBJECT: Equipment and Supplies

TO:--
DS HQ AAI G F
(Attention Lt-Col. F.A.R. SAVERE RE.)

1. The following is the list of equipment and supplies, and the specifications therefor, which should be incorporated in your letter for General ROBERTSON'S signature.

CARBON BRUSHES

These brushes are urgently required to permit the continued operation of the generating plants in Southern IPALT.

(a) The following brushes should be shipped by air under the very highest priority:--

Type - Morganite	Number Required	Size in millimeters
HM 6	100	55 x 25 x 19
HM 6	50	40 x 30 x 30
CM	50	25 x 30 x 20
MG 2	75	30 x 30 x 20
HM 5	25	30 x 30 x 20
HM 5	50	50 x 40 x 32
CM 5	75	25 x 30 x 20

(b) The following brushes should be shipped by the most expeditious means, other than air, on high priority:--

Type - Morganite	Number Required	Size in millimeters
HM 6	300	55 x 25 x 19
HM 6	150	40 x 30 x 30
CM	150	25 x 30 x 20
MG 2	225	30 x 30 x 20
HM 5	75	30 x 30 x 20
HM 5	150	50 x 40 x 32
CM 5	225	25 x 30 x 20

The carbon brushes listed above are referred to as "Morganite" brushes of certain types. The Morganite brush is well known to the trade in both Britain and the U.S. The characteristics of the brushes will be immediately understood by the supplier. It is desired that brushes having the characteristics of the brushes listed above be supplied. They should be shipped from stock.

MATERIAL FOR REPAIR OF GENERATORS AND TRANSFORMERS

This material is required for the areas now under Allied control and in areas not yet occupied; it is urgently required to permit the repair of generators and transformers for military and essential civilian use.

Solvent for above varnish	100	"
Gray insulating coating varnish	100	"
Glycerine to blend with litharge	100	"
Litharge (PbO)	20	"
Material having the characteristics similar to that listed above may be substituted where the exact material is not available. This material should be shipped from stock.	900	"

H.T. Bushings

The H.T. bushings for transformers and oil circuit breakers are particularly vulnerable to damage from bombs, mines and shell fragments. Many transformers which can otherwise be repaired are unusable because the bushings have been destroyed. The following bushings are urgently required:--

All are outdoor type porcelain bushings.

	Qty	Unit
(a) 150 KV 400 amperes	90	Transformers
(b) 60 KV 400 "	12	Oil Circuit Breakers
(c) 60 KV 250 "	12	
(d) 60 KV 150 "	12	

Gun-lan solid.....	100	lbs
Solvent for above Gun-lac.....	50	"
Wax-paper sheets of different types.....	25	gals
Pure cellulose insulating paper for copper wire.....	100	S.Y.
Insulating cotton thread, 60-80 vital, for copper wire.....	3000	lbs.
Bakelite tubes, 1/2" x 3/4" dia.....	1000	yds
" " 3/4" x 1 1/4" dia.....	100	"
" " 1 1/2" x 2" ".....	100	"
Standard cloth tapes, assorted diameters.....	1000	"
Bakelized paper ribbon for flanged collars.....	600	lbs
Rubber sheets, 1/16" - 1/4" thickness.....	50	S.Y.
Linoleum for transformer oil gaskets, 1/32" - 1/4".....	100	"
Insulating varnish, drying in air.....	200	gals
" " " store resins to hot oil.....	1250	"
Solvent for above varnish.....	200	"
Bakelite varnish.....	100	"
Solvent for above varnish.....	100	"
Grey insulating coating varnish.....	100	"
Glycerine to blend with litharge.....	20	"
Litharge (Pb.O).....	300	"

Material having the characteristics similar to that listed above may be substituted where the exact material is not available. This material should be shipped from stock.

H.V. BUSHINGS

The H.V. bushings for transformers and oil circuit breakers are particularly vulnerable to damage from bombs, mines and shell. Many transformers which can otherwise be repaired are unusable because the bushings have been destroyed. The following bushings are urgently required:- All are outdoor type porcelain bushings.

	Nos. required for	
	Transformers.	Oil Circuit Breakers
(a) 150 KV 400 amperes	36	12
(b) 60 KV 400 "	12	12
(c) 60 KV 250 "	36	-
(d) 30 KV 750 "	6	-
(e) 30 KV 400 "	6	-
(f) 10 KV 1250 "	24	-
(g) 10 KV 1000 "	12	-
(h) 10 KV 750 "	36	-

Outdoor type bushings of any make for the loads and amperes specified will be satisfactory, as adaptors necessary to permit their use on existing transformers can be procured locally. These bushings should be shipped from stock by the most expeditious means available, except air transport.

INSULATING OIL FILTER

-3-

INSULATING OIL FILTER PAPER

This filter paper is required for drying transformer oil. It is used in a standard oil drying filter press. May the following please be supplied:-

40,000 sheets 32mm square
40,000 sheets 185mm square

HYDRAULIC MATERIAL

Leather for packing of hydraulic turbines - 10 square metres.

Specification:- This should be a good grade of leather, approx 1/4" thick, supplied in sheets of 1 M.S., or approx. It will be cut to size on the site.

The following material is believed to be available from Army stocks in this theatre :-

Hand flash lamps..... 100 No.
Extra batteries..... 200 "
Extra bulbs..... 100 "

Dry batteries for telephones 200 No.

5041

✓ Portable telephonic sets (complete with batteries)	25
Storage batteries, lead type, for trucks 12 V 100 Ah	10
Electric lamps, assorted, for ¹²⁵ 75 V (25 to 200 w.)	1000
	500 - 500
	500 - 1000
Waterproof awnings 6 x 6 m.	10
" " " 6 x 8 "	10
Waterproof coats, assorted sizes for men of	150
1.60 to 1.85 ft height	150
Rubber boots, assorted sizes as above	150
Leather shoes, assorted sizes as specified	760

Ci riferiamo alla no. richiesta di cerchiioni da 6,00 x 16 per ruote di automobili ed ai successivi accordi con il Vs. Sig. Mag. Price.

A seguito della segnalazione gentilmente fattaci dal detto Maggiore ci siamo recati ai seguenti indirizzi :

- a) Sig. Guarini - Via Cappella Vecchia n°46
- b) Sig. Carraturo - Via S. Cosmo n°46

ed abbiamo richiesto la consegna di detti cerchiioni.

Entrambi le ditte ci hanno dichiarato di non essere in possesso di quanto noi richiedevamo ed inoltre di non avere ricevuto alcun ordine per tale fornitura a noi.

Vi facciamo presente la necessità che abbiamo di venire in possesso di tali cerchiioni e pertanto Vi preghiamo ancora di volerVi cortesemente interessare perchè possiamo ottenere gli stessi.

Ringraziamenti.

Translation

We refer to our request for iron wheels size 6,00 x 16 for cars and to agreement with your Maj. Price.

After the communication kindly the said Major gave us we sent an employe of ours to the following addresses:

- a) Mr. Guarini - Via Cappella Vecchia 46
- b) " Carraturo - Via S. Cosmo 46

AFLR(1)B.

to ask for the delivery of the said wheels.

Both the firms declared they did not hold what we were asking for and besides they had never received any order of such a supply for us.

We notify our need of obtaining such wheels and we beg you again therefore to kindly take the necessary steps in order that we receive them.

With many thanks.

CENTRAL ELECTRICAL BOARD

HERE

In data 4 Maggio Vi abbiamo rimesso una richiesta di :

- 10 bombole di ossigeno - 6 bombole di acetilene

a noi occorrenti per la riparazione di incastellature A.T. per la ns. Centrale Capuano.

In data 17 Maggio tramite il Vs. interessamento del quale sentitamente Vi ringraziamo, abbiamo ottenuta dal P.B.S. una assegnazione per:

- 5 bombole di ossigeno - 2 bombole di acetilene.

Poichè però dette bombole non sono sufficienti al ns. fabbisogno siamo costretti a chiederVi ancora con la presente un'assegnazione di:

- 5 bombole di ossigeno
- 4 " " acetilene

Vi preghiamo di volerVi cortesemente interessare perchè la P.B.S. ci rilasci l'autorizzazione necessaria al ritiro di tali gas.

Ringraziamenti.

Translation

On 4th Maj we sent you a request of :

- 10 bottles oxygene - 6 bottles acetylene

we need for repairing works at the supporting framework for the H.T. switches of our Capuano plant.

On 17th Maj through your interest wich we thank you very much for, we received by the P.B.S. a release of:

- 5 bottles oxygene - 2 bottles acetylene.

But as they are not enough for our needs we are obliged to ask by the present an allotment of :

- 5 bottles oxygene
- 4 bottles acetylene

We beg you to kindly take the necessary steps in order that the P.B.S. give us the needed authorization to the supply of the said gas.

With many thanks.

SUBJECT : Requisition - (Shipping Advice)

TO : HQ A.C.C. (Attention: Major R.A. Martino)

Referring to your Requisition No. EICP-IV 4/17/Misc. of 24 Jan, '44, (MGS No. 63) which was acknowledged by this Hq on 3 March 1944.

Following pertinent shipping information is now forwarded:-

(Extract from Cable received from CCAG)- "First 4 items scheduled to be shipped parcel post approximately second week in May consigned to RC40, Region 1, AFO, AFO 550, and marked Encliv TCG 49, D 432.

Electronic vacuum tubes similar to telefunken RCH 1404 on fourth item not available in US, but supplying nearest possible substitute. Dimensions will be slightly smaller. Tube will have 1.5 filament amperes and filament, voltage of 5 volts. It will be a full wave rectifier, and, therefore, it will be necessary to connect both plates together to make a half wave rectifier similar to telefunken. Tubes will be supplied with bases, and these bases must be substituted for those in present circuits and wired accordingly. Expect instruction sheets to accompany the tubes.

Availability condenser tubes last 2 items not known as yet. Expect to advise by 20 May. It is hoped to procure some from stocks. Manufacturing time these tubes is approximately 1 month."

SUBJECT:- Request for Release of Scrap Materials from SAE

TO:- HQ 1090th Engineer Utilities Coy (Special), APO 782
(Attention Captain ALBERT P DENNIS JR)

1. The following procedure has been laid down for allocating engineer materials which can be used for the rehabilitation of the electric power system :-

- (a) The unit desiring materials should state what is required, where located and the purpose for which desired, and make a demand for same on their HQ (in your case the Engineer, FBS).
- (b) The Engineer, FBS will present this demand to the Engineering Materials Committee of the Local Resources (Italian) Board.
- (c) In the case of electrical materials the Engineering Materials Committee will refer the demand to the AAI Central Electrical Board. On approval by the Central Electrical Board they will allot the material as requested.

JAMES P. CROWDON,
COLONEL CE,
Vice Chairman, AAI -C.E.B.

1090th ENGINEER UTILITIES COMPANY (SPECIAL)
APO 782, U. S. Army

5 May 1944

SUBJECT: Request for Release of Scrap Materials from S.M.E.

TO : Vice Chairman, Italian Local Resources Board, Electrical Commission.

1. It is requested that necessary authority be granted for this unit to remove 750 kilo of scrap wire from S.M.E. materials yard at Piedmonte, Italy. The wire desired is short sections of salvaged stranded conductor wire that was turned in by this unit to the materials yard at time of completion of repairs to Benevetto-Piedmonte power line.

2. The wire desired is short sections of stranded conductor and it will be used as a base for making of motor rewinding wire. Facilities are available to this unit for the making of motor rewinding wire but it is necessary to have copper for the manufacture of the desired items. It is contemplated that all materials obtained will be used for U. S. Army projects.

13/2

17/4/44

SUBJECT :- Steel angles.

REF:- 17/20/LR.

Central Electrical Board,
H.Q., A.A.I., Adm Echelon.

16 April 1944.

1. Reference your demand of 14 April 44 for $3\frac{1}{2}$ tons steel angles 2 x 2 x 3/16 for repairs to S M E Transformer Station, Mattamaggiore; at the meeting of the Engineering Materials Committee on 4 April there was submitted for allocation amongst interested services a list of steel at ILVA Works, TORRE ANUNZIATA (Appendix D to Agenda dated 31st March) and these were divided mutually between Royal Navy, C.E., P.B.S., and TI (Br).
2. In this list were the following :

45 x 45 x 5 mm	14,000 Kilos.
50 x 50 x 5 mm	15,000 "
50 x 50 x 6 mm	22,000 "
3. Any of these sizes would doubtless suit your purpose, and it is suggested that you approach one of the above mentioned Services with a request to let you have $3\frac{1}{2}$ tons.
4. Should this suggestion be unfruitful, please inform this office, and further endeavours will be made to locate suitable material.

MEMORANDUM FOR COL. GORDON

In order to mount on our cars and trucks the tyres we have lately got from the Army we have bought steel wheels suitable for the 6,00-16 size tyres.

But until to-day we have not been able to find all the wheels, as it seems that in the last weeks there has been a great request of the above mentioned wheels.

We have been told that the Army has requisitioned 30 wheels of this type by the firm Della Vecchia in Naples. Would it be possible to get some of these? Our present need is of 15 wheels.

OFFICINA COSTRUZIONI RIPARAZIONI ELETTROMECCANICHE NAPOLETANA

6th April 1944.

TO Col GROWDON

Application for coal

NAPLES

Sir,

We beg to submit to your kind attention what follows.

Our firm is specialized for mechanical works for account of the Southern Electric Company, the Circumvesuvian Railway Company and other public utility Companies, and is now requisitioned by the P.B.C.

For the execution of the above mentioned works we have in our factory a blacksmith-carpentry section provided with 12 forges, all of which are working, entailing a monthly consumption of about 3 tons Coal.

Our present working engagements concern particularly the repairs of some frame works for the Capuano and Latose plants and the repairs of tanks for transformers and radiators which are twisted or deformed in consequence of the explosion of mines.

We have also a foundry for bronze and aluminium, which is specially equipped for the casting of insulator tops and joints for high and low tension lines ordered to us by the Southern Electric Company and for electric railway lines ordered by the Circumvesuvian Railway Company.

We therefore require in addition to the above a monthly allotment of about 4 tons foundry coal.

Hoping that we shall be able to obtain these allotments, we remain, Sir,

Yours respectfully,

S/A O.C.R.E.N.

Memorandum for Col. GROWDON

60 KV BENEVENTO-CALORE-TUSCIANO LINE

For repairing the 60 KV Benevento-Calore-Tuscianno line it is necessary to make anew the foundation of the supports 125 and 128 of the Benevento-Calore and the support n° 57 of the Calore-Tuscianno, which work requires in all 19 m³ of concrete to pour with 250 kg. of cement for cm. Thus 4,75 Tons of cement are required and we beg you to let us have this material from the Ilva Factory in Bagnoli.

Naples, the 30th March 1944
MF/pz

Sent to Col. Smith. He will request that this be sent to 3 Div.

*Received by Lieut Paul. 543 E-10 Capt 4960
and used up on job.*

(34)

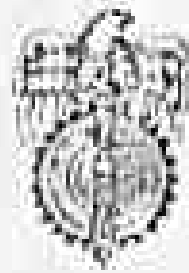

Memorandum for Col. COOLEYLINE BETWEEN 60 KV CAPUANO GENERATING STATION
AND VOLTURNO DIESEL STATION

For the construction of the above mentioned electric line it is necessary to mount 4 supports which require for their foundation compressively about 50 m³ of concrete. The cement required, compared to Kg. 250 for m³ will amount to 12,5 Tons and we beg you to let us have this material from the Ilva Factory in Bagnoli.

Naples, the 30th March 1944
MF/pz

*Sent to Col Cooley with
request to supply cement reqd.*

S E D E

Qui accluse, Vi rimettiamo copie di n°3 richieste di materiali indirizzate all'A.M.G. e per le quali abbiamo già ottenuto l'approvazione del Col. Hensley in data 20 e 23 marzo corrente.

Ci occorreva ancora, per ottenere i materiali, l'autorizzazione alla consegna da parte della P.B.S. alle ditte che ne sono in possesso.

La P.B.S., alla quale ci siamo rivolti ci ha inviati alla E.S.S. Mag. Holmes-palazzo della Prefettura-assicurandoci che a tale ufficio è attualmente devoluta la competenza a riguardo. Senonchè il Mag. Holmes ci ha comunicato, in data 25 Marzo, che il ferro ed il cemento sono attualmente totalmente bloccati per scopi bellici e che l'unica cosa che poteva fare era di mettere le ns. richieste in lista con le altre.

all.3 Poichè riteniamo che in tal modo difficilmente riusciremo ad ottenere quanto ci occorre, Vi preghiamo di volervi cortesemente interessare a riguardo onde farci ottenere le suddette autorizzazioni.

Ringraziamenti.

Translation

Hereby we enclose the copies of our 3 requests for some materials that we sent to the A.M.G. and for which on 20 th. and 23 rd. March we obtained the approval of Col. Hensley.

In order to receive the materials we needed the authorization to release of the P.B.S. for the firms that hold them.

The P.B.S. we asked for sent us to the E.S.S.-Major Holmes-Prefettura Building-and confirmed us the said office is at present the only able to do it. But on 25 th. March Maj. Holmes told us the iron and the cement are at present quite requisitioned for the war and the only thing he could do was to make a request for our needs.

As we think we will not be able on this way to obtain what we need, we beg you to kindly do the necessary steps in order we receive the above said authorization.

Thanks.

SUBJECT: Requested for Equipment Needed in Italian Electric Power Systems
TO : Industry and Commerce Subcommittee.

1. It is requested that a requisition be placed for the following equipment to be used in Italian electric power systems, and which is urgently needed to insure the supply of electric power to essential military and civilian requirements in Italy. Although details of each item are shown on the attached blueprints, it is emphasized that the equipment furnished need not be exactly as depicted; but that the items need only possess the electrical ratings specified and be of such physical dimensions that they can readily be adapted for use in place of the items shown. *The bushings should be shipped from stock.*

2. A list of the material follows:

SUBJECT: Material at Pantozzi Plant Requested by Societa Meridionale Elettricita.
TO : Deputy Director of Works A.C.M.F.

1. In order to make necessary repairs to the Benevento substation, the Societa Meridionale Elettricita has requested authorization to purchase 120 square meters of hollow tile, size 12 x 20 x 24 centimeters from the Pantozzi factory in Benevento. It is understood that this plant is under the control of the Deputy Director of Works.

2. It is recommended that the authorization be granted.

TO : Deputy Director of Works AFHQ Adv Adm Echelon
SUBJECT: Manufacture of Electrical Conductors

The Societa Meridionale di Eletticit  have placed an order with the S.A. Fice Co. at 236 Piazza Arenaccio Naples for the following material required in this area and which will also form a basis of supply for areas not yet occupied.

Flexible rubber conductor	500 Volt	2 x 0.50 sq mm	300,000 metres
"	"	2 x 0.75 " "	150,000 "
"	"	2 x 1.0 " "	50,000 "
Insulated copper wire	600 Volt	0.5	200,000 "
"	"	0.75	150,000 "
"	"	1.50	30,000 "
"	"	2.0	30,000 "
"	"	6.0	10,000 "
Small aldrey cord	300 Volt	5.0	10,000 "
"	"	8.0	30,000 "
aluminum	600 Volt	12.0	9,000 "
"	"	25.0	6,000 "
Telephone conductor			30,000 "
Wrapping wire			600,000 "

The S.A. Fice Co. have now in stock all the raw material to fill this order and only require your permission to proceed with the manufacture. It is recommended that this permission be granted.

JAMES P. GROWDON
Colonel C.E.
Chief, Electric Power Mission.

SOCIETA MERIDIONALE DI ELETTRICITA

(15)

Memorandum for Col. GROWDON

In addition to the materials that have already been requested with our letter 451-429 to Amgot dated Jan. 12th last, the following materials are urgently needed:

I Shoes

All our workmen have had no opportunity of buying shoes since more than one year. Shoes can be presently bought only on the black market at prices that they cannot pay. Furthermore the shoes they received were of a bad quality; so that workmen are now almost bare footed.

Specially patrols and line-men have great difficulties. Also the other workmen meet difficulties in going from their homes to the plants and viceversa, for which they often have to cover noticeable distances (Sila plants).

Giving shoes to the workmen is therefore a matter of the highest importance.

The workmen concerned are 760, and we should suggest to provide shoes for each of them.

In case a more restricted number would be taken into consideration, we should suggest to give a pair of shoes to each of the patrol and linemen and to each of the workmen who have to cover the longest distances to go to their job (Sila plants). In this case 394 pairs of shoes would be required.

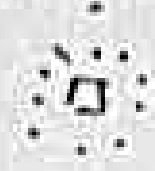

For the most restricted allowance, at least 175 pairs of shoes would be necessary, in order to supply with them all the patrol and linemen.

For a request of 760 pairs the sizes would be the followings:

English Equiv	3½	4	5	6	6½	7	7½	8	8½	9	9½
Size nr.	36	37	38	39	40	40½	41	42	43	43½	44
Nr. of pairs	4	4	11	19	42	64	102	281	99	65	54930
	10	10½	11	12							
	44	45	46	47							
	38	23	4	4							

{ Lt. Col. Ela.
Lt. McKee.

Adriatic Box.
Salvage Dept.

2)

SOCIETA MERIDIONALE DI ELETTRICITA

II Materials and tools for repairs

Flashlights. In addition to those requested with our above mentioned letter dated Jan. 12th last, (for Sila and Matese lines) 20 more flashlights are required for Apulia lines.

In total (complete with batteries)	nr. 70	100
Portable telephonic sets (complete with batteries)	" 25	100
Spare batteries	" 200	

Various tools

We estimate that these tools may be obtained from one of the following firms, which now cannot freely sell as their stores have been requisitioned by the Army:

Edoardo Ricco	- Via Monteoliveto 35 - Napoli
Edoardo Franco	- Via Guglielmo Sanfelice 49 - Napoli
Francesco Pomicino	- Corso Garibaldi 370 - Napoli
Soc. Anonima Forniture Oltremare Statali e Regionali S.A.F.O.S.E.R.	
	Via Seggio del Popolo 12 - Napoli

Steel blades for bow-saws	nr. 50 dozens
Pad saws (about 20" length)	" 12
Adjustable spanners for bolts from 1/4 "to 1" : serials	" 12
Double-ended spanners for bolts from 1/4 "to 1" : serials	492 12
Tubular spanners for bolts from 1/4 "to 1" : serials	" 12
Portable, double-handled, parallel shears for copper and steel-aluminium conductors up to 22 mm. diameter	" 12 7/8"
Portable punching tools for holes up to 16 mm. diameter	" 12 8"
Usual tackles or, if possible, of the type employed by the Army (Coffin Hoists for 1 1/2 to 3 tons - single chain - Banville - Ohio - U.S.A.)	" 12
Leather for packings of Pelton turbines 1/4" - 5/16" thick sq. m.	20

./.

3)

SOCIETÀ MERIDIONALE DI ELETTRICITÀ

Paper for oil philters. We required 40.000 elements. We estimate that it will be possible to have an immediate supply of 10.000 from Ooren.

III Materials and instruments for carrier current telephony

S.M. Graphite brushes for carrier current groups in operation:

15 x 20 x 30 mm.	nr.	100
10 x 20 x 30 "	"	200

For the repair of two carrier current stations we should require:

*Designated equip.
have on hand for*

Milliammeters relays type Weston mod. 30	nr.	2
Milliammeters type Weston mod. 425 scale 0 to 250 mA	"	4
A.C. rectifier type milliammeters Weston mod. 301 (range 0,5 mA - rectangular)	"	4
Telephonic relays with three double contacts and double coil windings for 30 Volt d.c.	"	50
Telephonic relays with three double contacts. Coil winding for 30 Volt d.c. and delayed disexcitation	"	20

We estimate that the above two types of telephonic relays should be available by Società Esercizi Telefonici (S.E.T.). We are now inquiring if the S.E.T. is in condition of supplying them according to their necessities.

Per la riparazione dei cavi di bassa tensione installati presso la ns. Centrale del 2° Salto Matese in Piedimonte d'Alife, abbiamo urgente bisogno di :

- 6 mq. di piombo in lastra dello spessore di 5 mm.

La Soc. per la Trasformazione del Piombo è disposta a fornirci detta lastra mediante cessione da parte ns. dei rottami di piombo occorrenti, ma richiede l'autorizzazione del P.B.S.

Vi preghiamo pertanto di rilasciarci la Vs. approvazione onde poter ottenere detta autorizzazione.

Ringraziamenti.

Translation

For repairing the low-tension cables displaced in our Central Station 2nd. Matese head in Piedimonte d'Alife we urgently need:
- 6 sq. of lead sheets with thickness of 5 mm.

The "Soc. per la Trasformazione del Piombo" is willing to make this material if we will give the necessary fragments of lead, but it requires the authorization of the P.B.S.

We beg of you therefore to kindly give us your approval in order to obtain the aforesaid authorization.

Thanks.

Dear Col. Counts.

(9)

Referring to your letter of 5 Feb. 44, the material to which you refer was requisitioned thru normal channels A.C.C.

I am not surprised that it has not reached A.F.H.Q. This is an illustration of the point I discussed with you and Gen. Elliott viz. that A.C.C. requisitions are too slow and uncertain to be effective for Power work. When the requisition shows up it should be sent forward promptly.

JAMES P. CROWDON
Colonel C.E.
Chief, Electric Power Mission.

AFHQ (Adv. Adm. Echelon)
APO 400 - U. S. Army

Dear Col. Growdon:

This acknowledges receipt of your letter of 25 January to General Elliott, listing certain materials you have requisitioned, such as condenser tubes, condensers and transformer oil.

A check with MGS here indicates the requisition has not yet been received in that section. If and when received, action here will be expedited. It is possible your requisition may have been a military one in which case it would not come through MGS in this headquarters. Will you please advise on this subject?

For the Chief Engineer:

G. A. Counts

P.G.V.

Per l'esercizio dei nostri impianti idroelettrici e delle nostre linee di trasporto è necessario ottenere al più presto quanto segue :

- 1) - Vetture ed autocarri - Quelli attualmente in servizio (nostri o noleggiati) sono in assai cattivo stato e sono in numero insufficiente. Gli autocarri in cattivo stato non possono essere impiegati per trasporti rapidi come occorre in molti casi (riparazioni urgenti, ispezione di linee in seguito a scatti, ecc.). Alcuni autocarri sono talmente vecchi, che non sono suscettibili di ulteriori riparazioni. A molti altri è necessario sostituire le gomme e le camere d'aria (Vedi il seguente punto 2). L'esperienza delle scorse settimane ha mostrato che non è possibile noleggiare altri autocarri, da impiegare lungo le linee di trasporto o su centrali lontane. In molti casi siamo stati aiutati da automezzi dell'Esercito, ma dobbiamo far presente che per i servizi urgenti è necessario di aver dislocato i mezzi lungo le linee e sugli impianti. In vista di ciò chiediamo i seguenti automezzi :

6	da	1 T.	circa
12	"	1,5 T.	"
8	"	3	"

- 2) - Copertoni e camere d'aria per le vetture e per gli autocarri. I tipi e le misure richiesti risultano dallo allegato 1. Mettiamo in evidenza che i copertoni e le camere d'aria attualmente montati sono in così cattivo stato, che contiamo non potranno restare in servizio per oltre 1 1/2 - 2 mesi ancora.

4909

./.

Telegrammi: TUSCIANO - NAPOLI

Fabbisogni più
urgenti

SOCIETÀ MERIDIONALE DI ELETTRICITÀ

2.

- 3) - Materiali per riparare camere d'aria - Ci occorrono materiali per dotare 40 fra vetture ed autocarri e per fare non meno di 2000 riparazioni.
- 4) - Passanti per trasformatori e per interruttori occorrono per la riparazione di alcune unità, ed anche quale riserva per unità in esercizio. I tipi ed i quantitativi sono indicati nell'allegato 2. Particolarmente urgenti i passanti per le SS. di Foggia e di Benevento.
- 5) - Olio isolante per trasformatori - In data 18/12/43 abbiamo già richiesto la fornitura di 102 T. di olio (vedi allegato 3). Facciamo presente che fra 2-3 mesi saremo privi di olio.
- 6) - Olii e grassi lubrificanti - Le riserve attualmente in nostro possesso si annulleranno in circa 2 mesi. Per evitare l'arresto dei nostri gruppi occorreranno i quantitativi di cui l'allegato 4.
- 7) - Acido solforico per batterie di accumulatori - Le batterie di accumulatori sono assolutamente indispensabili per l'esercizio delle centrali e delle Sottostazioni. Occorre la fornitura di 5 T. di acido (a 22° B.) Occorrerebbe 1 T. entro circa 15 giorni e le restanti 4 T. entro 2 mesi (1 T. ogni 15 giorni).
- 8) - Cartoncini per filtro-pressa - L'olio dei trasformatori e degli interruttori richiede un trattamento periodico. Ci occorrono 40000 cartoncini (20000 per ciascuno dei tipi rappresentati nell'allegato 5). I 40000 cartoncini dovrebbero essere forniti in 4 mesi (10000 al mese, e possibilmente a partire dalla fine di gennaio).
- 9) - Spazzole per alternatori e per dinamo - Occorrono i quantitativi e le dimensioni di cui l'allegato 6 (Possibilmente una metà entro febbraio e l'altra metà entro marzo).
- 10) - Completì impermeabili e stivali di gomma per guardiafili - Negli ultimi mesi abbiamo perduto quasi totalmente le dotazioni di impermeabili e stivali di gomma dei nostri guardiafili. Data la necessità di ispezionare rapidamente e con ogni tempo le poche linee ancora efficienti, occorrono 150 impermeabili e 150 stivali di gomma di misure assortite (per uomini da 1,60 a 1,75).
- 11) - Copertoni impermeabili - Per i lavori all'esterno occorrono 10 copertoni da 6 x 6 m. e 10 da 6 x 8 m.

4908

./.

SOCIETÀ MERIDIONALE DI ELETTRICITÀ

3.

- 12) - Lampade portatili e batterie per ispezioni rapide - Abbiamo già avuto 22 lampade portatili. Per completare la dotazione dei nostri guardiafilari sparsi lungo le linee Sila e Matese occorrono ancora 50 lampade.

For continuing the operation of our hydro-plants and transmission lines it would be necessary to have a quick supply of the following materials:

Prat. E 3

P.G.V.

Telegrammi: TUSCIANO - NAPOLI

- 1) - Cars and trucks - Those which are presently at our service (ordered by us or hired) are in very bad conditions and are insufficient as for their number. Trucks in bad conditions cannot be used for quick trasportations as needed for many jobs of ours (urgent repairs-patrolling of faulted lines, etc). Some trucks are so old that it is now impossible to repair them furthermore. Many others need change of their tyres and tubes (see following number 2). The experience of last weeks as also showed the impossibility of hiring other trucks for employment along transmission lines or in far hydro-plants. In many occasions we have been helped by trucks of the Army. But it must be pointed out that for urgent services it is necessary to have the trucks already along the lines and the plants. On account of that we should ask the following trucks:

6	of about	1	Ton
12	of about	1,5	töns
8	" "	3	"

- 2) - Tyres and tubes for cars and trucks. Types and sizes needed result from the annex 1. We point out that tyres and tubes now employed are in such bad conditions that we estimate they will last no more than 1 $\frac{1}{2}$ - 2 months. *all Tyres 1/3 Tubes*
- 3) - Materials for repairing tubes - We would need materials for equipping 40 cars and trucks and to make not less than 2000 mendings. *not returned*
- 4) - Bushings for transformers and breakers are needed for the repair of some units and also as spare parts for other units now in operation. Types and quantities result from the annex 2. Especially urgent are the bushings for Foggia and Benevento Substations.

*ordered
See
letter 11 Jan
to Industry
+ Armies*

SOCIETA MERIDIONALE DI ELETTRICITA

5) - Insulating oil for transformers

We have already applied for the supply of 102 Tons of oil on the 18/12/43 (see annex 3) We must point out that in 2-3 months we shall remain without oil. *not received*

6) - Lubricating oils and greases

Stocks at present held by us will be finished in about 2 months. To avoid the arrest of our units, the quantities of oil and grease of the annex 4 are needed. *urgent*

7) - Sulphuric acid for storage batteries

Accumulators batteries are absolutely necessary for the operation of our plants and substations. It would be necessary a supply of 5 Tons of acid (22° B). One ton would be necessary in about 15 days. The remaining 4 Tons in two months (1 Ton for every fortnight).

8) - Paper for oil philters

ordered
Oil of transformers and breakers needs a periodical treatment. We need 40.000 elements (20.000 for each type showed in the annex 5). The 40.000 elements are needed in 4 months (10.000 each month and possibly from the end of January).

9) - Brushes for alternators and dynamos

ordered
We need the number and types of annex 6 (possibly one half in february and one half in march).

10) - Waterproof suits and rubber boots for patrol men

In the last months we have lost almost entirely our stocks of waterproof and rubber boots for patrol men. On account of the necessity of patrolling quickly and by any weather the few lines now available, we should need 150 waterproofs and 150 rubber boots of assorted sizes (for men of 1,60 to 1,75 m.)

11) - Waterproof awnings

For works on outdoor equipments are needed n° 10 of 6 x 6 m. size and n° 10 of 6 x 8 m. size.

12) - Flash lights and batteries for night patrolling 4905

We have already received 12 flash lights. For equipping all the patrol men scattered along the Sila line and the Matese line 50 more flash lights would be required.

ALLIED MILITARY GOVERNMENT

N A P L E S

Per i lavori dei ns/ impianti occorrono, fra l'altro, circa 700 mq. di lastre ondulate di Eternit da mt. 1,50x1,00 che la Ditta Guarracino Assunta - Piazza Carlo III n°58 - Napoli, ha disponibili e per il quale pretende lire 200 al mq.

Il prezzo corrente di detto materiale, prima dell'occupazione alleata, era di £. 18 il mq.; ci risulta che al principio di dicembre una ditta presso Sorrento ne ha venduta una partita a £. 115,= il mq.

Chiediamo l'intervento di Codesto Comando per ottenere dalla Ditta Guarracino la consegna del materiale a noi occorrente ad un prezzo equo.

ALLIED MILITARY GOVERNMENT

N A P L E S

For the executing of the works to our plants we need, among other things, about 700 sq.m. of waved plates of Eternit of the size of 1,50x1,00 which the firm of Assunta Guarracino - Piazza Carlo III n. 58, Naples - has on sale and for which she asks L.200 per sq.m.

The current sale price for the above-mentioned material was, before the occupation for the Allied, of L. 18 per sq.m.; it is to our knowledge that, in the beginning of December, a firm near Sorrento has sold a lot of it at L.115,= per sq.m.

We ask your Command to kindly intervene, in order to enable us to obtain, at a reasonable price from the firm of Guarracino, the deliver of the material we require.
